The Barter Economy of the Khmer Rouge Labor Camps Scott Pribble, 2023-07-21 Pribble investigates the barter economies that developed in many of the labor camps established under the Khmer Rouge in Cambodia When the Khmer Rouge abolished currency and markets in 1975 starving Cambodians created underground exchanges in labor camps throughout the country bartering luxury items for food and other necessities while simultaneously undermining the regime's ideological goals of eliminating any traces of capitalism in Democratic Kampuchea Pribble asserts three key points about the barter economy in the Khmer Rouge labor camps First the underground exchanges in Democratic

Kampuchea provided food and medicine for desperate people subsisting under a totalitarian regime saving the lives of countless Cambodians Second bartering was the riskiest way to obtain food because it was dependent upon the discretion of two or more individuals from different social classes under the threat of violent punishment thereby altering the social dynamics of the camps Finally despite the regime s extreme efforts to eliminate foreign influence from the country and impose communist ideology on millions of citizens basic forms of market capitalism and a demand for superfluous luxury goods persisted in labor camps throughout the country A fascinating study of the human consequences of imposing rigid ideology that will be of particular interest to scholars and students of political history and Southeast Asian history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Hayes-Minney,2019-11-17 Two Lane Livin Magazine featured more than 35 columnists over a decade and Lisa s column Two Lane for Life appeared in all 123 issues During her tenure as editor publisher and columnist for Two Lane Livin she tried to learn about homesteading and farming from other columnists and her own research apply the principles of sustainable simple living to her own life and share those experiences with her readers Several columnists from the magazine have compiled their work into books and we hope you will enjoy their collections as well as this assembly of some of Lisa s personal favorites from her own column in the magazine *The Everyday Life of the Poor in Cameroon* Nathanael

Ojong,2019-11-22 This book provides a detailed account of the lives of the poor particularly their use of social networks to meet everyday needs Based on fieldwork in Cameroon the book provides a distinctive approach that draws on social network theory and insights from economic anthropology to shed light on how the poor make a living Though embeddedness in social networks is essential to human achievement we know little about the social and cultural forces and processes that shape poor people s decisions to seek help from strong weak and disposable ties in an African context Focusing on network practice rather than network structure the author argues that the ability of poor people to meet their diverse needs rests on several elements such as favourable interactions and social and cultural forces He examines various issues crucial to the lives of the poor such as food shelter healthcare death and funerals and access to finance Particular focus is given to the complicated nature of social relationships the different contexts where these relationships take place and how these factors shape poor individuals decisions regarding whom to turn to when attempting to meet their needs including how they actually meet those needs This book will be of interest to researchers teachers students and policy makers in African Studies economics development studies sociology and anthropology **The Baby Barter** Patty Smith Hall,2016-01-01 A BABY TO CHERISH

Croft, *Barter, Exchange and Value* Caroline Humphrey,Stephen Hugh-Jones,1992-06-11 This book concerns

barter a transaction in which objects are exchanged directly for one another without the use of money Economists treat barter as an inefficient alternative to market exchange and assume that it is normal only in primitive economies or marks the breakdown of more developed exchange mechanisms For their part anthropologists have been more interested in the social

and moral complexities of the gift and treat barter dismissively as mere haggling The authors of this collection do not accept that barter occupies a residual space between monetary and gift economies Using accounts from different parts of the world they aim to demonstrate that it is more than a simple and self evident economic institution Barter may constitute a mode of exchange with its own social characteristics occupying a specific moral space This novel treatment of barter represents an original and topical addition to the literature on economic anthropology Will I Live Tomorrow? Sonia Nassery Cole,2012-10-16 When Sonia Nassery Cole set out to film The Black Tulip in her homeland of Afghanistan she knew the odds were against her she was told time and time again that filming inside a war zone would be impossible What she didn't anticipate was how intent the Taliban and its sympathizers were on halting the film's production the crew encountered extortion government corruption kidnapping attempts and death threats even with around the clock security Her cinematographer fled after two days and many others followed After 9/11 Cole wrote The Black Tulip based on a true story of a real Afghan family The plot was simple After 2001 when the Taliban was routed an Afghan family opened The Poet's Corner a restaurant with an open microphone for all to read poetry perform music and tell their stories But the Taliban didn't approve and the family's new found hope proved fleeting as it struggled to maintain the restaurant and its vibrant way of life Selected as Afghanistan's official submission for the Best Foreign Language Film at the 2010 Academy Awards The Black Tulip is a modern portrait of Afghanistan that captures the plight and resilience of its people Without financial support from a studio or anyone else Cole self financed the film by mortgaging her home and selling her belongings Then with everything on the line she left for Kabul to make the impossible possible and set out to gather the right people who would risk their lives and willingly be part of the production In Will I Live Tomorrow Cole gives an intimate look into what went on behind the scenes of making a controversial film in the heart of a war ravaged country the looming terror the Taliban creates among Afghans everywhere and the challenges and fear the cast and crew faced every day Will I Live Tomorrow is a memoir about one woman's struggle to make a difference in a violent world Earth Aliens: The Miring Sharon S. The Social Life of Money Nigel Dodd, 2016-02-09 A reevaluation of what money is and what it might be Questions about the nature of money have gained a new urgency in the aftermath of the global financial crisis Even as many people have less of it there are more forms and systems of money from local currencies and social lending to mobile money and Bitcoin Yet our understanding of what money is and what it might be hasn't kept pace In *The Social Life of Money* Nigel Dodd one of today's leading sociologists of money reformulates the theory of the subject for a postcrisis world in which new kinds of money are proliferating What counts as legitimate action by central banks that issue currency and set policy What underpins the right of nongovernmental actors to create new currencies And how might new forms of money surpass or subvert government sanctioned currencies To answer such questions *The Social Life of Money* takes a fresh and wide ranging look at modern theories of money One of the book's central concerns is how money can be wrested from the domination and mismanagement of banks and governments and restored to its fundamental position as the claim upon society described by Georg Simmel But rather than advancing yet another critique of the state based monetary system *The Social Life of Money* draws out the utopian aspects of money and the ways in which its transformation could in turn transform society politics and economics The book also identifies the contributions of thinkers who have not previously been thought of as monetary theorists including Nietzsche Benjamin Bataille Deleuze and Guattari Baudrillard Derrida and Hardt and Negri The result provides new ways of thinking about money that seek not only to understand it but to change it
