Forced Migration in Eastern Africa C. Veney, 2006-12-11 This study enriches understanding of East Africa's refugee situation by examining the conditions that gave rise to it and how the refugees themselves sought to reconstruct their lives Focusing on the 1990s Veney compares Kenya and Tanzania two nations that did not generate many refugees but become important hosts for the general region

Frontiers of Violence in North-East Africa Richard J. Reid, 2011-03-24 Northeast Africa has one of the richest histories in the world and yet also one of the most violent Richard Reid offers an historical analysis of violent conflict in northeast Africa through the nineteenth and twentieth centuries incorporating the Ethiopian and Eritrean highlands and their escarpment and lowland peripheries stretching between the modern Eritrean Red Sea coast and the southern and eastern borderlands of present day Ethiopia Sudanese and Somali frontiers are also examined insofar as they can be related to ethnic political and religious conflict and the violent state and empire building processes which have defined the region

since c 1800 Reid argues that this modern warfare is not solely the product of modern political failure but rather has its roots in a network of frontier zones which are both violent and creative Such borderlands have given rise to markedly militarised political cultures which are rooted in the violence of the nineteenth century and which in recent decades are manifest in authoritarian systems of government Reid thus traces the history of Amhara and Tigrayan imperialisms to the nationalist and ethnic revolutions which represented the march of volatile borderlands on the hegemonic centre He suggests a new interpretation of Ethiopian and Eritrean history arguing that the key to understanding the region s turbulent present lies in an appreciation of the role of the armed and politically fertile frontier in its deeper past

Refugees and Forced Migration in the Horn and Eastern Africa Johannes Dragsbaek Schmidt, Leah Kimathi, Michael Omondi Owiso, 2019-05-13 This volume sheds new light on the refugees and forced migration at the Horn of Africa and East Africa Adopting a multidisciplinary perspective it traces historical structural and geopolitical factors to reveal the often brutal uprooting of people in a region that hosts more than three million refugees and almost six million internally displaced persons IDPs By doing so it enriches our understanding of the socio economic geopolitical and humanitarian causes and implications of migration and population displacement The book is divided into five parts focusing on different drivers of involuntary displacement and people s uprooting The first part covers geopolitical conflicts rooted partly in the colonial and Cold War geographies The second part then focuses on security aspects and conflicts while the third looks at encampment and refugee policies as well as refugee agencies Part four highlights issues of forced repatriation and human trafficking Lastly part five analyzes the dynamics of refugee camps

Historical Dictionary of Eritrea Dan Connell, 2019-07-15 In 1991 Eritrea won a 30 year war for independence from Ethiopia and in 1993 it was recognized as Africa s newest nation after more than a century of conquest and occupation by a succession of external powers that included the Ottomans Egypt Italy Great Britain and Ethiopia Each had left its mark while fostering a deep distrust of outsiders and a fierce commitment to Eritrea s separate political identity Eritrea and Ethiopia slipped into a chronic state of no peace no war that kept the entire Horn of Africa off balance for nearly two decades the standoff ended in 2018 when a newly installed Ethiopian prime minister reached out to Eritrea and set in motion a rapid fire series of talks among the states of the African Horn that broke down long standing barriers and raised hopes for a new era of regional peace and cooperation This third edition of Historical Dictionary of Eritrea contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Eritrea

Cultural Diversity in the Armed Forces Joseph L. Soeters, Jan Van der Meulen, 2007-01-24 This volume explores ethnicity and gender developments in relation to the military In some countries the armed forces have a long history in responding to ethnic diversity while elsewhere it has come up only recently as a policy issue An even handed representation of ethnic minorities in the military is recognized as crucial

for enhancing its social legitimacy and professional quality The same can be said about the integration of women in the military which during a few decades across the board has grown into more than just another issue of personnel policies Indeed with regard to gender the symbolism and sensitivities surrounding core identities are at stake as with the presence of gays and lesbians in the military Written by experts in the field the chapters cover fourteen countries around the world the USA Canada Bolivia Ecuador Brazil South Africa Eritrea India Israel Great Britain France Germany Belgium and The Netherlands Taken together the armed forces of these countries offer a fascinating mix of similarities and differences in the ways they try to manage cultural diversity Cultural Diversity in the Armed Forces will be of interest to students and scholars of military studies sociology gender and political science **Ethiopian-Eritrean Wars** Tom Cooper,Adrien

