*The Truth of Broken Symbols* Robert C. Neville, 1996-01-01 This book provides a cross cultural analysis of how religious symbols function from a theological and philosophical perspective Showing how religious symbols can be true in various qualified senses Neville presents a theory of religious symbolism in the American pragmatic tradition extending and elaborating Tillich's claim that religious symbols participate in the divine realities to which they refer and yet must be broken in order not to be idolatrous or demonic The Truth of Broken Symbols offers a theory of religious symbolism treating reference meaning and interpretation and discussing different functions of religious symbols in theological practical and devotional contexts It shows that religious symbols are to be properly understood as true or false and that symbol systems such as myths theologies or liturgical symbols are to be used to engage divine realities while internally exhibiting semiotic structures of reference meaning and interpretation

**Politics and Transcendent Wisdom** Charles D. Orzech, 2010-11 Politics and Transcendent Wisdom presents a systematic theoretical framework for understanding the relationship between politics and religion in a variety of contexts This book examines the formation of national protection Buddhism in China and translates the key text of this important movement Showing that Buddhist notions of sovereignty were meant and were taken as more than mere metaphor Orzech examines the profound link between Buddhist notions of transcendence and the deployment of political authority in East Asia To this integration of philosophical tradition and political history is brought a new understanding of Buddhist cosmology The contexts of Buddhism as state religion in fifth and eighth century China are examined in detail through extended consideration of the Transcendent Wisdom Scripture for Humane Kings Who Wish to Protect Their States the text that was the charter for Buddhist state cults in China Korea and Japan into the twentieth century The text first appeared during the fifth century as Buddhists were struggling to understand how their foreign religion and the foreign rulers of north China might be adapted to Chinese religious and political culture The Scripture for Humane Kings and the rites enjoined by it were one answer to these questions Three centuries later in the context of a fully sinified Buddhism the Tang dynasty Tantric master Pu k ung produced a new version of the text with new rites that served as the centerpiece of his vision of a Chinese Buddhist state modeled on esoteric lines The final section of this volume presents for the first time a full annotated translation of this important East Asian Buddhist text

*Understanding Nazi Ideology: The Genesis and Impact of a Political Faith - Revised English Edition* Carl Müller Frøland, 2024-02-05 Nazism was deeply rooted in German culture From the fertile soil of German Romanticism sprang ideas of great significance for the genesis of the Third Reich ideology notions of the individual as a mere part of the national collective and of life as a ceaseless struggle between opposing forces This book traces the origins of the political religion of Nazism Ultrnationalism and totalitarianism racial theory and antisemitism nature mysticism and occultism eugenics and social Darwinism adoration of the Fuhrer and glorification of violence all are explored The book also depicts the dramatic development of the Nazi movement and the

explosive impact of its political faith racing from its bloody birth in the trenches of World War I to its cataclysmic climax in the Holocaust and World War II      **A Doomsday Reader** Ted Daniels,1999-08 Examines the activities twentieth century millenarians or people who anticipate a sudden and dramatic change in the world order with the guidance of supernatural beings      Negativity in Democratic Politics Stuart N. Soroka,2014-04-14 This book explores the political implications of the human tendency to prioritize negative information over positive information Drawing on literatures in political science psychology economics communications biology and physiology this book argues that negativity biases should be evident across a wide range of political behaviors These biases are then demonstrated through a diverse and cross disciplinary set of analyses for instance in citizens ratings of presidents and prime ministers in aggregate level reactions to economic news across 17 countries in the relationship between covers and newsmagazine sales and in individuals physiological reactions to network news content The pervasiveness of negativity biases extends this book suggests to the functioning of political institutions institutions that have been designed to prioritize negative information in the same way as the human brain

