*Agile Processes in Software Engineering and Extreme Programming* Pekka Abrahamsson, Richard Baskerville, Kieran Conboy, Brian Fitzgerald, Lorraine Morgan, Xiaofeng Wang, 2008-06-10 The XP conference series established in 2000 was the first conference dedicated to agile processes in software engineering The idea of the conference is to offer a unique setting for advancing the state of the art in the research and practice of agile processes This year s conference was the ninth consecutive edition of this international event The conference has grown to be the largest conference on agile software development outside North America The XP conference enjoys being one of those conferences that truly brings practitioners and academics together About 70% of XP participants come from industry and the number of academics has grown steadily over the years XP is more of an experience rather than a regular conference It offers several different ways to interact and strives to create a truly collaborative environment where new ideas and exciting findings can be presented and shared For example this year s open space session which was a conference within a conference was larger than ever before Agile software development is a unique phenomenon from several perspectives

**Extreme Programming and Agile Processes in Software Engineering** Jutta Eckstein, Hubert Baumeister, 2004-06-01 Software development is being revolutionized The heavy weight processes of the 1980s and 1990s are being replaced by light weight so called agile processes Agile processes move the focus of software development back to what really matters running software This is only made possible by accepting that software development is a creative job done by and for individual human beings For this reason agile software development encourages interaction communication and fun This was the focus of the Fifth International Conference on Extreme Programming and Agile Processes in Software Engineering which took place between June 6 and June 10 2004 at the conference center in Garmisch Partenkirchen at the foot of the Bavarian Alps near Munich Germany In this way the conference provided a unique forum for industry and academic professionals to discuss their needs and ideas for incorporating Extreme Programming and Agile Methodologies into their professional life under consideration of the human factor We celebrated this

year's conference by reflecting on what we had achieved in the last half decade and we also focused on the challenges we will face in the near future
