**Macroeconomic Challenges of Scaling Up Aid to Africa** Yongzheng Yang,Mr.Robert Powell,Mr.Sanjeev Gupta,2006-03-20 Over the next decade African countries are expected to be the largest beneficiaries of increased donor aid which is intended to improve their prospects for achieving the Millennium Development Goals This

handbook will help these countries assess the macroeconomic implications of increased aid and respond to the associated policy challenges. The handbook is directed at policymakers practicing economists in African countries and the staffs of international financial institutions and donor agencies who participate in preparing medium term strategies for African countries including in the context of poverty reduction strategy papers. It provides five main guidelines for developing scaling up scenarios to help countries identify important policy issues involved in using higher aid flows effectively to absorb as much aid as possible to boost growth in the short to medium term to promote good governance and reduce corruption to prepare an exit strategy should aid levels decrease and to regularly reassess the policy mix.

Population Growth and Policies in Sub-Saharan Africa, 1986. For sub-Saharan Africa the need for reductions in population growth rates is a critical component in achieving greater economic development and higher standards of living. Correspondingly the present report focuses on the economic consequences of rapid population growth in Africa and on policies and programs to reduce it. The report basically has three themes. The first theme centers on the deep concern that rapid population growth in Africa is slowing development and sharply reducing the possibility of raising living standards. The second theme revolves around the recent evidence of the change in ideas and behavior regarding fertility. With more and more governments expressing concern over the issue the idea of family planning is gaining acceptance. Finally the last theme concerns the involvement of Governments in the development of population policy and programmes. If progress in population policy is to be rapid and programs are to expand steadily some strategic reorientation of the direction and nature of government involvement is needed. Slowing population growth in the next few decades as part of broader development strategies can help to relieve poverty and raise living standards for Africa's people.

The Oxford Handbook of Africa and Economics Célestin Monga, Justin Yifu Lin, 2015-07-02. A popular myth about the travails of Africa holds that the continent's long history of poor economic performance reflects the inability of its leaders and policymakers to fulfill the long list of preconditions to be met before sustained growth can be achieved. These conditions are said to vary from the necessary quantity and quality of physical and human capital to the appropriate institutions and business environments. While intellectually charming and often elegantly formulated that conventional wisdom is actually contradicted by historical evidence and common sense. It also suggests a form of intellectual mimicry that posits a unique path to prosperity for all countries regardless of their level of development and economic structure. In fact the argument underlining that reasoning is tautological and the policy prescriptions derived from it are fatally teleological. Low income countries are by definition those where such ingredients are missing. None of today's high income countries started its growth process with the required and complete list of growth ingredients. Unless one truly believes that the continent of Africa and most developing countries are ruled predominantly if not exclusively by plutocrats with a high propensity for sadomasochism the conventional view must be re-examined, debated and questioned. This volume the second of the *Oxford Handbook of Africa and Economics* reassesses the economic policies

and practices observed across the continent since independence It offers a collection of analyses by some of the leading economists and development thinkers of our time and reflects a wide range of perspectives and viewpoints Africa's emergence as a potential economic powerhouse in the years and decades ahead amply justifies the scope and ambition of the book *Development Policies of Central and Eastern European States* Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13

The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics IR and development studies The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors The journey from recipients of aid to aid donors is interesting because not only does it tell us about development policy in CEE states this policy area gives us an insight into governmental structures in CEE states foreign policy priorities public opinion the role of NGOs civil society and how well CEE states have taken on board the EU acquis the EU's rule book The book also explores whether the development cooperation programmes of the majority of CEESs reflect the so called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism It also explores the extent to which these donors are aligned with the approaches of the DAC donors Finally by extending the scrutiny to the bottom up development activities of non state actors and public opinion the book will analyse the dynamics of the solidarity of the former East with the global South This book was published as a special issue of *Perspectives on European Politics and Society*

**Foreign Assistance and Related Programs Appropriations for 1984** United States. Congress. House. Committee on Appropriations.

Subcommittee on Foreign Operations and Related Programs, 1983 *Routledge Handbook of Public Policy in Africa* Gedion Onyango, 2021-12-30 This Handbook provides an authoritative and foundational disciplinary overview of African Public Policy and a comprehensive examination of the practicalities of policy analysis policymaking processes implementation and administration in Africa today The book assembles a multidisciplinary team of distinguished and upcoming Africanist scholars practitioners researchers and policy experts working inside and outside Africa to analyse the historical and emerging policy issues in 21st century Africa While mostly attentive to comparative public policy in Africa this book attempts to address some of the following pertinent questions How can public policy be understood and taught in Africa How does policymaking occur in unstable political contexts or in states under pressure Has the democratisation of governing systems improved policy processes in Africa How have recent transformations such as technological proliferation in Africa impacted public policy processes What are the underlying challenges and potential policy paths for Africa going forward The contributions examine an interplay of prevailing institutional political structural challenges and opportunities for policy effectiveness to discern striking commonalities and trajectories across different African states This is a valuable resource for practitioners politicians researchers university students and academics interested in studying and understanding how African countries are governed

