S. Eliot's Ariel Poems Anna Budziak, 2021-09-06 T S Eliot once stated that the supreme poet in writing himself writes his time In saying that he honoured Dante and Shakespeare but this pithy remark fittingly characterises his own work including The Ariel Poems with which he promptly and pointedly responded to the problems of his times Published with unwavering regularity a poem a year the Ariels were composed in the period when Eliot was mainly writing prose and like his prose they reverberated with diverse contemporary issues ranging from the revision of the Book of Common Prayer to the translations of Heidegger to the guestions of leadership and populism In order to highlight the poems historical specificity this study seeks to outline the constellations of thought connecting Eliot's poetry and prose In addition it attempts to expose the Ariels shared arc of meaning an unobtrusive incarnational metaphor determining the perspective from which they propose an unorthodox understanding of the epoch an underlying pattern of thought bringing them together into a conceptually discrete set This is the first study that both universalizes and historicises the series striving to disclose the regular without suppressing the random Approaching the series as a system of orderly disorder the notion very much at home with chaos theory it suggests new intellectual contexts offering interpretations that are either fresh or significantly reangled The American Catalogue, 1901 American national The American Catalog ,1891 Winter Adam Gopnik, 2011-08-24 The 2011 CBC Massey Lectures trade bibliography celebrates fifty years with bestselling author essayist cultural observer and famed New Yorker contributor Adam Gopnik whose subject is winter the season the space the cycle Gopnik takes us on an intimate tour of the artists poets composers writers explorers scientists and thinkers who helped shape a new and modern idea of winter Here we learn how a poem by William Cowper heralds the arrival of the middle class how snow science leads to existential questions of God and our place in the world how the race to the poles marks the human drive to imprint meaning on a blank space Gopnik's kaleidoscopic work ends in the present day when he traverses the underground city in Montreal pondering the future of Northern culture A
