F 8 Crusader:

MiG Master, Second Edition Barrett Tillman, 2014-03-15 To be equally enjoyed by professional aviators and aviation buffs with limited technical knowledge this biography brings to life the legendary aircraft that scored the highest kill ratio of any U S fighter aircraft in the Vietnam War The book is filled with authentic re creations of Crusader MiG fights and vivid descriptions of the people and events that are part of the F 8 story including John Glenn s 1957 record breaking flight across the United States in three hours and twenty three minutes As the Navy s first supersonic aircraft the Crusader holds an honored spot in carrier flying and the author shows why it is called one of the most capable versatile and long lived aircraft in naval aviation history Barrett Tillman effectively combines an exciting account of the F 8 s operational history with a detailed and authoritative explanation of its design construction and modifications Tillman recalls the years of frustration and experimentation spent in refining the aircraft and its gunnery system and then takes the reader through key actions in Vietnam where seasoned pilots handled their rambunctious steeds with scarcely a glance in the cockpit Extensive appendixes provide further details

Hannah,2002 Annotation Tactical bombing Gen Jimmy Doolittle reportedly observed is breaking the milk bottle Strategic bombing is killing the cow Most nations have historically chosen between building tactical and strategic air forces rarely has a state given equal weight to both The advantages of tactical air power are obvious today as small wars and petty tyrants bedevil us but in a Cold War world split between continental superpowers strategic bombing took precedence with calamitous consequences In the 1960s the U S Air Force lacked the equipment and properly trained pilots to assure air superiority because the Tactical Air Command TAC had become little more than a handmaiden to the Strategic Air Command SAC TAC focused primarily on the interdiction of enemy bombers and virtually ignored its other responsibilities Its aircraft were designed to shoot at large lumbering bombers and not to engage in dog fights with highly maneuverable MiGs Hannah shows how a tactical air force that won a victory in World War II deteriorated into a second rate force flying aging aircraft during the early years of the Cold War recovered briefly over Korea then slid into obsolescence during the 1950s His explanation of why America s fighter aircraft did not work in Vietnam is instructive and unsettling Hannah explains how TAC struggled through the war in Vietnam to emerge in the 1970s as the best tactical air force in the world He side steps politics and inter service rivalries to focus on the nuts and bolts of tactical air power The result is a factual informative account of how an air force first loses its way then finds its mission again F-8 Crusader vs MiG-17 Peter Mersky,2014-11-20 Revered by Naval Aviators as the last of the gunfighters due to its quartet of Colt Browning Mk 12 20 mm cannon the F 8 Crusader

enjoyed great success against VPAF MiG 17s during the Rolling Thunder campaign of 1966-68. But the MiG 17's unequalled low speed manoeuvrability, small size and powerful cannon armament meant that the American forces didn't have it all their own way. This fully illustrated book featuring photographs, maps and battlescene artwork reveals the tactics that were developed by pilots on both sides to give themselves the edge in air-to-air dogfights, allowing the reader to understand how the differing design and development doctrines played a part in combat. F-8 Crusader Units of the Vietnam War Peter Mersky, 2012-11-20. An illustrated combat history of the last of the gunfighters due to its quartet of Colt Browning Mk 12 20 mm cannons. The F-8 Crusader was numerically the most populous fighter in the US Navy at the start of America's involvement in the Vietnam conflict in 1964; some 482 F-8C/Ds equipped 17 frontline units. It enjoyed great success against North Vietnamese Mig 17s and Mig 21s during the Rolling Thunder campaign of 1965-68, officially downing 18 jets which represented 53 per cent of all Mig claims lodged by Navy squadrons during this period. This book explores the history of this fighter and its pilots during the Vietnam War alongside an array of contemporary photographs. *Fast Movers* John Sherwood, 2001-02-21. Official navy historian John Sherwood offers an authoritative social history of the air war focused around fourteen of these aviators, from legends like Robin Olds, Steve Ritchie and John Nichols to lesser known but equally heroic fighters like Roger Lerseth and Ted Sienecki. The war in the skies above Vietnam still stands as the longest our nation has ever fought. For fourteen years American pilots dropped bombs on the Southeast Asian countryside, eventually more than eight million tons of them. In doing so they lost over 8,588 fixed wing aircraft and helicopters. They did not win the war. Ironically Vietnam, though one of our least popular wars, produced one of the most effective groups of warriors our nation has ever seen: men of dedication, professionalism and courage. Sherwood draws on nearly three hundred interviews to tell stories of great pilots and great planes in the words of the men themselves. Fliers recall jets such as McDonnell Douglas's famous F-4 Phantom, a Corvette with wings, the F-105 Thunderchief, the workhorse of the war, the F-8 Crusader, the last of the gun fighters, and the block-nosed but revolutionary A-10 Intruder with its fully computerized attack systems, terrain mapping radar and digital all-weather navigation system. *Fast Movers* offers fascinating portraits based on Sherwood's interviews and declassified naval archives of Vietnam's POWs. Pilots lucky enough to suffer only broken bones and burns from the violence of the 1960s era Martin Baker ejection seats struggled to find honorable ways to negotiate half-decade long periods in captivity. Passive resistance like Commander Jeremiah Denton's famous blinking of TORTURE in Morse Code was sometimes successful, often brutally reprised. Against all odds, the pilots spawned a culture of success in the midst of failure, frustration and devastation. *Fast Movers* captures a hidden and crucial story of America's least successful war. *Vought's F-8 Crusader* Steve Ginter, 1990-01-01.
