**Extraterrestrial Visitations from Prehistoric Times to the Present** Jacques Bergier, 1974-07-02     Extra-terrestrial Visitations from Prehistoric Times to the Present Jacques Bergier, 1973     *Extraterrestrial Visitations from Prehistoric Times to the Present* Jacques Bergier, 1973     *The Mammoth Encyclopedia of Extraterrestrial Encounters* Ronald Story, 2012-03-01

An illustrated A to Z guide to all things alien Over 400 entries from more than 100 contributors cover everything from the incidents and witnesses involved to the concepts at stake and experts personal position statements Entries range from alien abductions the Fantasy Prone hypothesis and JAL Flight no 1628 to the Lakenheath Bentwaters Episode mind control by aliens and Roswell The contributors include Isaac Asimov Jerome Clark Erich von Daniken Peter Davenport Hilary Evans Timothy Good Marvin Kottmeyer Jenny Randles Carl Sagan Whitley Streiber and Jacques Vallee There are over 300 images eyewitness drawings and photographs     Ancient Aliens: Extraterrestrial Visitations from Prehistoric Times to the Present Jacques Bergier, 1974-12-15

In *Ancient Aliens Extraterrestrial Visitations From Prehistoric Times to the Present* Jacques Bergier a French scholar states unequivocally that extraterrestrial intelligences have often interfered in human history And he proves it To a world titillated by Chariots of the Gods Jacques Bergier brings new documentation and insight Extending his observations from the era of the dinosaurs to modern times Bergier identifies and expands upon items that science has too readily dismissed as nonsense or explained quickly by categorization How did a whole race of prehistoric creatures the dinosaurs disappear Serious scholars today are advocating the theory that the dinosaurs were wiped out in a cosmos originated cataclysm And what about those mysterious and unexplained manmade items that are discovered during mining operations finally released after being locked in coal deposits eons old They are not the products of random organic phenomena They give evidence of being manufactured in years past by cultures perhaps alien to Earth And so it goes right into modern times One cannot simply discount all the sightings of UFOs even of strangers on the earth as 21st century man so cavalierly has done The pieces of evidence and the reputations of those who reported their experiences are too weighty to allow such unscientific reactions Extraterrestrial visitation is not a crackpot idea As we discover more about ourselves and our past and develop the technology that allows us to become space visitors ourselves it becomes increasingly certain that extraterrestrial visitation on Earth has been an ongoing phenomenon For his part Jacques Bergier provides more than clues to the effect he supplies incontrovertible evidence Jacques Bergier is a Fellow of the Royal Society of Arts and is the author of the international bestselling classic *The Morning of the Magicians*

**After the New Age** Steven H. Propp, 2008-12-16 Its 1976 and Janet Tanhurst is a teenager who feels stifled by life with her strict mother and the authoritarian church she must attend Once out of high school however Janet is initiated into a fascinating new world of Astrology Tarot cards and Spirit Mediums Next she encounters the mysterious world of UFOs a bewildering and sometimes frightening realm encompassing ancient astronauts alien abductions and shadowy government conspiracies As the 1980s arrive the Christian dominated

Piscean Age seems to be giving way to a long anticipated Aquarian Age with its hope for a coming revolution in higher consciousness. There are new paradigms in philosophy and science promoting a holographic conception of the universe as engaged in a Cosmic Dance along with the emergence of an introspective type of instrumental music known as New Age. With the help of bookstore owner Whisper Wynn Janet investigates subjects such as reincarnation, quartz crystals, chakras and the human aura in addition to an exciting new form of spiritual teaching called channeling. Following movement leaders including Shirley MacLaine and Marianne Williamson studying enigmatic teachers like G I Gurdjieff and Carlos Castaneda and inspired by medical doctors such as Deepak Chopra and Andrew Weil she learns about Alternative Medicine and Holistic Health as well as traditional health practices from China, Japan and India. She assimilates wisdom from the ancient Celts along with rituals from contemporary Goddess worshippers in formulating her own unique concept of the Divine that is within us all.

**The Cult of Alien Gods** Jason Colavito, 2010-03-05 Fans of fantasy horror writer H P Lovecraft must add *The Cult of Alien Gods* by H P Lovecraft and Extraterrestrial Pop Culture to their reading lists. California Bookwatch Combining literary theory, cultural criticism and muckraking Colavito aims to debunk alternative history. He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven't been immersed in the literature are likely to be bewildered or indifferent. The writing is engaging and the topic intriguing. Publishers Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history. Included among such popular beliefs is the notion that so called ancient astronauts, visitors from outer space, were responsible for historical wonders like the pyramids. In *The Cult of Alien Gods* author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone. In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890-1937. This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken's *Chariots of the Gods*, Graham Hancock's *Fingerprints of the Gods*, Zecharia Sitchin's *Twelfth Planet* and the Raelian Revolution. The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge. Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success. He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world. Jason Colavito is a freelance writer and editor who has written for *Skeptic* magazine among other publications.
