From Cooperation to Complicity Peter Hayes, 2004-09-20 Publisher Description *From Cooperation to Complicity* Peter Hayes, 2007-07-23 The Degussa corporation played a pivotal role in the processing of plundered precious metals in Nazi occupied Europe and controlled the production and distribution of Zyklon B the infamous pesticide used to gas the inmates of Auschwitz and Majdanek concentration camps during the Third Reich Peter Hayes traces the extent of the corporation's involvement in these and other Nazi war crimes including the Aryanization of Jewish owned property and the exploitation of forced labor and delineates the motivations for such conduct *From Cooperation to Complicity* Peter Hayes, 2007-07-23 The Degussa corporation played a pivotal role in the processing of plundered precious metals in Nazi occupied Europe and controlled the production and distribution of Zyklon B the infamous pesticide used to gas the inmates of Auschwitz and Majdanek concentration camps during the Third Reich Peter Hayes traces the extent of the corporation's involvement in these and other Nazi war crimes including the Aryanization of Jewish owned property and the exploitation of forced labor and delineates the motivations for such conduct *The Holocaust, Corporations, and the Law* Leora Yedida Bilsky, 2025-04-14 The Holocaust Corporations and the Law explores the challenge posed by the Holocaust to legal and political thought by examining issues raised by the restitution class action suits brought against Swiss banks and German corporations before American federal courts in the 1990s Although the suits were settled for unprecedented amounts of money the defendants did not formally assume any legal responsibility Thus the lawsuits were bitterly criticized by lawyers for betraying justice and by historians for distorting history Leora Bilsky argues class action litigation and settlement offer a mode of accountability well suited to addressing the bureaucratic nature of business involvement in atrocities Prior to these lawsuits legal treatment of the Holocaust was dominated by criminal law and its individualistic assumptions consistently failing to relate to the structural aspects of Nazi crimes Engaging critically with contemporary debates about corporate responsibility for human rights violations and assumptions about law she argues for the need to design processes that make multinational corporations accountable and examines the implications for transitional justice the relationship between law and history and for community and representation in a post national world Her novel interpretation of the restitution lawsuits not only adds an important dimension to the study of Holocaust trials but also makes an innovative contribution to broader and pressing contemporary legal and political debates In an era when corporations are ever more powerful and international Bilsky's arguments will attract attention beyond those interested in the Holocaust and its long shadow **Business and Industry in Nazi Germany** Francis R. Nicosia, Jonathan Huener, 2004 During the past decade the role of Germany's economic elites under Hitler has once again moved into the limelight of historical research and public debate This volume offers a brief but focused introduction to the role of German businesses and industries in the crimes of Hitler's Third Reich **Left to the Mercy of a Rude Stream** Stanley A. Goldman (Lawyer), 2018-01-01 Seven years after the death of his mother Malka Stanley

A Goldman traveled to Israel to visit her best friend during the Holocaust. The best friend's daughter showed Goldman a pamphlet she had acquired from the Israeli Holocaust Museum that documented activities of one man's negotiations with the Nazi's interior minister and SS head Heinrich Himmler for the release of the Jewish women from the concentration camp at Ravensbrück. While looking through the pamphlet, the two discovered a picture that could have been their mothers being released from the camp. Wanting to know the details of how they were saved, Goldman set out on a long and difficult path to unravel the mystery. After years of researching the pamphlet, Goldman learned that a German Jew named Norbert Masur made a treacherous journey from the safety of Sweden back into the war zone in order to secure the release of the Jewish women imprisoned at the Ravensbrück concentration camp. Masur not only succeeded in his mission against all odds but he contributed to the downfall of the Nazi hierarchy itself. This amazing little known story uncovers a piece of history about the undermining of the Nazi regime, the women of the Holocaust and the strained but loving relationship between a survivor and her son.

The Routledge Handbook of White-Collar and Corporate Crime in Europe Judith van Erp, Wim Huisman, Gudrun Vande Walle, 2015-04-10. The study of white collar crime remains a central concern for criminologists around the world and research concentrates on its nature, prevalence, causes and responses. However, most books on white collar crime tend to focus on Anglo American examples, which is surprising given the amount of rich data and research taking place in mainland Europe. This new handbook seeks to reset the balance and for the first time presents an overview of state of the art research on white collar crime in Europe. Adding to the existing Anglo American body of knowledge, the Handbook will discuss specific European topics and typical European features of white collar crime. The Routledge Handbook of White Collar and Corporate Crime in Europe consists of more than thirty chapters on topics ranging from the Icelandic Banking Crisis to the origins of the study of white collar crime to contemporary topics such as white collar crime in countries post transition from communist regimes, the illegal e-waste trade and white collar crime in professional football. Furthermore, the book contains extensive case study analyses of landmark European cases of white collar crime. The editors have gathered together the leading voices in the field and a final section offers commentaries on white collar crime in Europe from eminent criminologists David Friedrichs and Hazel Croall. This Handbook will thus serve as a work of reference for all scholars and students engaged in the study of corporate and white collar crime and will also set out directions for new research in the future.

Fatal Airs Scott Christianson, 2010-07-15. This is the first book to examine the deadly history and potential apocalyptic future of both natural and man-made lethal gases that threaten our world. *Fatal Airs: The Deadly History and Apocalyptic Future of Lethal Gases That Threaten Our World* relates the fascinating and appalling stories of the discovery, development, applications and occupational and public health hazards of natural and man-made gases. Some of these gases have figured in mass extinctions. Others have created havoc through their use in chemical warfare or their accidental release. Among the hundreds of man-made lethal gases, several have been singled out for attention, including chlorine, phosgene, mustard gas, lewisite, hydrogen

cyanide and the nerve agents tabun sarin soman VX and methyl isocyanate The book also examines some naturally occurring gases such as carbon dioxide sulfur dioxide hydrogen sulfide carbon monoxide methane and radon Colorful accounts capture the characteristics and history of each of these mysterious substances focusing on key episodes in scientific discovery and exploration since World War I Voting and Holiness Nicholas P.
