From Benares To Beijing Essays On Buddhism And Chinese Religions:

From Benares to Beijing Koichi Shinohara, Gregory Schopen, 1991 From Benares to Beijing Koichi Shinohara, 1990-10-31 Collection of essays on the spread of Buddhism from India to China The topics examined include women in Chinese religions the Sino Indian Buddhist debate and the Chinese pantheon From Benares to Beijing Koichi Shinohara, Gregory Schopen, 1995-01-01 **Translating Buddhist Medicine in Medieval China** C. Pierce Salguero, 2014-06-10 The transmission of Buddhism from India to China was one of the most significant cross cultural exchanges in the premodern world This cultural encounter involved more than the spread of religious and philosophical knowledge It influenced many spheres of Chinese life including the often overlooked field of medicine Analyzing a wide variety of Chinese Buddhist texts C Pierce Salguero examines the reception of Indian medical ideas in medieval China These texts include translations from Indian languages as well as Chinese compositions completed in the first millennium C E Translating Buddhist Medicine in Medieval China illuminates and analyzes the ways Chinese Buddhist writers understood and adapted Indian medical knowledge and healing practices and explained them to local audiences The book moves beyond considerations of accuracy in translation by exploring the resonances and social logics of intercultural communication in their historical context Presenting the Chinese reception of Indian medicine as a process of negotiation and adaptation this innovative and interdisciplinary work provides a dynamic exploration of the medical world of medieval Chinese society At the center of Salguero s work is an appreciation of the creativity of individual writers as they made sense of disease health and the body in the context of regional and transnational traditions By integrating religious studies translation studies and literature with the history of medicine Translating Buddhist Medicine in Medieval China reconstructs the crucial role of translated Buddhist knowledge in the vibrant medical world of medieval China **Gendering Chinese Religion** Jinhua Jia, Xiaofei Kang, Ping Yao, 2014-07-30 Gendering Chinese Religion marks the emergence of a subfield on women gender and religion in China studies Ranging from the medieval period to the present day this volume departs from the conventional and often male centered categorization of Chinese religions into Confucianism Buddhism Daoism and popular religion It makes two compelling arguments First Chinese women have deployed specific religious ideas and rituals to empower themselves in various social contexts Second gendered perceptions and representations of Chinese religions have been indispensable to the historical and contemporary construction of social and political power The contributors use innovative ways of discovering and applying a rich variety of sources many previously ignored by scholars While each of the chapters in this interdisciplinary work represents a distinct perspective together they form a coherent dialogue about the historical importance intellectual possibilities and methodological protocols of this new subfield Buddhist Thought Paul Williams, Anthony Tribe, Alexander Wynne, 2002-01-04 Buddhist Thought guides the reader towards a richer understanding of the central concepts of classical Indian Buddhist thought from the time of Buddha to the latest scholarly perspectives and controversies Abstract and complex

ideas are made understandable by the authors lucid style Of particular interest is the up to date survey of Buddhist Tantra in India a branch of Buddhism where strictly controlled sexual activity can play a part in the religious path Williams discussion of this controversial practice as well as of many other subjects makes Buddhist Thought crucial reading for all interested in Buddhism *Readings of the Lotus S?tra* Stephen F. Teiser, Jacqueline Ilyse Stone, 2009 Specialists in Buddhist philosophy art and history of religion outline the major ideas and controversies surrounding the Lotus S tra They also treat its use in ritual performance ascetic practice visual representations and social action *Buddhist Encounters and Identities Across East Asia* , 2018-05-07 Encounters networks identities and diversity are at the core of the history of Buddhism They are also the focus of *Buddhist Encounters and Identities across East Asia* edited by Ann Heirman Carmen Meinert and Christoph Anderl While long distance networks allowed Buddhist ideas to travel to all parts of East Asia it was through local and trans local networks and encounters and a diversity of people and societies that identities were made and negotiated This book undertakes a detailed examination of discrete Buddhist identities rooted in unique cultural practices beliefs and indigenous socio political conditions Moreover it presents a fascinating picture of the intricacies of the regional and cross regional networks that connected South and East Asia **Encyclopedia of Language and Linguistics** , 2005-11-24 The first edition of ELL 1993 Ron Asher Editor was hailed as the field s standard reference work for a generation Now the all new second edition matches ELL s comprehensiveness and high quality expanded for a new generation while being the first encyclopedia to really exploit the multimedia potential of linguistics The most authoritative up to date comprehensive and international reference source in its field An entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition Ground breaking and International in scope and approach Alphabetically arranged with extensive cross referencing Available in print and online priced separately The online version will include updates as subjects develop ELL2 includes c 7 500 000 words c 11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour Supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references Extensive list of commonly used abbreviations List of languages of the world including information on no of speakers language family etc Approximately 700 biographical entries now includes contemporary linguists 200 language maps in print and online Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit www.info.sciencedirect.com The first Encyclopedia to exploit the multimedia potential of linguistics Ground breaking in scope wider than any predecessor An invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science The most authoritative up to date comprehensive and international reference