**Practicing Transcendence** Christopher Peet,2019-06-05 This book introduces readers to the concept of the Axial Age and its relevance for a world in crisis Scholars have become increasingly interested in philosopher Karl Jaspers thesis that a spiritual revolution in consciousness during the first millennium BCE decisively shaped world history Axial ideas of transcendence develop into ideologies for world religions and civilizations in turn coalescing into a Eurasian world system that spreads globally to become the foundation of our contemporary world Alongside ideas and ideologies the Axial Age also taught spiritual practices critically resisting the new scale of civilizational power in small counter cultural communities on the margins of society they turn our conscious focus inward to transform ourselves and overcome the destructive potentials within human nature Axial spiritualities offer humanity a practical wisdom a profound psychology and deep hope to transform despair into resilience helping us face with courage the ecological and political challenges confronting us today

**Roads to Utopia** David Greenstein,2014-02-12 As the greatest book of Jewish mysticism the Zohar is a revered and much studied work Yet surprisingly scholarship on the Zohar has yet to pay attention to its most unique literary device the presentation of its insights while its teachers walk on the road In these pages rabbi and scholar David Greenstein offers the first examination of the walking on the road motif Greenstein s original approach hones in on how this motif expresses the struggles with spatiality and the everyday presented in the Zohar He argues that the walking theme is not a metaphor for realms to be collapsed into or transcended by the holy as conventional interpretations would have it Rather it conveys us into those quotidian spaces that are obdurately present alongside the realm of the sacred By embracing the reality of mundane existence and recognizing the prosaic dimensions of the worldly path the Zohar is an especially exceptional mystical treatise In this volume Greenstein makes visible a singular though previously unstudied achievement of the Zohar      **The Theology and Philosophy of Eliade** C. Olson,1992-07-21 The primary focus of this study is to view Eliade as not only a historian of

religions but also as a theologian a philosopher novelist and as someone engaged in cross cultural dialogue with other religious traditions Besides attempting to view Eliade s work from a variety of perspectives this study contends that the scholarly work of Eliade cannot be separated from his own personal quest for meaning *Ultimates* Robert Cummings Neville,2013-09-17 Finalist for the 2015 John N Findlay Award in Metaphysics presented by the Metaphysical Society of America Robert Cummings Neville offers a new theology of the ultimate and a new theory of religion to back it up The first volume in a trilogy this book and companion volumes treating existence and religion advance a systematic philosophical theology to address first order questions found in the array of Axial Age religions Questions generally arising in the major religious traditions are interrogated with a dialectic of philosophical approaches This volume begins the project with a consideration of ultimacy defined philosophically and illustrated in a wide range of traditions To the question of how or why there is something rather than nothing Neville answers with an elaborate hypothesis about the ontological act of creation that creates all determinate things as related to but different from one another The result is the claim that there are five ultimates the ontological act the form of determinate things the components of determinate things the existential location of determinate things relative to one another and the value identity of ultimate things giving rise to five universal religious problematics of ultimacy respectively the question of existence the ground of obligation the quest for wholeness engaging others and finding meaning Neville analyzes what can and cannot be known about each of these ultimates Readers will find Neville s theory of religion and philosophy a bold one running counter to dominant trends while richly informed by a long and fruitful engagement with theology philosophy and religion East and West **Idealism and Materialism** Kiyoshi Kobayashi,2021-01-28 Though the series is a coherent unit with the unified purpose each book is designed to be read independently from the others The first three books are preparing for the proposal and the last book is augmenting the proposal His core proposition is in Book Four The Third Prophecy in fact it can be expressed in one simple sentence To love a child is not to make one God David Adams Leeming,Jake Page,1996 Illustrating their points with materials ranging from the prehistoric cave paintings to the mystic Jewish Kabbalah from the ancient Indians Vedas to tales of the North American Indians and other myths from around the world Leeming and Page reveals the changing mask of the male divine **Myth, Literature, and the Unconscious** Leon Burnett,Professor Sanja Bahun,Roderick Main,2018-05-01 At a time when the place and significance of myth in society has come under renewed scrutiny Myth Literature and the Unconscious contributes to shaping the new interdisciplinary field of myth studies The editors find in psychoanalysis a natural and necessary ally for investigations in myth and myth informed literature and the arts At the same time the collection re values myths and myth based cultural products as vital aids to the discipline and practice of psychoanalysis The volume spans a vast geo cultural range including ancient Egypt India Japan nineteenth century France and twentieth century Germany and investigates cultural products from the Mahabharata to J W Goethe s opus and eighteenth century Japanese fiction and from William

