The Tragedy of Human Development Tim Di Muzio, 2017-12-12

How might an objective observer conceive of what humans have accomplished as a species over its brief history? Benjamin argues that history can be judged as one giant catastrophe. Liberals suggest that this is too sombre an assessment and that human history can be read as a story of greater and greater progress in human rights, prosperity, and the decrease of arbitrary and extra-judicial violence. But is there a third reading of history, one that neither interprets human history as a giant catastrophe or endless progress? Could we not say that human development has been a tragedy? This book explores the idea of human development as a tragedy from the perspective of capitalist power. Although the argument of this book draws heavily on critical political economy, the analysis considers interdisciplinary literature in an effort to explore how major revolutions have transformed human social relations of power and created certain path dependencies that may ultimately lead to our downfall as a species. Intellectually sophisticated and readable, this book offers a provocative genealogy of capitalist power and the tragedy of human development.

Dictionary of Race and Ethnic Relations Professor Ellis Cashmore, Ellis Cashmore, 2002-09-11

Ethnicity and racial relations are almost universally seen as a prime motivating force behind social conflict and change. Often volatile and complex racial interaction resonates through all aspects of contemporary society. Social issues which appear to have little connection to race often become entangled with ethnic friction to create far more complex problems. Race is often used by individuals and political organizations to further their own objectives. Since the 1994 publication of the third edition of this acclaimed reference book, there have been enormous changes in the area of race and ethnic relations throughout the world. The Dictionary of Race and Ethnic Relations deals with these changes through in-depth articles which both define and analyze the terms. For this edition, there has been a total revision of existing entries and many new entries that take account of developments in society and intellectual trends. Features include fully updated lists of further reading and cross-references. New entries include Black feminism, Causes celebres, Environmental racism, Hybridity, Postcolonialism. Invaluable teaching and reference tool for students at all levels.