source in its field *The Routledge Handbook of Chinese Applied Linguistics* Chu-Ren Huang, Zhuo Jing-Schmidt, Barbara Meisterernst, 2019-03-11 The Routledge Handbook of Chinese Applied Linguistics is written for those wanting to acquire comprehensive knowledge of China the diaspora and the Sino sphere communities through Chinese language It examines how Chinese language is used in different contexts and how the use of Chinese language affects culture society expression of self and persuasion of others as well as how neurophysiological aspects of language disorder affect how we function and how the advance of technology changes the way the Chinese language is used and perceived The Handbook concentrates on the cultural societal and communicative characteristics of the Chinese language environment Focusing on language use in action in context and in vivo this book intends to lay empirical grounds for collaboration and synergy among different fields

Language in the Buddhist Tantra of Japan Richard K. Payne, 2018-08-09 Language in the Buddhist Tantra of Japan dismantles the preconception that Buddhism is a religion of mystical silence arguing that language is in fact central to the Buddhist tradition By examining the use of extraordinary language evocations calling on the power of the Buddha in Japanese Buddhist Tantra Richard K Payne shows that such language was not simply cultural baggage carried by Buddhist practitioners from South to East Asia Rather such language was a key element in the propagation of new forms of belief and practice In contrast to Western approaches to the philosophy of language which are grounded in viewing language as a form of communication this book argues that it is the Indian and East Asian philosophies of language that shed light on the use of language in meditative and ritual practices in Japan It also illuminates why language was conceived as an effective means of progress on the path from delusion to awakening The Routledge Handbook of Translation and Religion Hephzibah Israel, 2022-12-19 The Routledge Handbook of Translation and Religion is the first to bring together an extensive interdisciplinary engagement with the multiple ways in which the concepts and practices of translation and religion intersect The book engages a number of scholarly disciplines in conversation with each other including the study of translation and interpreting religion philosophy anthropology history art history and area studies A range of leading and emerging international specialists critically engage with changing understandings of the key categories translation and religion as discursive constructs thus contributing to the development of a new field of academic study translation and religion The 28 contributions divided into six parts analyze how translation constructs ideas texts or objects as sacred or for religious purposes often in competition with what is categorized as non religious The part played by faith communities is treated as integral to analyses of the role of translation and religion It investigates how or why translation functions in re constructing and transforming religion s and for whom and examines a range of sacred texts in translation from the written to the spoken manuscript to print paper to digital architectural form to objects of sacred art intersemiotic scriptural texts and where commentary exegesis and translation interweave This Handbook is an indispensable scholarly resource for researchers in translation studies and the study of religions **Minding the Buddha's Business** Daniel Boucher, Shayne

Clarke,2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism s art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen s many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen s most noteworthy influence the study of the Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen s scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition s most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen s considerable impact on our understanding of Buddhists in India Embodying the Dharma

David Germano,Kevin Trainor,2012-02-01 Embodying the Dharma explores the centrality of relic veneration in Asian Buddhist cultures Long disregarded by Western scholars as a superstitious practice reflecting the popularization of original Buddhism relic veneration has emerged as a topic of vital interest in the last two decades with the increased attention to Buddhist ritual practice and material culture This volume includes studies of relic traditions in India Japan Tibet Sri Lanka and Thailand as well as broader comparative analyses including comparisons of Buddhist and Christian relic veneration

Buddhist Rituals of Death and Rebirth Rita Langer,2007-08-07 In Buddhist thought and practice death has always been a central concept This book provides a careful and thorough analysis of the rituals and social customs surrounding death in the Theravada tradition of Sri Lanka Rita Langer describes the rituals of death and rebirth and investigates their ancient origins analyzing social issues of the relationship between monks and lay people in this context This aspect is of particular interest as death rituals are the only life cycle ritual in which Theravada Buddhist monks are actively involved Drawing on early Vedic sutras and Pali texts as well as archaeological and epigraphical material Buddhist Rituals of Death and Rebirth establishes that Sri Lankan rituals are deeply rooted in their pre Buddhist Vedic precursors Whilst beliefs and doctrines have undergone considerable changes over the centuries it becomes evident that the underlying practices have

