## **Faber Of Exploration:**

**The Faber Book of Exploration** Benedict Allen, 2002 What is an explorer What do Scott and Amundsen Stanley and Livingstone Burton and Speke Columbus and Cortes Lewis and Clark Captain Cook and Marco Polo have in common Benedict Allen s anthology of human exploration brings vividly to life what it feels like to walk off the edge of the known world to emerge dazed dying yet triumphant from the Amazon jungle to stand on the roof of the world Through the words of those who have set off into the unknown and returned to bring this unknown back to their people the places themselves seem to speak This volume ranges across various terrain hot and cold deserts mountains and plains jungles and high seas bringing together Vikings and missionaries conquistadors and botanists to name but a few among an array of unlikely travelling companions whose description of their experiences will help us to understand and appreciate what kind of attributes make a true explorer Ian Hamilton once observed The age of adventure is far from dead so long as people like Benedict Allen tread the earth Whatever you call him traveller modern day explorer or adventurer there is no doubting Benedict Allen s voracious appetite for exploration and as such he is our ideal guide across these extraordinary pages

**Encyclopedia of Human Geography** Barney Warf, 2006-05-16 Human geography in the last decade has undergone a conceptual and methodological renaissance that transformed it into one of the most dynamic and innovative of the social sciences Long a borrower of ideas from other disciplines geography has become a contributor in its own right and a spatial turn is evident in disciplines as diverse as Sociology Anthropology and Literary Criticism With more than 300 entries written by an international team of leading authorities in the field the Encyclopedia of Human Geography offers a comprehensive overview of the major ideas concepts terms and approaches that characterize a notoriously diverse field This multidisciplinary volume provides cross cultural coverage of human geography as it is understood in the contemporary world and takes into account the enormous conceptual changes that have evolved since the 1970s including a variety of social constructivist approaches Key Features Examines a range of themes characterizing different schools of thought and addresses long standing topics such as urban economic and medical geography as well as contemporary topics including feminism the social dimensions of GIS and the social construction of nature Explores many of the dualities that long characterized social science nature versus society the individual versus the social the historical versus the geographical consumption versus production and breaks them down using postmodern and poststructuralist approaches Illustrates how social and spatial structures draw upon people s daily lives which in turn structures their actions Looks at how globalization has manifested differently from place to place by discussing topics such as transnational capital international trade global commodity chains global cities international financial and telecommunications systems and how the global economy is reshaping geopolitics and governance Key Themes Cartography Geographical Information Systems Economic Geography Geographic Theory and History Political Geography Social Cultural Geography Urban Geography

*Arbitration and Renegotiation of International Investment Agreements: A Study with Particular Reference to Means of Conflict Avoidance Under Natural Resources Investment Agreements* Wolfgang Peter, Jean-Quentin de Kuyper, Bénédicte Candolle, 1995-06-08 This book is a second revised edition of the original 1986 publication Since then the issue of contract change has increasingly challenged the business community and legal practitioners The world wide recession may well have accelerated the need to secure contractual relationships by reasonable flexibility Successful foreign investment a relentless challenge is subject to many unpredictable errors Of all these variables however successful investment is most dependent on the investor host country relationship which is the object of the present study In particular the pressure by host countries for contract change and its counterpart the investor's defence of contract stability The book is essentially a reference handbook for legal practitioners It analyzes a variety of increasingly important questions concerning international investment agreements that come under pressure for change by one of the contracting parties either a transnational corporation or a host country government The seven case studies and the analytical chapters which follow are based on the author's research and the assistance of corporate and government officials experts from the United Nations and other organizations and members of academic research institutes

**The Geopolitics of Deep Oceans** John Hannigan, 2015-11-30 Long regarded as an empty and inhospitable environment the deep ocean is rapidly emerging as an ecological hot spot with a remarkable diversity of biological life Yet the world's oceans are currently on a dangerous trajectory of decline threatened by acidification oil and gas drilling overfishing and in the long term deep sea mining bioprospecting and geo engineering In The Geopolitics of Deep Oceans noted environmental sociologist John Hannigan examines the past present and future of our planet's final frontier The author argues that our understanding of the deep its definition boundaries value ownership health and future state depends on whether we see it first and foremost as a resource cornucopia a political chessboard a shared commons or a unique and threatened ecology He concludes by locating a new storyline that imagines the oceans as a canary in the mineshaft for gauging the impact of global climate change The Geopolitics of Deep Oceans is a unique introduction to the geography law politics and sociology of the sub surface ocean It will appeal to anyone seriously concerned about the present

state and future fate of the largest single habitat for life on our planet

### **Tracking the Franklin Expedition of 1845**

Stephen Zorn, 2023-08-29 The Franklin Northwest Passage Expedition of 1845 is perhaps the greatest disaster in the history of exploration all 129 men vanished as did the expedition's two ships HMS Erebus and Terror Over the next 150 years searchers found bones clothing and a variety of relics Inuit narratives provided some of the details of what happened to the frozen starving sailors after they deserted their ice locked ships in 1848 Then in 2014 and 2016 Canadian researchers found the sunken wrecks not far from the bleak windswept King William Island in the Arctic At last the mystery of the Franklin Expedition would be solved Or would it This book pulls together the various searchers discoveries the many recent scientific studies that shed light on when how and why the men died and whether in extremis they ate each other and illuminates what we know and what we don't and may never know about the fate of the expedition

