The Sexual Paradox Susan Pinker, 2010-01-11 After four decades of eradicating gender barriers at work and in public life why do men still dominate business politics and the most highly paid jobs Why do high achieving women opt out of successful careers Psychologist Susan Pinker explores the illuminating answers to these questions in her groundbreaking first book In *The Sexual Paradox* Susan Pinker takes a hard look at how fundamental sex differences continue to play out in the workplace By comparing the lives of fragile boys and promising girls Pinker turns several assumptions upside down that the sexes are biologically equivalent that smarts are all it takes to succeed that men and women have identical goals If most children with problems are boys then why do many of them as adults overcome early obstacles while rafts of competent even gifted women choose jobs that pay less or decide to opt out at pivotal moments in their careers Weaving interviews with men and women into the most recent discoveries in psychology neuroscience and economics Pinker walks the reader through these minefields Are men the more fragile sex Which sex is the happiest at work What does neuroscience tell us about ambition Why do some male school drop outs earn more than the bright motivated girls who sat beside them in third grade Pinker argues that men and women are not clones and that gender discrimination is just one part of the persistent gender gap A work world that is satisfying to us all will recognize sex differences not ignore them or insist that we all be the same

Politics and Pitfalls of Japan Ethnography Jennifer Robertson, 2013-10-18 Four anthropologists Elise Edwards Ann Elise Lewallen Bridget Love and Tomomi Yamaguchi draw on their fieldwork experiences in Japan to demonstrate collectively the inadequacy of both the Code of Ethics developed by the American Anthropological Association AAA and the dictates of Institutional Review Boards IRB when dealing with messy human realities The four candidly and critically explore the existential dilemmas they were forced to confront with respect to this inadequacy for the AAA's code and IRBs consider neither the vulnerability and powerlessness of ethnographers nor the wholly unethical and even criminal deportment of some informants As Jennifer Robertson points out in her Introduction whereas the AAA's Code tends to perpetuate the stereotype of more advantaged fieldworkers studying less advantaged peoples IRBs appear to protect their home institutions from possible litigation rather than living and breathing people whose lives are often ethically compromised irrespective of the presence of an ethnographer In her commentary Sabine Fr hst ck who incurred ample experience with ethical dilemmas in the course of her pathbreaking ethnographic research on Japan's Self Defense Forces situates the four articles in a broader theoretical context and emphasizes the link between political engagement and ethnographic accuracy This book was previously published as a special issue of Critical Asian Studies

Lovesick Japan Mark D. West, 2011-08-15 In Lovesick Japan Mark D West explores an official vision of love sex and marriage in contemporary Japan A comprehensive body of evidence 2 700 court opinions describes a society characterized by a presupposed absence of physical and emotional intimacy affection and personal connections In compelling poignant and sometimes horrifying court cases West finds that Japanese judges frequently opine on whether a person is in love what other emotions a person is feeling and whether those emotions are appropriate for the situation Sometimes judges' views about love sex and marriage emerge from their presentation of the facts of cases Among the recurring elements are abortions forced by men compensated dating late life divorces termination

fees to end affairs sexless couples Valentine's Day heartbreak soapland bath brothels and home wrecking hostesses
 Sometimes the judges analysis decisions and commentary are as revealing as the facts Sex in the cases is a choice among
 private normal sex which is male dominated conservative dispassionate or nonexistent commercial sex which caters to every
 fetish but is said to lead to rape murder and general social depravity and a hybrid of the two which commodifies private
 sexual relationships Marriage is contractual judges express the ideal of love in marriage and proclaim its importance but
 virtually no one in the court cases achieves it Love usually appears as a tragic overwhelming emotion associated with
 jealousy suffering heartache and death *Everyday Pornography* Karen Boyle, 2010-09-13 Public and academic debate about
 porn culture is proliferating Ironically what is often lost in these debates is a sense of what is specific about pornography By
 focusing on pornography's mainstream contemporary commercial products for a heterosexual male audience *Everyday
 Pornography* offers the opportunity to reconsider what it is that makes pornography a specific form of industrial practice and
 genre of representation *Everyday Pornography* presents original work from scholars from a range of academic disciplines
 Media Studies Law Sociology Psychology Women's Studies Political Science introducing new methodologies and approaches
 whilst reflecting on the ongoing value of older approaches Among the topics explored are the porn industry's marketing
 practices spam emails reviews and online organisation commercial sex in Second Life the pornographic narratives of phone
 sex and amateur videos the content of best selling porn videos how the male consumer is addressed by pornography
 represented within the mainstream understood by academics and contained by legislation This collection places a particular
 emphasis on anti pornography feminism a movement which has been experiencing a revival since the mid 2000s Drawing on
 the experiences of activists alongside academics *Everyday Pornography* offers an opportunity to explore the intellectual and
 political challenges of anti pornography feminism and consider its relevance for contemporary academic debate *Genetic
 Control of Insect Pests* G Davidson, 2012-12-02 *Genetic Control of Insect Pests* focuses on laboratory and field trials of genetic
 control methods of insects which entails the use of insects to control themselves It particularly describes species specific and
 non polluting genetic methods that have the advantage over most other methods of being efficient when the target insect is
 in low density as the released insects have the capacity to search out the wild populations Composed of nine chapters the
 core parts of the book cover the mass rearing sterilization and release of populations in the hope that these will mate with
 wild populations leading to fertility reduction and population elimination The book also examines techniques that use
 naturally existing population incompatibilities and techniques which can result in population replacement rather than
 eradication with the intention to render such replacement populations harmless beforehand by genetic manipulation This
 book is a valuable source of information for those who are searching for biological alternatives of insect pests control

Sexual Behavior Nathaniel McConaghy, 2013-11-21 Many issues remain unresolved in sexuality In some cases this is
 because the information is not available to resolve them In others it is but the available conclusions the information supports

block its acceptance because they conflict with the positions of dominant groups in the politics of sexuality. Possibly the most obvious example is the determination of many theorists to ignore the evidence that while men rarely report being sexually assaulted when questioned in community surveys they make up a third of the victims and a quarter of the perpetrators of sexual assault are women. These findings are incompatible with the feminist theory that sexual assault is not a sexual act but normal male behavior motivated politically to maintain men's dominance of women. Most research supporting the theory investigated women only as victims and men only as aggressors. Some feminists have dismissed the need for any research to support their beliefs on the ground that such research is busy work establishing what women already know. One belief considered not to require research is that heterosexual pornography made for a male audience increases the prevalence of rape by encouraging rape supportive attitudes of male aggression and female submission. No criticism has been directed at the soft core pornography of Mills and Boon stories written for women that promote similar attitudes. **PC Mag**, 1998-08