Fontanellaz,2018-07-31 Ethiopia a country of ancient origins in eastern Africa remains a military powerhouse of that continent until our days Nowadays involved in the war in neighboring Somalia Ethiopia was also involved in half a dozen of other armed conflicts over the last 60 years Crucial between these was the Eritrean War of Independence Fought 1961 1991 this was one of biggest armed conflicts on the African continent especially if measured by numbers of involved combatants It included a wide spectrum of operations from classic counterinsurgency COIN to conventional warfare in mountains with the latter being one of the most complex and most demanding undertakings possible to conduct by a military force Campaigns run during the Eritrean War of Independence often included large formations of relatively well equipped forces led by well trained commanders along well thought out plans based on homegrown doctrine The air power played a crucial although not necessarily decisive role in many of battles Nevertheless most of details about this conflict remain unknown in the wider public Similarly relatively few Western observers are aware of relations between the Eritrean liberation movements and various dissident and insurgent movements inside Ethiopia although the synergy of these eventually led the downfall of the so called Derg government in 1991 While the first volume in this mini series spanned the history of wars between Ethiopia and Eritrea between 1961 and 1988 the second covers the period since Correspondingly it is providing coverage of military operations that led to the fall of the Derg government in Ethiopia of 1991 the period of Eritrean military buildup and a complete reorganization of the Ethiopian military in the 1990s and concludes with the first detailed account of the so called Badme War fought between Ethiopia and Eritrea in period 1998 2001 It is illustrated by many contemporary photographs maps and color profiles *The Black Mediterranean* Gabriele Proglia,Camilla Hawthorne,Ida Danewid,P. controlling migrant flows from North Africa and the Middle East what is the place for black bodies in the Central Mediterranean context what is the relevance of the citizenship in reconsidering black subjectivities in Europe The volume will be divided into three parts After the introduction which will provide an overview of the theoretical framework and the individual contributions Part I focuses on the problem of borders Part II features essays focused on the body and Part III is dedicated to citizenship

Governing for Revolution Megan A. Stewart, 2021-03-18 Prevailing views suggest rebels govern to enhance their organizational capacity but this book demonstrates that some rebels undertake costly governance projects that can imperil their cadres during war The origins for this choice began with the Chinese Communist Party CCP during the Chinese Civil War The CCP knowingly introduced challenging governance projects but nevertheless propagated its strategy globally creating a behavioural model readily available to later rebels The likelihood of whether later rebels will imitate this model is determined by the compatibility between their goals and the CCP's objectives only rebels that share the CCP's revolutionary goals decide to mimic the CCP's governance fully Over time ideational and material pressures further encouraged and occasionally rewarded revolutionary rebels conformity to the CCP's template Using archival data from six countries primary rebel sources fieldwork and quantitative analysis *Governing for Revolution* underscores the mimicry of and ultimate convergence in revolutionary rebels governance that persists even today despite vast differences in ideology

The Ethiopian Army Fantahun Ayele, 2014-10-30 The Ethiopian popular revolution of 1974 ended a monarchy that claimed descent from King Solomon and the Queen of Sheba and brought to power a military government that created one of the largest and best equipped armies in Africa In his panoramic study of the Ethiopian army Fantahun Ayele draws upon his unprecedented access to Ethiopian Ministry of Defense archives to study the institution that was able to repel the Somali invasion of 1977 and suppress internal uprisings but collapsed in 1991 under the combined onslaught of armed insurgencies in Eritrea and Tigray Besides military operations The Ethiopian Army discusses tactical areas such as training equipment intelligence and logistics as well as grand strategic choices such as ending the 1953 Ethio American Mutual Defense Agreement and signing a treaty of military assistance with the Soviet Union The result sheds considerable light on the military developments that have shaped Ethiopia and the Horn in the twentieth century

Rolandsen, 2005 *Guerrilla Government* provides the background for today's political situation at the eve of a peace agreement for the South It starts with a brief account of the historical roots of the second civil war and provides an in depth analysis of the causes and consequences of the split in SPLM A in 1991 The author then discusses the movement's political and

administrative structures and its interaction with other parties at the Southern Sudanese scene prior to its National Convention in 1994 The National Convention and the results of its political and administrative reforms are scrutinised and the book is brought to a conclusion with a short comment on the prospects of the future government of the Southern Sudan