Blake's visionary poetry to contemporary blockbuster television series. It encompasses mythic topics and figures such as Oedipus, Orpheus, the Scapegoat, and the Hero while mobilising Freudian, Jungian, object relations, and Lacanian psychoanalytic approaches.

**Rethinking the Curriculum** Orlando Nang Kwok Ho, 2018-12-13 This book is an interdisciplinary endeavour. Encompassing education and basic research, it discusses the modular curriculum embodied in The Epistle from educational, historical, sociolinguistic, anthropological, phenomenological, and non-sectarian perspectives. It shows the cross-boundary philosophical reasoning and pedagogic dimensions of St Paul as a great teacher and thinker from the Jewish and Christian faith. In doing so, this book refocuses academia's attention on the inevitable antimonic nature inherent in humans' efforts to create systemic knowledge. Knowledge about the inner aesthetic and volitional interpretative self, the immanent psychic I, and other philosophical aspects of the realm of the transcendental should be rescued from the deepening trends of secularity. Being strong, powerful, productive, and performative should not be taken as the indisputable and exclusive aim of education. Science, Technology, Engineering, and Mathematics (STEM) do not constitute a sufficient basis for building a better humanity. Education via public curriculums ought to serve both the belly and the mind. Deliberative curricular recalibrations with rationales for grace are thus needed for a better future for humanity. This book is relevant for anyone with a core fascination about truths, values, epistemologies, life, spirituality, and holistic human development. It can also be used as a textbook or a reference in a number of fields including counselling, psychology, translation, cultural studies, and theology.

**Mircea Eliade's Vision for a New Humanism** David Cave, 1993-01-28 The influential scholar of religion Mircea Eliade envisioned a spiritually destitute modern culture coming into renewed meaning through the recovery of archetypal myths and symbols. Eliade defined this restoration of meaning as a new humanism of existential meaning and cultural religious unity. Through a biographical exegesis of Eliade's life and writings from his earliest years in Romania to his final ones as professor of the history of religions at the University of Chicago, Cave sets forward a structural description of what this new humanism might have meant for Eliade and what it signifies for modern culture. Cave concludes by endorsing Eliade's radically pluralistic vision, which he argues offers a key to the revitalization of our demythologized and material culture. This study repositions previous Eliadean studies and places the new humanism as the paradigm in relation to which future readings of Eliade should be evaluated.

*Myth and Religion in Mircea Eliade* Douglas Allen, 2002 This is an interesting study with a great deal of information on Eliade's main themes and a detailed account of his understanding of myth.

**Lonergan and Historiography** Thomas J. McPartland, 2010-04-15 Although Bernard Lonergan is known primarily for his cognitional theory and theological methodology, he long sought to formulate a modern philosophy of history free of progressive and Marxist biases. Yet he never addressed this in any single work, and his reflections on the subject are scattered in various writings. In this pioneering work, Thomas McPartland shows how Lonergan's overall philosophical position offers a fresh and comprehensive basis for considering historiography. Taking Lonergan's philosophy of historical existence into the realm of an

epistemological philosophy of history he demonstrates how the philosopher's approach builds on the actual performance of historians and as a result integrates the insights of historical specialists into a framework of functional complementarity McPartland draws on all of Lonergan's philosophical writing as well as on the vast literature of historiography to detail Lonergan's notions of historical method historical objectivity and historical knowledge Along the way he explains what Lonergan means by hermeneutics by historical description explanation ideal types and narrative by evaluative and dialectical analyses and how these elements are all functionally related to each other He also delineates the defining features of psychohistory cultural history intellectual history history of ideas and history of philosophy indicating how these disciplines play complementary roles in the critical encounter with the past Ultimately McPartland argues that Lonergan has established the principles of a historical discipline the history of consciousness that weaves together a philosophy of consciousness with rigorous historical research to grasp long term trends resulting from differentiations of consciousness His work offers a distinct perspective on historical method that takes historical objectivity seriously while providing new insight into the thought of this important philosopher

