Merleau-Ponty's Existential Phenomenology and the Realization of Philosophy Bryan A. Smyth, 2013-12-19 Bringing to light the essential philosophical role of Marxism within Merleau Ponty's reinterpretation of transcendental phenomenology this book shows that the realization of this project hinges methodologically upon a renewed conception of the proletariat qua universal class specifically that it rests upon a humanist myth of incarnation which substantiated by Merleau Ponty's notion of heroism locates an objective historical purposiveness in the habituated organism of the modern subject Foregrounding the phenomenological priority of history over corporeality in this way Smyth's analysis recovers the militant character of Merleau Ponty's existential phenomenology It thus sheds critical new light on his early thought and challenges some of the main parameters of existing scholarship by disclosing the intrinsic normativity of his basic methodological commitments