largely remained stable The first comprehensive study of death rituals in Theravada Buddhist practice this is an important contribution to the fields of Buddhist studies indology anthropology and religious studies Chinese Buddhism and the Scholarship of Erik Zürcher Jonathan A. Silk, Stefano Zacchetti†, 2022-11-14 China has a long and complex history of interactions with the world around it One of the most successful imports arguably the most successful before modern times and the impact of the West is Buddhism which since the first centuries of the Common Era has spread into almost every aspect of Chinese life thought and practice Erik Zürcher was one of the most important scholars to study the history of Buddhism in China and the ways in which Buddhism in China gradually became Chinese Buddhism More than half a century after the publication of Zürcher's landmark *The Buddhist Conquest of China* we now have a collection of essays from the top contemporary specialists exploring aspects of the legacy of Zürcher's investigations bringing forward new evidence new ideas and reconsiderations of old theories to present an up to date and exciting expansion and revision of what was arguably the single most influential contribution to date on the history of Chinese Buddhism Contributors are Tim Barrett Stephen R Bokenkamp Funayama Toru Barend ter Haar Liu Shufen Minku Kim Jan Nattier Antonello Palumbo and Nicolas Standaert

Early Buddhist Transmission and Trade Networks Jason Neelis, 2010-11-19 This exploration of early paths for Buddhist transmission within and beyond South Asia retraces the footsteps of monks merchants and other agents of cross cultural exchange A reassessment of literary epigraphic and archaeological sources reveals historical contexts for the growth of the Buddhist sa gha from approximately the 5th century BCE to the end of the first millennium CE Patterns of dynamic Buddhist mobility were closely linked to transregional trade networks extending to the northwestern borderlands and joined to Central Asian silk routes by capillary routes through transit zones in the upper Indus and Tarim Basin By examining material conditions for Buddhist establishments at nodes along these routes this book challenges models of gradual diffusion and develops alternative explanations for successful Buddhist movement **Daoism Handbook** Livia Kohn, 2018-12-24

Thirty major scholars in the field wrote this new authoritative guide to the main features and development of Daoism The chapters are devoted to either specific periods or topics such as Women in Daoism Daoism in Korea and Daoist Ritual Music Each chapter rigidly deals with a fixed set of aspects such as history texts worldview and practices Clear markings in the chapters themselves and a detailed index make this volume the most accessible key resource on Daoism past and present

Voice of the Buddha Maria Heim, 2018-09-12 What would a Buddhist theory of texts look like through the lens of the 5th century thinker Buddhaghosa In *Voice of the Buddha* Maria Heim reads from the principal commentator editor and translator of the Theravada intellectual tradition yielding fresh insight into all three collections of the early Pali texts Vinaya the Suttas and the Abhidhamma Buddhaghosa considered the Buddha to be omniscient the Buddha's words to be oceanic Every word passage book indeed the corpus as a whole is taken to be endless and immeasurable in Buddhaghosa's view Commentarial practice thus requires disciplined methods of expansion drawing out the endless possibilities for meaning and

application Heim considers Buddhaghosa's theories of texts and follows his practices of exegesis to discover how he explored scripture's infinity. By examining the significance of the immeasurability of scripture in commentarial practice and as a general principle, this book offers new tools to understand the huge scriptural and commentarial literature of the Pali tradition. And by taking seriously a traditional commentator's theory of texts, it beckons us to learn from commentaries themselves how we might read and interpret them and the texts on which they comment. Materializing Magic Power

Wei-Ping Lin, 2020-10-26

Materializing Magic Power paints a broad picture of the dynamics of popular religion in Taiwan. The first book to explore contemporary Chinese popular religion from its cultural, social, and material perspectives, it analyzes these aspects of religious practice in a unified framework and traces their transformation as adherents move from villages to cities. In this groundbreaking study, Wei Ping Lin offers a fresh perspective on the divine power of Chinese deities as revealed in two important material forms: god statues and spirit mediums. By examining the significance of these religious manifestations, Lin identifies personification and localization as the crucial cultural mechanisms that bestow efficacy on deity statues and spirit mediums. She further traces the social consequences of materialization and demonstrates how the different natures of materials mediate distinct kinds of divine power. The first part of the book provides a detailed account of popular religion in villages. This is followed by a discussion of how rural migrant workers cope with challenges in urban environments by inviting branch statues of village deities to the city, establishing an urban shrine, and selecting a new spirit medium. These practices show how traditional village religion is being reconfigured in cities today.

When somebody should go to the books stores, search initiation by shop, shelf by shelf, it is in reality problematic. This is why we provide the ebook compilations in this website. It will totally ease you to look guide **From Benares To Beijing Essays On Buddhism And Chinese Religions** as you such as.