Gender and Dialogue in the Rabbinic Prism Adriel Kosman, 2012-10-30 The author applies the fields of gender studies psychoanalysis and literature to Talmudic texts In opposition to the perception of Judaism as a legal system he argues that the Talmud demands inner spiritual effort to which the trait of humility and the refinement of the ego are central This leads to the question of the attitude to the Other in general and especially to women The author shows that the Talmud places the woman who represents humility and good heartedness in the Talmudic narratives above the character of the male depicted in these narratives as a scholar with an inflated sense of self importance In the last chapter that in terms of its scope and content could be a freestanding monograph the author employs the insights that emerged from the preceding chapters to present a new reading of the Creation narrative in the Bible and the Rabbinic commentaries The divine act of creation is presented as a primal sexual act a sort of dialogic model of the consummate sanctity that takes its place in man's spiritual life when the option of opening one's heart to the other in a male female dialogue is realized

**Scoffing at Scripture** Frank Bolger Kelly, 2011-02 A former Roman Catholic Frank Bolger Kelly has long wondered why thinking humans as a whole in the 21st century have not yet been able to disentrall themselves from the demonstrable falsehoods and sectarian nonsense of organized religion A few years ago Kelly decided to sit down with the sacred scriptures of several of the world's major religions the alleged bedrocks of these various creeds in a last ditch effort to achieve holy inspiration Instead he became wholly disenchanted and Scoffing at Scripture A Commoner Reads the World's Holy Writ and Rejects Traditional Religion is the result Far from representing that all elusive Word of God creedal scripture the world over it seems to Kelly merely cloaks the tribal agendas and cultural designs of the world's priestly and virtually all male elites With the general reader in mind the author has grouped together a series of compact discussions of religion and scripture for cross cultural comparative reference Kelly's intent is to facilitate critical analysis of the world's holy writ

and in particular to encourage younger skeptical readers of a secular mind to confront the doctrinal scriptural and ritual absurdities of those faiths into which they were born and continue to be indoctrinated Frank Bolger Kelly grew up in an Irish Catholic family in the Bronx New York matriculated to a noted Jesuit college in New England and subsequently did time at a prestigious non sectarian institution of higher learning in the Midwest It was during his enlightening time at the latter that Kelly first began seriously to question not only his own religious upbringing but the scriptural bases of all the world s major religions Kelly was quickly convinced that the vast majority of the faithful the world over commoners like himself just might reconsider their religious roots and motivations in a new light if they actually bothered to immerse themselves for a time in their own sacred scriptures rather than merely fake familiarity with them Actually to read scripture in all its antiquated tendentious sectarian absurdity Kelly reasoned is to take a first giant step in renouncing irrational creeds of all kinds Thus was born *Scoffing at Scripture A Commoner Reads the World s Holy Writ and Rejects Traditional Religion* a book from which the author hopes the open minded reader will draw a secularly pure spiritual sustenance     [The Environment in Anthropology](#) Nora Haenn, Richard Wilk, 2006 Presenting ecology and current environmental studies from an anthropological point of view this book gives readers a strong intellectual foundation as well as offering practical tools for solving environmental problems     **The Book of Ezekiel, Chapters 25-48** Daniel I. Block, 1998-06-19 This work completes Daniel Block s two volume commentary on the book of Ezekiel The result of twelve years of studying this difficult section of Scripture this volume like the one on chapters 1-24 provides an excellent discussion of the background of Ezekiel and offers a verse by verse exposition that makes clear the message of this obscure and often misunderstood prophet Block also shows that Ezekiel s ancient wisdom and vision are still very much needed as we enter the twenty first century