**West Africa**, 1996-04 **China's Aid, Trade and Investment to Africa** Wang Xinying, 2022-09-30 Adopting perspectives from development economics and international relations, this book researches the ongoing cooperation between China and African countries and the interactive system of China's aid, trade and investment to and with Africa. In reviewing the history and development of China-Africa relations from the founding of the People's Republic to the new century, this book analyses the achievements, opportunities and challenges of the bilateral relationship and reflects on the public-private partnership model in the context of international development assistance. Coupled with experiences from the United States, Japan and the EU in the field of foreign aid, trade and investment as well as case studies from China, the core chapters delve into China-Africa cooperation in terms of aid, trade and investment and proposes to build an interactive and coordinated mechanism of China's aid, trade and investment in Africa. The author argues that China-Africa cooperation goes beyond reciprocal benefits, offering a possible model for South-South Cooperation and a potential model for balanced and sustainable development within the world economy. This book will appeal to researchers, students and policy makers interested in Chinese politics and foreign policy, African politics, international relations, international diplomacy and the world economy. **African Economic Outlook 2009 Overview** OECD, African Development Bank, United Nations Economic Commission for Africa, 2009-07-13 The African Economic Outlook 2009 reviews the recent economic situation and predicts the short-term evolution of 47 African countries. It also includes a comparative synthesis of African prospects.

**Canadian Foreign Policy in Africa** Edward Ansah Akuffo, 2016-04-15 After over fifty years of Canadian engagement with Africa, no comprehensive literature exists on Canada's security policy in Africa and relations towards Africa's regional organizations. The literature on Canada's foreign policy in Africa to date has largely focused on development assistance. For the first time, Edward Akuffo combines historical and contemporary material on Canada's development and security policy while analyzing the linkage between these sets of foreign policy practices on the African continent. The book makes an important contribution to the debate on Canada's foreign policy generally and on Africa's approach to peace, security and development while shedding light on a new theoretical lens: non-imperial internationalism to understand Canada's foreign policy. The author captures an emerging trend of cooperation on peace, security and development between the Canadian government and African regional organizations in the twenty-first century. The resulting book is a valuable addition to the literature on African politics, new regionalisms, foreign policy, global governance and international development studies.

**Development in Sub-Saharan Africa** Ecoregional Program for the Humid and SubHumid Tropics of Sub-Saharan Africa. Scientific Workshop, 2003      **Effects of Macroeconomic Stability on Growth, Savings, and Investment in**

**Sub-Saharan Africa** Mr. Dhaneshwar Ghura, Mr. Michael T. Hadjimichael, Mr. Martin Mühleisen, Mr. Roger Nord, E. Murat Ucer, 1994-08-01 The analysis of this paper indicates that the unsatisfactory overall economic performance of sub-Saharan African countries during 1986-93 was due to inappropriate policies pursued by a number of countries. The countries that have pursued broadly appropriate adjustment policies have performed much better, achieving positive per capita GDP growth. The analysis is supported with an econometric investigation of the effects of macroeconomic policies, structural reforms, and exogenous factors on economic performance. The results indicate that progress in achieving macroeconomic stability and implementing structural reforms have been conducive to better growth, savings, and private investment.      **Assessment of**

**Poverty Reduction Strategies in Sub-Saharan Africa**, 2009 Provides a comparative analysis of the approaches and strategies adopted in the respective Poverty Reduction Strategy Papers (PRSPs). Includes information on workshops held on the issue.      The Oxford Companion to the Economics of Africa Ernest Aryeetey, 2012-01-19 This compendium of entries provides thematic and country perspectives to create a picture of the concerns of modern economics in Africa with contributions from more than 100 leading economic analysts of Africa.      **The Moral Economy of EU Association with Africa** Mark

Langan, 2015-08-27 Africa's association with the European Union has long been hailed as a progressive model of North-South relations. European officials in particular have represented the Africa-EU partnership as a pro-poor enterprise in which trade interests are married to development prerogatives. Applying a moral economy perspective, this book examines the tangible impact of Africa-Europe trade and development co-operation on citizens in developing countries. In so doing, it challenges liberal accounts of Europe's normative power to enable benevolent change in the Global South and illuminates how EU discourse acts to legitimise unequal trade ties that have regressive consequences for the poor. Drawing upon the author's own fieldwork, it assesses the difference between norms and the actual impact of EU concessions in relation to budget support aid for trade, private sector development, PSD, decent work. It concludes by considering the value of a moral economy approach in the assessment of free trade structures more widely. This text will be of key interest to scholars and students of Africanist IPE, European studies, and more broadly international political economy, international development, and international relations.
