Liturgy and Hermeneutics Joyce Ann Zimmerman, 1999 By its very nature hermeneutics the art or science of interpreting is interdisciplinary It is equally important for scholars of literature philosophy biblical texts and theology In spite of the fact that interpretation has long been an important concern for Scripture exegetes and that in recent years liturgists have paid increasing attention to methods there is no major work that specifically addresses the issues of hermeneutics for liturgy Liturgy and Hermeneutics fills that void In Liturgy and Hermeneutics Joyce Ann Zimmerman explains that all communication requires some interpretation even everyday conversations in which we are hardly aware of it But a great deal of communication is far more complex Anytime we try to describe such things as an idea a concept or an experience we are well beyond ordinary language use and into the realm of language as a symbol system Since symbols have both a literal meaning and another level of meaning available only through interpretation much of our communication is hermeneutical Liturgy is no exception it too is hermeneutical In the past everything about liturgy seemed clear and understandable and the rituals were denotative However Zimmerman argues that lack of interpretation may have deprived worshipers of the richness proper to liturgy A non interpretive approach to liturgy tends to reduce it to rubrics or received grace We must likewise be wary of an interpretation of liturgy that is too subjective Only authentic interpretation examines liturgy s richness while remaining faithful to its tradition doctrinal content and ritual expressions In Liturgy and Hermeneutics Zimmerman specifically addresses hermeneutics and its use in liturgy and liturgical studies Her purpose is twofold 1 to introduce readers to a complex body of literature so they can become literate in a technical field and 2 to guide readers through the complex issues and strategies involved in interpreting liturgy as text as ritual as life Zimmerman does not promote a single hermeneutic approach but instead points out the advantages and disadvantages of various approaches Chapters are What s at Stake Overview of Hermeneutical Theory and Issues Critical Methods Post critical Methods Hermeneutics and Liturgical Studies Today and an epilogue that raises questions yet to be comprehensively addressed by liturgists

The Sacraments Joseph Martos, 2009-08-01 What are the sacraments really For centuries the religious lives of Catholics and other Christians have revolved around church rituals with generally accepted individual and social effects What precisely are those effects and how are they produced Traditional theology used Greek philosophy to understand the sacraments and how they work But is there no other way to understand them In fact there are a number of ways and this book invites you to look at the sacraments through a variety of lenses psychology sociology anthropology history theology morality and spirituality As the introduction to this volume challenges If you read this book and especially if you engage in the interactive study to which it invites you your understanding of sacraments will be changed forever To help personalize your investigation the author has created a web site with thought provoking questions that encourage you to interact with the ideas being proposed in this volume To engage these topics more deeply see [www TheSacraments org](http://www.TheSacraments.org)

Maurice Blondel on the Supernatural in Human Action Cathal Doherty, 2017-03-20 How do sacraments differ from superstition For Enlightenment philosophers such as Kant both are merely natural actions claiming a supernatural effect an accusation that has long been ignored in Catholic theology In Maurice Blondel on the Supernatural in Human Action Sacrament and Superstition however Cathal Doherty SJ reverses this accusation through a theological appropriation of Blondel s philosophy of action arguing not only that sacraments have no truck with superstition but that the Enlightened are themselves guilty of that which they most abhor superstitious action Doherty then uses Blondel s philosophical insights as a heuristic and corrective to putative sacramental theologies that would reduce the spiritual or supernatural efficacy of sacraments to the mere human effort of perception or symbolic interpretation

Making Magic Randall Styers, 2004 Randall Styers seeks to account for the vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that it can best be explained in light of the European and Euro American drive to establish and secure their own identity as normative

BOOK JACKET *Beloved Dust* Robert Davis Hughes, III, 2008-08-15 There has been an explosion of interest in classical Christian spirituality over the past 50 years While a great deal of work has been done on the history of Christian spirituality there has been no full scale theological and pastoral treatment of Christian spiritual life since before the Second Vatican Council *Beloved Dust* takes a realistic contemporary view of human being as entirely physical dust and shows it immersed in three great tides of the Holy Spirit the traditional threefold rhythm of conversion transfiguration and glory What is unique about Robert Hughes s approach is the effort to root spiritual theology in the doctrine of the Spirit an outgrowth of the renewed interest in the Trinity among both Catholics Karl Rahner and Protestants Robert Jenson Also striking is Hughes s emphasis on ordinary life Here as a married Episcopal priest theologian who brings a distinctly Protestant perspective to a traditionally Catholic enterprise for so long the preserve of celibate priests What he achieves is a new presentation of the traditional teaching in the light of contemporary knowledge and practice

