Face Of The Earth Heart Of The Sky By Morales:

Historical Dictionary of Guatemala Michael F. Fry, 2018-02-20 Guatemala holds a dual image For more than a century travel writers explorers and movie producers have painted the country as an exotic place a land of tropical forests and the home of the ancient and living Maya Archaeological ruins abandoned a millennium ago have enhanced their depictions with a wistful dreamy aura of bygone days of pagan splendor and the unique colorful textiles of rural Maya today connect nostalgically with that distant past Inspired by that vision fascinated tourists have flocked there for the past six decades Most have not been disappointed it is a genuine facet of a complex land Guatemala is also portrayed as a poor violent repressive country ruled by greedy tyrants with the support of an entrenched elite the archetypal banana republic The media and scholarly studies consistently confirm that fair assessment of the social political and economic reality The Historical Dictionary of Guatemala contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Guatemala Human Rights, Inc.

Joseph R. Slaughter, 2009-08-25 In this timely study of the historical ideological and formal interdependencies of the novel and human rights Joseph Slaughter demonstrates that the twentieth century rise of world literature and international human rights law are related phenomena Slaughter argues that international law shares with the modern novel a particular conception of the human individual The Bildungsroman the novel of coming of age fills out this image offering a conceptual vocabulary a humanist social vision and a narrative grammar for what the Universal Declaration of Human Rights and early literary theorists both call the free and full development of the human personality Revising our received understanding of the relationship between law and literature Slaughter suggests that this narrative form has acted as a cultural surrogate for the weak executive authority of international law naturalizing the assumptions and conditions that make human rights appear commonsensical As a kind of novelistic correlative to human rights law the Bildungsroman has thus been doing some of the sociocultural work of enforcement that the law cannot do for itself This analysis of the cultural work of law and of the social work of literature challenges traditional Eurocentric histories of both international law and the dissemination of the novel Taking his point of departure in Goethe's Wilhelm Meister Slaughter focuses on recent postcolonial versions of the coming of age story to show how the promise of human rights becomes legible in narrative and how the novel and the law are complicit in contemporary projects of globalization in colonialism neoimperialism humanitarianism and the spread of multinational consumer capitalism Slaughter raises important practical and ethical questions that we must confront in advocating for human rights and reading world literature imperatives that today more than ever are intertwined *Latin America Writes Back* Emil Volek, 2013-10-28 Latin America has been an important basis for theorizing the postmodern condition and has been the site of some of the most significant contributions to postmodern literature However discourses about postmodernity

have overwhelmingly been constructed by European and American intellectuals This book is a groundbreaking collection of essays by Latin American scholars on the theories and practices of postmodernity It provides an important forum for Latin American intellectuals to shape the debates on postmodernity that are based to a large degree on their own cultural and political experiences Gathering together new and classic essays across a wide range of disciplines and perspectives this much needed collection allows some of Latin America's leading cultural critics to write back to their Euro American counterparts and join the international debate

the novelistic output of three salient figures Luis de León Gaspar Pedro González and Víctor Montejó. The works by these writers offer evidence that most native people have entered modernity without renouncing their respective cultures or the specifics of their singular identities. The philosophical ethics elaborated in the texts such as respect for nature and recognition of the holistic value of natural beings enable non-Indigenous readers to both understand and relate to these values. *Book Review Index*, 2003 Vols 8-10 of the 1965-1984 master cumulation constitute a title index. **Time**

Commences in Xibalbá Luis de León, 2012-11-01. *Time Commences in Xibalbá* tells the story of a violent village crisis in Guatemala sparked by the return of a prodigal son Pascual. He had been raised tough by a poor single mother in the village before going off with the military. When Pascual comes back he is changed both scarred and enlightened by his experiences. To his eyes the village has remained frozen in time.
