From Habsburg Agent to Victorian Scholar Tibor Frank, 2000 A celebrated art historian and scholar of Japan G G Zerffi also had a secret life as a well paid Austrian secret agent More than a biography of Zerffi this book offers a rare glimpse into the secret service of the nineteenth century Habsburg monarchy the precursor of all modern secret services in Europe and beyond while also serving as a guide to the history of the Hungarian revolution the war of independence of 1848-49 and the international exile of European revolutionaries Through the example of Zerffi's life Tibor Frank examines how the secret police were used by the state to repress individual rights through intimidation and coercion and by way of tracing Zerffi's rise as a scholar also provides a survey of the possible ways and traps of nineteenth century intelligentsia ,

Heléna Tóth, 2014-10-30 Heléna Tóth considers exile in the aftermath of the revolutions of 1848-9 as a European phenomenon with global dimensions Exiles From European Revolutions Sabine Freitag, Rudolf Muhs, 2003-07-01 Studies on exile in the 19th century tend to be restricted to national histories This volume is the first to offer a broader view by looking at French Italian Hungarian Polish Czech and German political refugees who fled to England after the European revolutions of 1848-49 The contributors examine various aspects of their lives in exile such as their opportunities for political activities the forms of political cooperation that existed between exiles from different European countries on the one hand and with organizations

and politicians in England on the other and finally the attitude of the host country towards the refugees and their perceptions of the country which had granted them asylum Spies in European Culture, 1815-1914 Laura Di Fiore, Elisabetta Abignente, 2025-01-23 This volume brings together academics from the USA and across Europe to examine the nature representations and perceptions of the figure of the spy in Europe between 1815 and 1914 As such it is the first scholarly investigation of the genesis both of contemporary espionage and of the cultural imagination associated with it Spies in European Culture 1815 1914 sheds light on the founding moment of espionage and the use of secrecy in politics in the contemporary age It successfully argues that the 19th century saw the development of a cultural historical process in which disruptive novelties like the disguise the secret and the double identity simultaneously assailed the spheres of the state the self and the imaginary ushering in distinctive features of society in the modern era in the process This global phenomenon in which state and society but also reality and fiction were profoundly intertwined is therefore investigated by means of a transdisciplinary analysis that considers both the politico institutional and the cultural planes that existed at the time

Karl Marx Prince of Darkness George Fabian, 2011-10-24 If Marx in his famous quip called religion the opium of the people opium was the religion of Marx see page 28 of the book Amid some 20 000 titles on Marx this ranks as one of the most comprehensive and subversive studies of him The reader learns for the first time here that This father of communism idolized today as a beacon of light was in truth a drug addict intent on stripping us all of civic freedoms and still worse corralling us into labor camps as superficial bourgeois riff raff In contrast his close friend Friedrich Engels imagined communism as a higher stage of civilization and his views have mistakenly become associated with Marx Behind the faade of unity Marx and Engels feuded over the goals strategy and tactics of communism This conflict marred The Communist Manifesto and Capital warranting their fundamental reinterpretation Engels initiated an astonishing image makeover that eventually transformed Marx the self appointed gravedigger of civil society into its savior Apart from challenges to serious students of Marx and Marxism the book also offers intersecting human touch stories of his dark self his family friends and contemporaries

Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures A Global History of Modern

Transcultural History Madeleine Herren, Martin Rüesch, Christiane Sibille, 2012-06-19 For the 21st century the often quoted citation past is prologue reads the other way around The global present lacks a historical narrative for the global past Focussing on a transcultural history this book questions the territoriality of historical concepts and offers a narrative which aims to overcome cultural essentialism by focussing on crossing borders of all kinds Transcultural History reflects critically on the way history is constructed asking who formed history in the past and who succeeded in shaping what we call the master narrative Although trained European historians the authors aim to present a useful approach to global history showing first of all how a Eurocentric but universal historiography removed or essentialised certain topics in Asian history As an empirical discipline history is based on source material analysed according to rules resulting from a strong methodological background This book accesses the global past after World War I looking at the well known stage of the Paris Peace Conferences observing the multiplication of new borders and the variety of transgressing institutions concepts actors men and women inventing themselves as global subjects but sharing a bitter experience with almost all local societies at this time namely the awareness of having relatives buried in far distant places due to globalised wars

The Memory of the Habsburg Empire in German, Austrian, and Hungarian Right-wing Historiography and Political Thinking, 1918-1941 Gergely Romsics,2010 By reproducing the political and historiographical debates surrounding the legacy of the Habsburg Empire this book follows the transformation of historico political thinking during the two world wars This transformation began in Germany where v lkish streams of the Conservative Revolution offered a radical new interpretation of history These reading focused on the unchanging essence of the Volk and treated a certain idea of the Habsburg past as inorganic derailing history and conflicting with the true calling of the German people The v lkish movement and its historiography both inspired and challenged Austrian and Hungarian intellectuals asking them to either adopt or resist this new philosophy and the politics it represented Building a history out of the realignment of German thought and its affect on small states within Germany s cultural orbit this volume richly recounts the clash between domestic tradition and imported innovations
