From Laurel Hill to Siler's Bog John K. Terres, 1969 *From Laurel Hill to Siler's Bog* John K. Terres, 1969 **The North Carolina Birding Trail** North Carolina Birding Trail, 2011-01-20 North Carolina harbors an incredible diversity of habitats that provide food and shelter for more than 440 bird species throughout the year making the state a destination for birders and nature lovers The North Carolina Birding Trail is a driving trail linking birders and tourists with great birding sites across the state and the local communities in which they are found The second of three regional guides the Piedmont Trail Guide presents 103 premier birding destinations in the North Carolina piedmont most within an easy drive of the state's urban centers between Charlotte on the west and Interstate 95 on the east The spiral bound volume features maps detailed site descriptions and color photographs throughout Each site description includes directions as well as information on access focal species and habitats and on site visitor amenities Special while you're in the area listings accompany each of fourteen site groupings so visitors can travel to a cluster of birding destinations and enjoy other local highlights and attractions along the way **Exploring North Carolina's Natural Areas** Dirk Frankenberg, 2015-12-01 Developed by leading naturalists this collection of 38 North Carolina eco tours introduces travelers to some of the state's most interesting natural landscapes Each trip traces a driving route that connects preserved areas hiking trails scenic overlooks nature trails and other sites of interest **Phenology and Seasonality Modeling** H. Lieth, 2013-03-09 The pulse of life with the seasons is a classic theme of biology equally capturing every man's curiosity about early and late milestones of every year's cycle and the critical physiologist's inquiry into life's subtle signals and responses Natural historians of ancient and renaissance time as well as today have charted the commonsense facts behind inspired traditions of poetry and practical rules for growing food and fiber This volume brings together several ways of organizing the basic principles of phenology These find order in the otherwise overwhelming mass of detail that captures our fleeting attention like the daily newspaper and then tends to fade into the overstuffed archives of history Is this order so obvious and understandable that there is no longer any scientific challenge to phenology as a tradition Or does apparent simplicity mask a complex and ultimately baffling obstacle to the understanding of seasonality in even those few indicator plants and animals we know best not to mention the less known species or races making up the rest of each major landscape unit or ecosystem Denying both these hasty opinions we think that this volume well illustrates a range of questions and answers from soundly established but not trivial doctrine to exciting inquiry about how ecosystems are organized **Adventures in the Woods** Charlotte Orr Gantz, 2005-04 Some people who go into the woods expect to see animals fighting or catching prey females nursing their young The truth is our woods are quiet places but take a little time and patience and you will discover an absorbing world full of myriad small happenings In *Adventures in the Woods* Charlotte Gantz takes youngsters by the hand and leads them on an adventure through the Weymouth Woods Sandhills Nature Preserve and the Carolina Sandhills National Wildlife Refuge among others favorite destinations for