### **Handbook of Research on International Collaboration, Economic Development, and Sustainability in the Arctic**

Erokhin, Vasili, Gao, Tianming, Zhang, Xiuhua, 2018-12-28 Global interest in the exploration of the Arctic has been growing rapidly As the Arctic becomes a global resource base and trade corridor between the continents it is crucial to identify the dangers that such a boom of extractive industries and transport routes may bring on the people and the environment The Handbook of Research on International Collaboration Economic Development and Sustainability in the Arctic discusses the perspectives and major challenges of the investment collaboration and development and commercial use of trade routes in the Arctic Featuring research on topics such as agricultural production environmental resources and investment collaboration this book is ideally designed for policymakers business leaders and environmental researchers seeking coverage on new practices and solutions in the sphere of achieving sustainability in economic exploration of the Arctic region

### **Current Research in Egyptology**

regional socio economic contexts and the interaction between people and local resources The editors of this volume are all PhD candidates at University College and King s College London      *Explorations in a Christian Theology of Pilgrimage* Craig Bartholomew, Fred Hughes, 2021-11-18 Many Christians go on pilgrimage whether to Jerusalem Rome Santiago or some other destination but few think hard about it from the perspective of their faith This book fills that gap looking at the biblical and theological elements in pilgrimage and asking how we could do pilgrimage differently Exploring the current resurgence of pilgrimage from a Christian viewpoint this book seeks to articulate a theology of pilgrimage for today Examination of pilgrimage in the Old and New Testaments provides a grounding for thinking through pilgrimage theologically Literary missiological and sociological perspectives are explored and the book concludes by examining how such a theology could change our practice of pilgrimage today raising such questions as how tourism to the Holy Land should reflect the situation in the region today Pilgrims students and all interested in contemporary pilgrimage will find this accessible book a valuable articulation of the different elements in a Christian theology of pilgrimage      *Exploring Polar Frontiers* William James Mills, 2003-12-11 Covers the entire history of Arctic and Antarctic exploration from the voyage of Pytheas ca 325 B C to the present in one convenient comprehensive reference resource Exploring Polar Frontiers A Historical Encyclopedia is the only reference work that provides a comprehensive history of polar exploration from the ancient period through the present day The author is a noted polar scholar and offers dramatic accounts of all major explorers and their expeditions together with separate exploration histories for specific islands regions and uncharted waters He presents a wealth of fascinating information under a variety of subject entries including methods of transport myths achievements and record breaking activities By approaching polar exploration biographically geographically and topically Mills reveals a number of intriguing connections between the various explorers their patrons and times and the process of discovery in all areas of the polar regions Furthermore he provides the reader with a clear understanding of the intellectual climate as well as the dominant social economic and political forces surrounding each expedition Readers will learn why the journeys were undertaken not just where when and how      *Bacterial Gas* Roland Vially, 1992      *Inventing the Middle East* Guillemette Crouzet, 2022-10-15 The Middle East has long been an indispensable and ubiquitous term in discussing world affairs yet its history remains curiously underexplored Few question the origin of the term or the boundaries of the region commonly understood to have emerged in the twentieth century after World War I Guillemette Crouzet offers a new account in *Inventing the Middle East* The book traces the idea of the Middle East to a century long British imperial zenith in the Indian subcontinent and its violent overspill into the Persian Gulf and its hinterlands Encroachment into the Gulf region began under the expansionist East India Company It was catalyzed by Napoleon s invasion of Egypt and heightened by gunboat attacks conducted in the name of pacifying Arab pirates Throughout the 1800s the British secured this crucial geopolitical arena transforming it into both a crossroads of land and sea and a borderland guarding British India s western flank

Establishing this informal imperial system involved a triangle of actors in London the subcontinent and the Gulf region itself By the nineteenth century s end amid renewed waves of inter imperial competition this nexus of British interests and narratives in the Gulf region would occasion the appearance of a new name the Middle East Charting the spatial political and cultural emergence of the Middle East Inventing the Middle East reveals the deep roots of the twentieth century s geographic upheavals
