AB Bookman's Weekly ,1993 From Elfland to Poughkeepsie Ursula K. Le Guin,1973 The Language of the Night Ursula K. Le Guin,2024-05-14 Featuring a new introduction by Ken Liu this revised edition of Ursula K Le Guin s first full length collection of essays covers her background as a writer and educator on fantasy and science fiction on writing and on the future of literary science fiction We like to think we live in daylight but half the world is always dark and fantasy like poetry speaks the language of the night Ursula K Le Guin Le Guin s sharp and witty voice is on full display in this collection of twenty four essays revised by the author a decade after its initial publication in 1979 The collection covers a wide range of topics and Le Guin s origins as a writer her advocacy for science fiction and fantasy as mediums for true literary exploration the writing of her own major works such as A Wizard of Earthsea and The Left Hand of Darkness and her role as a public intellectual and educator The book and each thematic section are brilliantly introduced and contextualized by Susan Wood a professor at the University of British Columbia and a literary editor and feminist activist during the 1960s and 70s A fascinating intimate look into the exceptional mind of Le Guin whose insights remain as relevant and resonant today as when they were first published *Heritage Rare Books & Manuscripts Auction Final Session # 683* , Reading Matters Ulrich Marzolph,2023 The present book is a special gift for a special colleague and friend Defined as an Unfestschrift it gives colleagues students and friends of Regina Bendix an opportunity to express their esteem for Regina s inspiration cooperation leadership and friendship in an adequate and lasting manner The title of the present book Reading Matters is as close as possible to an English equivalent of the beautiful German double entendre Erlesenes meaning both something read a reading and something exquisite Presenting matters for reading the Unfestschrift unites short contributions about readings that mattered in some way or another for the contributors readings that had an impact on their understanding of whatever they were at some time or presently are interested in The term readings is understood widely Since most of the invited contributors are academics the term implies in the first place readings of an academic or scholarly nature In a wider notion however readings also refer to any other piece of literature the perception of a piece of art a painting a sculpture a performance listening to music appreciating a folkloric performance or a fieldwork experience or just anything else whose reading or individual perception has been meaningful for the contributors in different ways Contrary to a strictly scholarly treatment of a given topic in which the author often disappears behind the subject the presentations unveil and highlight the

contributor's personal involvement and thus a dimension of crucial importance for ethnographers such as the dedicatee

Ingardeniana III Anna-Teresa Tymieniecka, 2012-12-06 In the footsteps of Ingardeniana II this volume marks the 20th anniversary of Roman Ingarden's death partly focusing upon his thought partly bringing his aesthetics into the present day framework of research It might have appeared puzzling to the followers of our *Analecta Husserliana* why within the original horizon encircled by the research work of our International Society of Phenomenology and Literatur whose research work is devised in a diametrically opposed direction to that of Roman Ingarden there is steadfastly running through our discussions a line of Ingardenian reflection The reason as I have pointed out in the introduction to Ingardeniana II expertly edited by Hans Rudnik is clear Ingarden's analysis of the intentional structures of works of art offers in its distinct and clear cut forms an objective correlate as well as a point of reference to the vast conundrum of issues concerning the creative endeavor of the writer poet artist in their struggle to endow life with its specifically human significance a conundrum that in our research we are trying to disentangle elucidating its mysterious ramifications their sources and dynamic virtualities As a matter of fact Ingarden's thought newly interpreted and originally expanded occupies a legitimate place in the present collection We find here in the first place an original expansion of Ingarden's aesthetic theory in the monograph of Jadwiga Smith followed by the essays of Władysław Osiński Yushiro Takei and Charles Rzepka

Ursula K. Le Guin's "A Wizard of Earthsea" Timothy S. Miller, 2023-03-01 Written not so long after Tolkien mania first gripped the United States in the 1960s Ursula K Le Guin's novel *A Wizard of Earthsea* 1968 has long been recognized as a classic of the fantasy genre and the series of *Earthsea* books that followed on it over the next several decades earned its author both considerable sales and critical accolades This new introduction to the text will closely contextualize the original novel in relation to its heady decade of composition and publication a momentous time for genre publishing and also survey the half century and more of scholarship on *Earthsea* which has shifted in direction and emphasis many times over the decades just as surely as Le Guin frequently adjusted her own sails when composing later works set in the fantasy world Above all this book positions *A Wizard of Earthsea* as perhaps an old text that nevertheless belongs in a new canon a key novel in the author's career and the genre in which it participates and one that at once looks back to Tolkien and his own antecedents in masculinist early fantasy looks forward to Le Guin's own continuing feminist and progressive education and anticipates and indeed helped to shape young adult literature in its contemporary form

Secrets of the Dragon Riders James A. Owen, 2010-02-01 Millions of readers adore Christopher Paolini's *Inheritance Cycle* its earnest hero its breathtaking battles and of course its awe inspiring dragon Saphira But there's so much more to the series than meets the eye and *Secrets of the Dragon Riders* edited by today's second hottest dragon writer James A Owen shows readers what they're missing Why might Roran be the real hero of the *Inheritance Cycle* What does Paolini's writing have in common with role play games and modern action films Are teenage writers judged more harshly than their adult counterparts The YA authors in *Secrets of the Dragon Riders* some of them no older than Paolini when he wrote *Eragon* each take on a different aspect of the series to engage and entertain Paolini fans

The Occult Imagination in Britain, 1875-1947 Christine Ferguson, Andrew Radford, 2017-12-15 Between 1875 and 1947 a period bookended respectively by the founding of the Theosophical Society and the death of notorious occultist celebrity Aleister Crowley Britain experienced an unparalleled

efflorescence of engagement with unusual occult schema and supernatural phenomena such as astral travel ritual magic and reincarnationism Reflecting the signal array of responses by authors artists actors impresarios and popular entertainers to questions of esoteric spirituality and belief this interdisciplinary collection demonstrates the enormous interest in the occult during a time typically associated with the rise of secularization and scientific innovation The contributors describe how the occult realm functions as a turbulent conceptual and affective space shifting between poles of faith and doubt the sacrosanct and the profane the endemic and the exotic the forensic and the fetishistic Here occultism emerges as a practice and epistemology that decisively shapes the literary enterprises of writers such as Dion Fortune and Arthur Machen artists such as Pamela Colman Smith and revivalists such as Rolf Gardiner Science Fiction and Fantasy Literature R.
