The Extraordinary in the Ordinary Donald A. Crosby, 2017-03-30 Explores miracles as dimensions of everyday existence through the lens of religious naturalism Miracles are usually regarded as an intrusion of a supernatural force upsetting the normal workings and laws of the universe but if one is attentive to the natural world one can instead find miracles beneath the surface of everyday existence This outlook is part of Donald A Crosby's religious naturalism which he terms Religion of Nature a belief system that posits the natural world to be the only world without any underlying or transcending supernatural being presence or power In *The Extraordinary in the Ordinary* Crosby explores seven types of everyday miracles such as time language and love to show that the miraculous and ordinary are not opposed to each other Rather it is when we acknowledge the sacred depths and dimensions of everyday existence that we recognize the miracles that constantly surround us

[Dark Mission](#) Richard C. Hoagland, Mike Bara, Michael Bara, 2009 For most people the word NASA suggests a squeaky clean image of technological infallibility Yet the truth is that NASA was born as a lie and has concealed the truth about its occult origins ever since Mystical organisations dominate NASA and carry out their own agendas behind the scenes Why was the Bush administration hell bent on returning to the moon Why is there a new space race with Russia China and even India Hoagland and Bara answer these questions and many more

Extraordinary Memories for Exceptional Events Stephen R. Schmidt, 2012-05-04 Not all memories are created equal Our memories for some very exceptional events seem to stand out in our minds and as such they may form the very core of who we are Perhaps you have a vivid recollection of a fateful day an unforgettable face or a hilarious joke This book summarizes theories and data that provide insight into these extraordinary memories for exceptional events The book begins with a classification scheme for exceptional events followed by a theoretical overview grounded in four metaphors of memory The classification scheme and theoretical perspectives are used to explore topics including flashbulb memories the influence

of emotion on memory the bizarre imagery effect the humor effect the serial position effect and the isolation effect The conclusion provides a framework for understanding these outstanding memories for exceptional events Lost Knowledge of the Ancients Glenn Kreisberg, 2010-08-13 Thinkers at the forefront in alternative theories on history the origins of civilization technology and consciousness With contributions by Graham Hancock Robert Bauval Mark Booth Richard Hoagland Robert Schoch John Anthony West and others Topics range from quantum philosophy and paranormal phenomena to the secret history of NASA instant polar shifts and ancient Martian civilizations Explores where our present time fits into the cycle of human existence A revolution of thought is under way in our world fostered by decades of research and well documented evidence by alternative theory pioneers such as Graham Hancock John Anthony West Robert Bauval and Robert Schoch These provocative cutting edge scholars now represent a direct challenge to the academic establishment as the paradigms of science and history shift and their ideas gain acceptance Representing the latest often controversial findings in scientific and historical research this anthology of essays commissioned by Graham Hancock bestselling author of Fingerprints of the Gods covers the forefront in alternative theories on history the origins of civilization technology and consciousness with topics ranging from quantum philosophy and paranormal phenomena to the ancient use of electromagnetism the effect of cosmic rays on human evolution and NASA's cover up of ancient Martian civilizations Recognizing that many recent discoveries are actually rediscoveries of lost knowledge from past civilizations these authors seek to understand where within the bigger picture of human knowledge our present time fits into the cycle of human existence **Basics of Physical Geography** Mr. Rohit Manglik, 2024-03-03 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **The Planets** Carol Ryback, 2005-12-15 Presents information about the planets of the solar system including what they are made of their size the length of their years and days and where they are in relation to one another **Pluto** Richard Grossinger, 2015 Encompassing astronomy mythology psychology and astrology Pluto offers a wealth of knowledge about our most famous dwarf planet First observed in 1930 and once defined as the ninth and final planet in our solar system Pluto and its discovery and reclassification throw a unique light on how we generate meaning in science and culture This anthology timed to appear in concordance with NASA's New Horizons's approach to Pluto in July 2015 shows that while the astronomical Pluto may be little more than an ordinary escaped moon or tiny Kuiper Belt object it is a powerful hyperobject for its mythological and cultural effigies on Earth incubate deep unconscious seeds of the human psyche Certain astronomical features pertain to Pluto in terms of its distance from the Sun coldness and barrenness These also inform its mythology and astrology as befitting a planet named after the God of the Underworld Among the issues central to this collection are the meanings of darkness loss grief inner transformation rebirth
