

From A Philosophical Point Of View Selected Studies

JS Bruner

From A Philosophical Point Of View Selected Studies:

From a Philosophical Point of View Morton White, 2009-02-09 One of the most important philosophers of recent times Morton White has spent a career building bridges among the increasingly fragmented worlds of the humanities social sciences and natural sciences From a Philosophical Point of View is a selection of White s best essays written over a period of more than sixty years Together these selections represent the belief that philosophers should reflect not only on mathematics and science but also on other aspects of culture such as religion art history law education and morality White s essays cover the full range of his interests studies in ethics the theory of knowledge and metaphysics as well as in the philosophy of culture the history of pragmatism and allied currents in social political and legal thought The book also includes pieces on philosophers who have influenced White at different stages of his career among them William James John Dewey G E Moore and W V Quine Throughout White argues from a holistic standpoint against a sharp epistemological distinction between logical and physical beliefs and also against an equally sharp one between descriptive and normative beliefs White maintains that once the philosopher abandons the dogma that the logical analysis of mathematics and physics is the essence of his subject he frees himself to resume his traditional role as a student of the central institutions of civilization Philosophers should function not merely as spectators of all time and existence he argues but as empirically minded students of culture who try to use some of their ideas for the benefit of society From a Philosophical Point of View ,2008 One of the most important philosophers of recent times Morton White has spent a career building bridges among the increasingly fragmented worlds of the humanities social sciences and natural sciences From a Philosophical Point of View is a selection o American Pragmatists Cheryl Misak, 2013-02-21 Cheryl Misak presents a history of the great American philosophical tradition of pragmatism from its inception in the Metaphysical Club of the 1870s to the present day This ambitious new account identifies the connections between traditional American pragmatism and contemporary philosophy and argues that the most defensible version of pragmatism roughly that of Peirce Lewis and Sellars must be seen and recovered as an important part of the analytic tradition Logic in Question Jean-Yves Béziau, Jean-Pierre Desclés, Amirouche Moktefi, Anca Christine Pascu, 2023-01-11 This contributed volume collects papers related to the Logic in Question workshop which has taken place annually at Sorbonne University in Paris since 2011 Each year the workshop brings together historians philosophers mathematicians linguists and computer scientists to explore questions related to the nature of logic and how it has developed over the years As a result chapter authors provide a thorough interdisciplinary exploration of topics that have been studied in the workshop Organized into three sections the first part of the book focuses on historical questions related to logic the second explores philosophical questions and the third section is dedicated to mathematical discussions Specific topics include logic and analogy Chinese logic nineteenth century British logic in particular Boole and Lewis Carroll logical diagrams the place and value of logic in Louis Couturat's philosophical thinking contributions of logical analysis for

mathematics education the exceptionality of logic the logical expressive power of natural languages the unification of mathematics via topos theory Logic in Question will appeal to pure logicians historians of logic philosophers linguists and other researchers interested in the history of logic making this volume a unique and valuable contribution to the field

The Routledge Guidebook to James's Principles of Psychology David E Leary, 2018-01-17 The Routledge Guidebook to James's Principles of Psychology is an engaging and accessible introduction to a monumental text that has influenced the development of both psychological science and philosophical pragmatism in important and lasting ways Written for readers approaching William James s classic work for the first time as well as for those without knowledge of its entire scope this guidebook not only places this work within its historical context it provides clear explications of its intertwined aspects and arguments and examines its relevance within today s psychology and philosophy Offering a close reading of this text The Routledge Guidebook to James s Principles of Psychology is divided into three main parts Background Principles Elaborations It also includes two useful appendices that outline the sources of James's various chapters and indicate the parallel coverages of two later texts written by James an abbreviated version of his Principles and a psychological primer for teachers This is essential reading for anyone who wants to understand this influential work Toward a Pragmatist Philosophy of the Humanities Sami Pihlström, 2022-12-01 Humanist scholars often feel the need to defend the humanities The value of humanistic research is sometimes challenged as the cultural reality investigated by disciplines such as history literary studies and theology may seem unclearIn particular the ontology of the humanities might be considered obscure in comparison to the ontology of the natural sciences Toward a Pragmatist Philosophy of the Humanities proposes to develop a comprehensive philosophical account of the humanities focusing on the ontology and epistemology of humanistic inquiry from the standpoint of pragmatism Sami Pihlstr m argues that humanistic cognitive pursuits can be interpreted along the lines of a pragmatist theory of inquiry defending pragmatic realism about the humanities However far from leading to any reductive naturalization of the human world the pragmatist philosophy of the humanities defended by Pihlstr m takes a distinctively Kantian critical turn in emphasizing the need for transcendental argumentation in the philosophy of the humanities insisting on the irreducibly ethical dimensions of humanistic scholarship Richard Rorty Neil Gross, Professor of Sociology Neil Gross, 2010-10 On his death in 2007 Richard Rorty was heralded by the New York Times as one of the world's most influential contemporary thinkers Controversial on the left and the right for his critiques of objectivity and political radicalism Rorty experienced a renown denied to all but a handful of living philosophers In this masterly biography Neil The Bloomsbury Encyclopedia of Philosophers in America John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology

pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history The Routledge Companion to Twentieth Century Philosophy Dermot Moran, 2008-10-27 Featuring twenty two chapters written by leading international scholars this major publication covers all the key figures and movements from Frege to Derrida and philosophy of language to feminist philosophy **Hope** Nicola Hoggard Creegan, Andrew Shepherd, 2018-04-25 We live in an ecological age Science in the last few hundred years has given us a picture of nature as blind to the future and mechanical in its workings even while ecology and physics have made us aware of our interconnectedness and dependency upon the web of life As we witness a possible sixth great mass extinction there is increasing awareness too of the fragility of life on this planet In such a context what is the nature of Christian hope St Paul declares that all of creation will be set free from its bondage to decay and will obtain the freedom of the glory of the children of God How are we to imagine this freedom when death and decay are essential to biological life as we currently experience it and when the scientific predictions for life are bleak at best This book explores these questions reflecting on how our traditions shape our imagination of the future and considering how a theology of hope may sustain Christians engaged in conservation initiatives The essays in this volume are partly in dialogue with the ground breaking work of Celia Deane Drummond and are set in the context of global and local Aotearoa New Zealand ecological challenges

essays for a rainy day Michael Garmon, Dictionary of Modern American Philosophers John R. Shook,2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers anda large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas abibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be anindispensable reference work for scholars working on almost any aspect of modern American thought

The

Software Systems Engineering and Information Systems Mora, Manuel, 2012-02-29 Philosophical paradigms theoretical frameworks and methodologies make up the answering and problem solving systems that define current research approaches While there are multiple research method books the subject lacks an update and integrated source of reference for graduate courses Research Methodologies Innovations and Philosophies in Software Systems Engineering and Information Systems aims to advance scientific knowledge on research approaches used in systems engineering software engineering and information systems and to update and integrate disperse and valuable knowledge on research approaches This aims to be a collection of knowledge for PhD students research oriented faculty and instructors of graduate courses Grove's The Practice of Nursing Research - E-Book Jennifer R. Gray, Susan K. Grove, Suzanne Sutherland, 2016-08-10 NEW Mixed Methods Research chapter and emphasis covers this increasingly popular approach to research NEW Expanded emphasis on qualitative research provides more balanced coverage of qualitative and quantitative methods addressing the qualitative research methodologies that are often the starting point of research projects particularly in magnet hospitals and DNP programs ENHANCED emphasis on evidence based practice addresses this key graduate level QSEN competency UPDATED emphasis on the most currently used research methodologies focuses on the methods used in both quantitative research and qualitative research as well as outcomes research and mixed methods research NEW Quick reference summaries are located inside the book s covers including a table of research methods on the inside front cover and a list of types of research syntheses with definitions inside the back cover NEW student resources on the Evolve companion website include 400 interactive review questions along with a library of 10 Elsevier research articles NEW Colorful design highlights key information such as tables and research examples Knowledge from a Human Point of View Ana-Maria Cretu, Michela Massimi, 2019-11-29 This open access book as the title suggests explores some of the historical roots and epistemological ramifications of perspectivism Perspectivism has recently emerged in philosophy of science as an interesting new position in the debate between scientific realism and anti realism But there is a lot more to perspectivism than discussions in philosophy of science so far have suggested Perspectivism is a much broader view that emphasizes how our knowledge in particular our scientific knowledge of nature is situated it is always from a human vantage point as opposed to some Nagelian view from nowhere This edited collection brings together a diverse team of established and early career scholars across a variety of fields from the history of philosophy to epistemology and philosophy of science The resulting nine essays trace some of the seminal ideas of perspectivism back to Kant Nietzsche the American Pragmatists and Putnam while the second part of the book tackles issues concerning the relation between perspectivism relativism and standpoint theories and the implications of perspectivism for epistemological debates about veritism epistemic normativity and the foundations of human knowledge

Embracing the Beat of Expression: An Psychological Symphony within **From A Philosophical Point Of View Selected Studies**

In some sort of eaten by screens and the ceaseless chatter of instant interaction, the melodic elegance and mental symphony developed by the published word often disappear into the backdrop, eclipsed by the persistent noise and distractions that permeate our lives. However, located within the pages of **From A Philosophical Point Of View Selected Studies** a stunning fictional prize overflowing with raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, that fascinating masterpiece conducts readers on a mental journey, well unraveling the hidden songs and profound impact resonating within each cautiously constructed phrase. Within the depths of the moving analysis, we will explore the book is main harmonies, analyze their enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
