The Secrets of Success Alexandre Karat, 2015-08-18 We are a nation of immigrants and every immigrant to these shores brings a story What they have in common is this things were bad in the country of origin from being denied an education to having your family slaughtered in front of you Once they get to the US things are going tough then less tough and finally you get to grab your own version of the American Dream

Secrets of Success by Dr Alexander Karat a successful physician with his own clinic in NYC is a valuable contribution to the genre with an important difference where most such bios describe a straight rags to riches narrative Dr Karat's is a rollercoaster Or perhaps put in the terms of his profession it is a cardiogram with wild peaks and valleys From the opening phrase Alexander Sasha Karachunov was born on August 26 1954 in the town of Armavir Krasnodar Region in the south of Russia you can tell there is no room for pretense in this memoir It is a Soviet Horatio Alger story a boy living in a cold water one room flat with his single mother rises to the top in his case the Kirov Military Medical Academy in Leningrad an elite medical school and does so without a bribe or a phone call something that even people in his home town find hard to believe Never slowing down Alexander grabs every reward the school has to offer student society advanced courses and finally the gold medal the equivalent of summa cum laude and a spot in the postgraduate program Success has many fathers they say but in Karat's case it took just one mother a WWII veteran who volunteered to combat on day one and finished the war as the commander of an anti aircraft artillery battery and ruined her health too She inculcated the boy with a simple code Work hard don't stray stand for truth don't give up and the reward will find you He stuck by it and it worked But she also gave him unexpected advice rather than settle for a cozy spot in post grad go and serve in the Northern Submarine Fleet of all places He followed the advice The golden boy with summa and dozens of published papers turned into a humble ship doctor But not for long soon he would perform the kind of surgery that 30 years later would win him applause from top US surgeons at NYU From that point on it is up and up as he garners every award available from two academic degrees to professorship at the same academy to numerous publications and more gold medals at international competitions But a boy who succeeds by hard work and talent never learns to be cautious and in Soviet Russia it becomes his undoing After a stint in Afghanistan he makes some politically dubious remarks and down he goes Now then America where all his medals fail to set him apart from the rest of the huddled masses Once again Alexander does not give up if he mixed cement in his native town at the age of 14 he can do it in Brooklyn at 40 too Evenings he hits the books and does it again acing every exam thrown at

him by the Boards Though nothing turns out so simple neither residency nor the final licensing exam nor getting a job and starting your own business and protecting it from organized crime Alexander Karat was not born with a silver spoon in his mouth and got nothing handed to him on a silver platter But then he is not the kind of guy who goes for the silver he goes for the gold time and again whether crawling home with an untreated broken leg after a gymnastics tournament or doing 126 hours of residency nonstop As we read about the peaks young Alexander had to climb from the famed Military Medical Kirov Academy in St Petersburg where a provincial boy without connections living on less than a ruble a day suddenly finds himself among classmates with high ranking fathers from the military and Party elite to the residency at NYU Medical Center where he once again finds himself among rich kids half his age who already know how an American hospital works it is hard not to conclude that Alexander s stubbornness and phenomenal capacity for hard work go back to those wintry streets of Armavir where he had to haul buckets of water home from a street pump Karat s story of his rise and fall and rise again abounds in made for Hollywood drama now he operates on the nuclear submarine commander 500 meters under sea all alone no anesthesia no nurses don t try it at home Now he is about to be recruited by British Intelligence Service in Gibraltar Now he is operating under mujahideen fire in Afghanistan Now he saves a patient at NYU Finally in Brooklyn he stands up to the Russian mobsters trying to take over his business And then he stands up to Hurricane Sandy and NYC Parks Departments too Nothing breaks Dr Karat You ll never get bored with this book And it would do you good to learn from his life too *My Story... From Humble Beginnings to Professional Success* James M. Durant III, Jeffrey M. Allen, 2024-08-28 Practical and authentic this essential career handbook provides every young person with inspiration and practical pathways to overcome socio economic adversity and achieve their career ambitions Written by an impressive group of senior professionals who have excelled despite seemingly insurmountable circumstances including barriers such as racism and economic hardship this book provides the roadmap to professional career success With students and graduates from diverse and economically adverse backgrounds specifically in mind the book breaks from the notion that one has to become a superstar a Supreme Court Justice a movie star or an internationally famous athlete to be successful It provides a grounded and realistic approach to achieve social economic and professional advancement for the majority of college students High level professionals and leaders in industry government non profit education medicine military and the law share their unique stories each filled with spirit hope advice success strategies and approaches to dealing with failures along the way The book offers direction and guidance for self determination and professional development while also inspiring excellence in organizational leadership and management with a focus on leadership character and tangible skills This is essential reading for college students and graduates from all backgrounds with a focus on underrepresented groups in particular It will also benefit instructors professors and professionals in higher education as well as leaders in the public private and third sectors who are focused on uplifting students and recent graduates of adverse and diverse backgrounds *Building a Successful Ambulatory Care*

Graduate Medical Education in Family Medicine Rick Kellerman, Gretchen Irwin, 2025-03-29 This book outlines the basic structure and processes of family medicine residency education programs. Family medicine residency programs are complex adaptive learning organizations that involve people, processes, procedures, buildings, budgets, high stakes, mistakes, mission statements, strategies, schedules, curricula, faculty and residents. Residency program faculty are faced with many challenges and this book gives them and others who are interested or involved in residency programs a clear and comprehensive breakdown of family medicine graduate medical education. The volume opens with detailed overviews of several family medicine organizations that support residency programs and faculty. Subsequent chapters cover a range of topics including best practices in resident assessment and evaluation and best practices pertinent to the development of teaching and administrative skills for faculty. Furthermore, chapters explain necessary residency education accreditation requirements which includes the understanding of the accreditation requirements, board certification requirements, Medicare graduate medical education funding policies and Centers for Medicare and Medicaid Services (CMS) billing regulations. All authors have been family medicine residency program directors or faculty or have been intimately involved in residency program education. Graduate Medical Education in Family Medicine offers residency program directors, faculty and residency administrators a wide ranging and comprehensive overview of family medicine residency education as well as specific administrative and educational best practices for residency education. This book will also be useful to those physicians with experience in their clinical field but not in educational pedagogy and andragogy.
