**Ornamental Aesthetics** Theo Davis, 2016 Theo Davis argues that ornamental aesthetics are central to Thoreau Dickinson and Whitman's writing exploring the stakes of such an ornamental aesthetics through a parallel investigation of the ornamental aspects of Heidegger's phenomenological philosophy      **Reassessing Nikolaus Pevsner** Peter Draper, 2017-07-05 Nikolaus Pevsner was one of the most important and influential art historians of the twentieth century He opened up new areas of enquiry in the history of art revolutionising architectural studies in England and playing a key role in establishing the discipline of design history Through his lectures and broadcasts as well as the remarkable volumes in *The Buildings of England* series which made him a household name he did much to encourage greater interest in and understanding of art and architecture among a wide public This wide-ranging collection of essays based on papers delivered at the conference held at Birkbeck in celebration of the centenary of Pevsner's birth offers the first sustained critical assessment of Pevsner's achievements With contributions by leading international scholars the volume brings together a wealth of new material on Pevsner and his intellectual background both in Germany in the late 1920s and 1930s and in England particularly in the 1940s and 1950s      The German Werkbund Joan Campbell, 2015-03-08 For years one of Germany's foremost cultural organizations the Werkbund included in its membership such pioneers of the modern movement as Henry

van de Velde Hermann Muthesius Walter Gropius and Mies van der Rohe Joan Campbell traces its history from its founding in 1907 to 1934 when it was absorbed into the bureaucracy of the National Socialist State The Werkbund set out to prove that organized effort could revitalize the applied arts and architecture In addition to acting as an agent of reform it provided a forum for the debate of such broad concerns as the need to restore joy and dignity to work in modern industry Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Art Nouveau Style** Stephan Tschudi Madsen, 2013-01-17

**Re-framing the Italian Renaissance at the National Gallery, 1824 - 2014** Harriet O'Neill (1980 - 2023), 2025-04-07 This pioneering study examines how Italian Renaissance painting has been physically and conceptually framed and re framed at the National Gallery London from its foundation in 1824 to the present day Harriet O'Neill's research focuses primarily on historic historicising and Neo Renaissance picture frames while considering the changing appearance of the physical gallery spaces as a wider conceptual frame Through six chapters the author identifies the varied roles frames and framing have played in mediating the entry of Italian Renaissance panels into the museum environment Chapter 1 situates the research within broader theoretical frameworks bringing together literature on frames with conceptualisations of museums decorative arts and museological constructions of the Renaissance Chapters 2 and 3 examine the motivations for re framing Renaissance panels under the Gallery's first Director Sir Charles Eastlake and his Keeper Ralph Nicholson Wornum exploring the connection between Neo Renaissance frames and visitor experience alongside art historical practice Chapter 4 analyses frames modelled on the portal ornament of the Venetian church of San Giobbe commissioned under the Gallery's third Director Sir Frederic Burton comparing them with the widely deployed Watts frames Chapter 5 discusses the collection and adaptation of antique frames contextualising this within international museological approaches pioneered in Berlin Chapter 6 charts the recent re framing of Italian Renaissance art at the National Gallery particularly in the Sainsbury Wing considering the types of narratives communicated to visitors through framing decisions This study reveals how re framing has

transformed dislocated panels into both art historical specimens and works for aesthetic pleasure while engaging with the establishment of the Renaissance artistic canon and making controversial works more acceptable to English taste

**Scandinavian Design** Kjetil Fallan, 2013-05-09 Scandinavian design is still seen as democratic functional and simple its products exemplifying the same characteristics now as they have done since the 1950s But both the essence and the history of Scandinavian design are much more complex than this Scandinavian Design Alternative Histories presents a radically new assessment a corrective to the persistent mythologies and reductive accounts of Scandinavian design The book brings

together case studies from the early twentieth century to today Drawn from fields as diverse as transport engineering packaging photography law interiors and corporate identity these studies tell new or unfamiliar stories about the production mediation and consumption of design An alternative history is created one much more alive to national and regional differences and to types of product Scandinavian Design analyses a century of design culture from Denmark Finland Norway and Sweden and in so doing presents a sophisticated introduction to Scandinavian design      **Art Nouveau** Gabriel P. Weisberg, Elizabeth K. Menon, 2013-09-05 First published in 1998 Design reform in the fields of architecture and the decorative or applied arts became objectified through writings published during the period of 1885 to 1910 This investigation includes but is not limited to Art Nouveau in France and Belgium and the arts and crafts movement in England and the United States Even though the similar processes of creativity and shared goals of Art Nouveau and the arts and crafts movement have long been recognized attempts to explore their origins and their points of interrelation with the broader scope of art history have been largely unsuccessful until now      **Dickens and the Twentieth Century (RLE Dickens)** John & Gabriel Gross & Pearson, 2013-10-16 The essays in this volume examine questions such as Dickens symbolism his political attitudes his psychological tensions and his artistry They are also concerned with aspects of Dickens which have been neglected in recent years such as his handling of plot his heroes and heroines his journalism his religious view and his philistinism      **The Schools of Design** Quentin Bell, 2023-07-21 First published in 1963 The Schools of Design is a history of English Art Education The story of the genesis of English art schools is one of the fierce conflicts in which private feuds mingle with questions of principle It is a story of administrative chaos and open scandal in which some long forgotten figures are involved others such as Haydon Gladstone Alfred Stevens Dyce Stafford Northcote Etty and Henry Role appear in a new role In itself this forms an entertaining study full of incident and drama Many of the problems that presented themselves in the 1840s are still with us today and no one who is interested in the place of art in our society can afford to neglect the lessons of the Schools of Design This book will be of interest to students of art and history      **Sour Grapes** Jon Elster, 2016-08-26 This book is Jon Elster's influential study of irrationality challenging orthodox theories of rational choice
