Fabulous Cookies Hilaire Walden, 1999 The Vanishing World of My Chicago Childhood Charles Zucker, 2025-11-15 In the modern world we have invented ways of speeding up invention and people's lives change so fast that a person is born into one kind of world grows up in another and by the time his children are growing up lives in still a different world Margaret Mead People and Places Cleveland and New York The World Publishing Company 1959 The Vanishing World of My Chicago Childhood is a delightful memoir of growing up in Chicago in the 1950s but it is much more than that The author argues that childhood has changed dramatically over the last seventy years and not for the better Zucker and his neighborhood pals played games outside almost constantly when the weather permitted Sixteen inch softball basketball touch football marbles kick the can and yo yos were among their favorites They also constructed their own soapbox cars built miniature golf courses chased butterflies hunted snakes camped overnight in vacant lots and shot bows and arrows When bad weather forced the kids indoors they played a wide variety of board games listened to music and read books In contrast the author observes that children today often spend hours indoors playing electronic games on phones computers or TVs leaving them with little time for outdoor play The author notes however that the infotainment revolution and the roots of modern American childhood began when he was a kid In the 1950s American families began purchasing television sets en masse Although he admits that American families including his own enjoyed watching television he believes its arrival in American homes marked the beginning of a growing social isolation that has had profound consequences for both children and adults As a result the childhood and the world that Zucker experienced

growing up on the South Side of Chicago have largely vanished today
