## **From Jerusalem To Cyprus:**

**From Jerusalem to Antioch** Jerome Crowe,1997 From Jerusalem to Antioch explains what happened when Jewish missionaries carried the Gospel from the Jewish world of Jerusalem into the Hellenistic world of Antioch to found the first Christian community It presents the results of modern research on the church of Jerusalem and the church of Antioch Parallel chapters discuss the historical origins the way in which they presented the Christian message and their distinctive patterns of worship teaching and organization This case study shows how the process of transculturation of the Gospel leads the Church to a deeper understanding of the mystery that lies at its heart *Israel and the Cyprus Question* Gabriel Haritos,2023-05-18 Providing a detailed account of Israel s foreign policy towards the Cyprus question between 1946 and the declaration of Cypriot independence in August 1960 Gabriel Haritos examines the international and regional factors which shaped Israel s approach to diplomatic relations with the independent Republic of Cyprus Based on newly available archival material from the Israeli Ministry of Foreign Affairs declassified at the author s request and on archival material collected from both sides of the Cypriot divide Haritos highlights previously unknown events and the key personalities involved in Israel s political and diplomatic interactions over the Cyprus question In doing so he offers key insights into the Middle Eastern aspect of the unresolved Cyprus conflict Cyprus Within the Biblical World James H. Charlesworth,Jolyon G. R. Pruszinski,2021-03-25 This volume moves discussion of ancient Israelite culture beyond concepts of isolation and borders factoring in already well known insights from classical studies and ancient history that take greater account of the impressive connections between all the countries bordering the Mediterranean Sea Specifically the contributors focus on Cyprus and the Bible and offer archaeological and biblical insights to consider how and in what ways Cyprus and Cypriot culture was related to biblical life and perceptions Though the Mediterranean separated Palestine from Cyprus it also joined them archaeological finds expose significant trade relations and cultural commonalities not only in the Hellenistic and late Roman eras but for many centuries prior These relations developed and became even more intimate in the later biblical period as evidenced by early Jewish and Christian writings By exploring various methods of cultural contact the contributors suggest that further examination of cultural links between Cyprus and Palestine in the biblical period can repay dividends in understanding the development of ancient Israelite religion early Judaism and early Christianity St. Paul and the Church of Jerusalem Wilfred Lawrence Knox,1925 **A History of the Orthodox Church of Cyprus from the Coming of the Apostles Paul and Barnabas to the Commencement of the British Occupation (A. elsewhere Academic discourse has indiscriminately grouped material tokens from holy places and their containers with architectural and topographical emulations two dimensional images and bodily relics However unlike textual or visual representations natural materials do not describe or interpret the Holy Land they are part of it Tangible and timeless they realize the meaning of their place of origin in new locations What makes earth stones or bottled water transported from holy sites sacred How do they become pars pro toto signifying the whole from which they were taken This book will examine natural media used for translating loca sancta the processes of their sanctification and how although inherently abstract they become charged with meaning It will address their metamorphosis natural or induced how they change the environment to which they are transported their capacity to translate a static and distant site elsewhere the effect of their relocation on users viewers and how their containers and staging are used to communicate their substance **Travels of Ali Bey in**

Foreign Areas Studies Division,1964 Orthodox Cyprus under the Latins, 1191-1571 Chrysovalantis Kyriacou,2018-10-15 Medieval and Renaissance Cyprus was a fascinating place of ethnic cultural and religious encounters Following almost nine centuries of Byzantine rule Cyprus was conquered by the Crusaders in 1191 becoming until 1571 the most important stronghold of Latin Christianity in the Eastern Mediterranean first under the Frankish dynasty of the Lusignans and later under the Venetians Modern historiographical readings of Cypriot identity in medieval and early modern times have been colored by British colonialism Greek nationalism and Cyprocentric revisionism Although these perspectives have offered valuable insights into the historical experience of Latin ruled Cypriots they have partially failed to capture the dynamics of noncoercive resistance to domination and of identity preservation and adaptation Orthodox Cyprus under the Latins 1191 1571 readdresses the question of Cypriot identity by focusing on the Greek Cypriots the island s largest community during the medieval and early modern period By bringing together theories from the fields of psychology social anthropology and sociology this study explores continuities and discontinuities in the Byzantine culture and religious tradition of Cyprus proposing a new methodological framework for a more comprehensive understanding of Cypriot Orthodoxy under Crusader and Venetian rule A discussion of fresh evidence from hitherto unpublished primary sources enriches this examination stressing the role of medieval and Renaissance Cyprus as cultural and religious province of the Byzantine and post Byzantine Orthodox world