Ignatian Spirituality in a Secular Age George Schnier, 2006-01-01 While the textual focus of this collection of essays is the Spiritual Exercise of Ignatius of Loyola the essays are much more than textual analyses they deal with the tradition and institutions associated with Ignatian spirituality with historical and philosophical perspectives on Ignatian spirituality with the contemporary search for spiritual life In addition the question of the relationship of the contemporary believer to past events is addressed as well as the question of the relationship between spirituality and ministry The strong and effective combination of historical and contemporary concerns as well as of textual and spiritual concerns results in a volume of importance to students of religious history and of spirituality The analysis of the Exercises and the discussion of spiritual direction will also be of great value to ministers and pastors and to all those pursuing spiritual life in a secular age

Sacramental Theology Herbert Vorgrimler, 1992 Both resistance to and renewed interest in the sacraments mark current theological thought This work acknowledges human limitations of the sacraments but stresses that God s relationship to human beings cannot be other than sacramental Sacramental structures and events constitute salvation history and thus permeate all theology What makes this sacramental view comprehensible is faith faith is an indispensable precondition for a sacramental theology Therefore the author first demonstrates the preconditions of faith on which sacramental theology rests and what place it holds within the whole of theology Following this he briefly presents the concept of sacraments and the history of that concept the teachings of Church tradition on sacraments in general and the basic features of a sacramental theology Next he explains from a theological perspective the traditional sacraments of the Catholic Church including related topics such as indulgences and

sacramentals Art and Architecture for Congregational Worship Richard S. Vosko, 2019-09-26 A deep strain of tribal politics is dividing societies around the globe Organized religions are also coping with scandals disappointments and polarizing ideologies The history of Christianity reveals that such frictions deeply wound the church Fr Richard S Vosko recognizes that liturgical buildings are metaphorical expressions of the people of God He proposes in a relational way that when all physical and psychological boundaries in a place of worship are removed people will discover a common ground Building on theological foundations and design principles Vosko envisions what an egalitarian servant church can look like In a bold but thoughtful manner he presents progressive insights into the fields of church art and architecture **Dialectical Anatomy of the Eucharist** Donald Wallenfang, 2017-05-16 For centuries Christian theology has understood the Eucharist in terms of metaphysics or in protest against it Today an opening has been made to imagine the sacrament through the method of phenomenology bringing about new theological life and meaning In *Dialectical Anatomy of the Eucharist* Donald Wallenfang conducts a sustained analysis of the Eucharist through the aperture of phenomenology yet concludes the study with poetic and metaphysical twists Engaging the work of Jean Luc Marion Paul Ricoeur and Emmanuel Levinas Wallenfang proposes pioneering ideas for contemporary sacramental theology that have vast implications for interfaith and interreligious dialogue By tapping into the various currents within the Judeo Christian tradition Jewish Catholic Orthodox and Protestant a radical argument is developed that leverages the tension among them all Several new frontiers are explored dialectical theology a fourth phenomenological reduction the phenomenology of human personhood the poetics of the Eucharist and a reinterpretation of the concept of gift as conversation On the whole Wallenfang advances recent debates surrounding the relationship between phenomenology and theology by claiming an uncanny way out of emerging dead ends in philosophical theology return to the fray **Genealogies of Religion** Talal Asad, 1993-08-18 In *Genealogies of Religion* Talal Asad explores how religion as a historical category emerged in the West and has come to be applied as a universal concept The idea that religion has undergone a radical change since the Christian Reformation from totalitarian and socially repressive to private and relatively benign is a familiar part of the story of secularization It is often invoked to explain and justify the liberal politics and world view of modernity And it leads to the view that politicized religions threaten both reason and liberty Asad's essays explore and question all these assumptions He argues that religion is a construction of European modernity a construction that authorizes for Westerners and non Westerners alike particular forms of history making Sacraments Ray Robert Noll, 1999 Firmly rooted in the tradition of the Church and some of the best scholarship of the past 40 years Noll explores the sign meaning and experience of each of the seven sacraments in the church Included is a CD ROM containing articles and passages by some of today's key sacramental theologians
