From Buonarroti to Bakunin Arthur Lehning, 2023-08-21 From Buonarroti to Bakunin. Studies in International Socialism, Etc Arthur MUELLER LEHNING, 1970 From Buonarroti to Bakunin. Studies in international socialism. With 10 ills , 1970 Imagining Socialism Mark A. Allison, 2021 Socialism names a form of collective life that has never been fully realized consequently it is best understood as a goal to be imagined So this study argues and thereby uncovers an aesthetic impulse that animates some of the most consequential socialist writing thought and practice of the long nineteenth century Imagining Socialism explores this tradition of radical activism investigating the diverse ways that British socialists from Robert Owen to the mid century Christian Socialists to William Morris marshalled the resources of the aesthetic in their efforts to surmount politics and develop non governmental forms of collective life Their ambitious attempts at social regeneration led some socialists to explore the liberatory possibilities afforded by cooperative labor women s emancipation political violence and the power of the arts themselves Imagining Socialism demonstrates that far from being confined to the socialist revival of the fin de si cle important socialist experiments with the emancipatory potential of the aesthetic in Britain may be found throughout the period it calls the socialist century and may still inspire us today We Do Not Fear Anarchy—We Invoke It Robert Graham, 2015-06-23 From 1864 to 1880 socialists communists trade unionists and anarchists synthesized a growing body of anticapitalist thought through participation in the First International a body devoted to uniting left wing radical tendencies of the time Often remembered for the historic fights between Karl Marx and Michael Bakunin the debates and experimentation during the International helped to refine and focus anarchist ideas into a doctrine of international working class self liberation An unprecedented analysis of an often misunderstood history *Mikhail Bakunin* Paul McLaughlin, 2002 McLaughlin is concerned not so much with an explication of Bakunin s anarchist position as such as with the basic philosophy which underpins it He focuses on two central components a negative dialectic or revolutionary logic and a naturalist ontology a naturalistic account of the structure of being or reality Bakunin scholarship he notes falls into two camps Marxist and liberal Both he says tend to be hostile McLaughlin discredits one by one the analyses published usually as part of a work on Marx et al by Francis Wheen schoolboy wit idiocy of tone poverty of content George Lichtheim completely misreads Bakunin and Oxbridge scholar Aileen Kelly personality assassination perverse slanderous while upholding Eric Voegelin Perhaps this book will spark a small revolution of its own Scholars interested in Bakunin have had few resources available in English and none of them until now presented a credible study of the man s philosophy *Main Currents of Marxism* Leszek Kołakowski, 2005 The commanding study of Marxism now in one masterful volume with a new preface and epilogue by the author **French Early Socialists 1790s-1870s** Pamela Pilbeam, 2025-03-05 This new edition is an updated assessment of the ideas and strategies of early French socialists incorporating recent research which observes the practical and scientific nature of socialist proposals The second edition provides increased coverage of women s

contributions including the important roles of activists like Flora Tristan and Jeanne Deroin socialist women's newspapers schools run by women and the demand for suffrage in 1848 There is also further emphasis on socialist experiments in France's new colony Algeria and on transnational connections particularly with Owen in Britain and Fourierist communities in North America Association still figures prominently as the solution to the social and economic problems created by modernisation and capitalist exploitation It took a variety of forms from Fourier's proposal that private finance create profit sharing communities to Leroux's practical cooperative venture at Boussac through Blanc and Considérant's demands for state initiative to set up worker alternatives to capitalism The democratic republic of 1848 gave socialists the opportunity to engage in politics and despite the setbacks of the Second Empire socialists were set on a parliamentary route in which they still have a presence French Early Socialists 1790s 1870s is an engaging resource for students and scholars in histories of France politics and gender **Barricades** J. Harsin, 2002-07-18 Between 1830 and 1848 Paris was rocked by two successful revolutions three failed insurrections and seven serious assassination attempts against King Louis Philippe and his sons The June Days of 1848 the worst urban insurrection in history until that time finally brought this period to a close Using a wide variety of sources including detailed court records and hundreds of depositions of witnesses and suspects Jill Harsin examines revolutionary republicanism during the violent underground movement of the July Monarchy and describes these events in vivid detail The lives of ordinary men are captured in their own words as Harsin illuminates the political aspirations of the working class Harsin's original writing style and compelling discussions shed new light on the particular turbulence of this era a period of disruption that stemmed from the contemporary working class codes of masculinity and honour

Restorations Michael Broers, Ambrogio A. Caiani, 2019-11-14 Europe's Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re-ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations ["Arise Ye Wretched of the Earth": The First International in a Global Perspective](#), 2018-03-20 Arise Ye Wretched of the Earth provides a fresh account of the International Working Men's Association Founded in London in 1864 the First International gathered trade unions associations co-operatives and individual workers across Europe and the Americas The IWMA struggled for the emancipation of labour It organised solidarity with strikers It took sides in major events such as the 1871 Paris Commune It soon appeared as a threat to

European powers which vilified and prosecuted it Although it split up in 1872 the IWMA played a ground breaking part in the history of working class internationalism In our age of globalised capitalism large labour migration and rising nationalisms much can be learnt from the history of the first international labour organisation Contributors are Fabrice Bensimon Gregory Claeys Michel Cordillot Nicolas Delalande Quentin Deluermoz Marianne Enckell Albert Garcia Bala a Samuel Hayat J rgen Herres Fran ois Jarrige Mathieu L onard Carl Levy Detlev Mares Krzysztof Marchlewicz Woodford McClellan Jeanne Moisan and Iorwerth Prothero Jean Puissant J rgen Schmidt Antje Schrupp Horacio Tarcus Antony Taylor Marc Vuilleumier **The**

Cambridge History of Socialism: Volume 1 Marcel van der Linden, 2022-11-24 This volume describes the various movements and thinkers who wanted social change without state intervention It covers cases in Europe the Americas Africa and Asia The first part discusses early egalitarian experiments and ideologies in Asia Europe and the Islamic world and then moves to early socialist thinkers in Britain France and Germany The second part deals with the rise of the two main currents in socialist movements after 1848 anarchism in its multiple varieties and Marxism It also pays attention to organisational forms including the International Working Men s Association later called the First International and it then follows the further development of anarchism and its proletarian sibling revolutionary syndicalism its rise and decline from the 1870s until the 1940s on different continents The volume concludes with critical essays on anarchist transnationalism and the recent revival of anarchism and syndicalism in several parts of the world **The Communist Manifesto** Karl

Marx, Friedrich Engels, 2002-08-27 A rousing call to arms whose influence is still felt today Originally published on the eve of the 1848 European revolutions The Communist Manifesto is a condensed and incisive account of the worldview Marx and Engels developed during their hectic intellectual and political collaboration Formulating the principles of dialectical materialism they believed that labor creates wealth hence capitalism is exploitive and antithetical to freedom This new edition includes an extensive introduction by Gareth Stedman Jones Britain s leading expert on Marx and Marxism providing a complete course for students of The Communist Manifesto and demonstrating not only the historical importance of the text but also its place in the world today For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators **The Immutable Laws of Mankind** Alastair Davidson, 2012-05-02 The key question for the history of

universal human rights is why it took so long for them to become established as law The main theme of this book is that the attainment of universal human rights required heroic struggle first by individuals and then by ever increasing numbers of people who supported those views against the major historical trends Universal human rights are won from a hostile majority by outsiders The chapters in the book describe the milestones in that struggle The history presented in this book shows that

in most places at most times even today for concrete material reasons a great many people oppose the notion that all individuals have equal rights The dominant history since the 1600s has been that of a mass struggle for the national democratic state This book argues that this struggle for national rights has been practically and logically contradictory with the struggle for universal rights It would only be otherwise if there were free migration and access to citizenship on demand by anybody This has never been the case Rather than drawing only on European sources and being limited to major literary figures this book is written from the Gramscian perspective that ideas mean little until they are taken up as mass ideologies It draws on sources from Asia and America and on knowledge about mass attitudes globally and throughout history
