Stern,1979-07-05 *Nietzsche* Wolfgang Müller-Lauter,1999 This is the first translation into English of a milestone in Nietzsche interpretation Wolfgang Müller-Lauter examines Nietzsche's doctrines of the will to power and the overman in light of Nietzsche's philosophy of real contradictions He shows that Nietzsche's vision of inherently contradictory wills to power is the source of irresolvable contradictions in his philosophy Müller-Lauter has remained at the forefront of German Nietzsche studies throughout the quarter century since this book first appeared This long awaited translation containing two substantial subsequent essays is a major addition to the English language Nietzsche literature Nietzsche, Wagner and the Philosophy of Pessimism

Roger Hollinrake,2010-11-01 Nietzsche's relationship with Wagner has long been a source of controversy and has given rise to a number of important studies including this major breakthrough in Nietzsche scholarship first published in 1982 In this work Hollinrake contends that the nature and extent of the anti Wagnerian pastiche and polemic in Thus Spoke Zarathustra is arguably the most important factor in the association between the two Thus Wagner as the purveyor of a particular brand of Schopenhauerian pessimism is here revealed as one of the principle sources and targets

of Zarathustra Whilst addressed primarily to students of German Literature this book will also be of interest to musicians philosophers and students of the history of culture and ideas **Nietzsche and German Philosophy** Otfried

Spărișu here explores the significance of the closely linked concepts of play and aestheticism in philosophical and scientific discourse since the end of the eighteenth century Spărișu points out that since its birth in archaic and classical Hellenic thought the concept of play has always been subject to the influences of various rational and prerational sets of values Spărișu maintains that there have been not one but two major modern concepts of aestheticism artistic aestheticism related to a prerational mentality and introduced in modern thought by Schopenhauer and Nietzsche and philosophical scientific aestheticism initiated by Kant and Schiller and shaped by rationalism According to Spărișu the first has often arisen in

response to the attempts of philosophy and science to impose their standards on art and the second has often been called on to deal with the epistemological crises that periodically shake these disciplines Spariosu also looks closely at some of the play concepts that surface in modern science in connection with the Darwinian theory of evolution and the play of scientific discourse itself as exemplified by the new physics and the contemporary philosophy of science A penetrating and cogently argued book Dionysus Reborn will be welcomed by readers interested in Continental philosophy scientific discourse and the aesthetics of play including literary theorists comparatists philosophers intellectual historians and social scientists *Franz Overbeck und Friedrich Nietzsche* Carl Albrecht Bernoulli,1908 *Encounters with Nineteenth-Century Continental Philosophy* ,2023-12-04 With figures such as Fichte Schelling Hegel Kierkegaard Feuerbach Marx Engels and Nietzsche the nineteenth century was a dynamic time of philosophical development The period made lasting contributions to several fields of philosophy Moreover it paved the way for the development of the social sciences at the turn of the twentieth century This volume is dedicated to exploring the rich tradition of nineteenth century Continental philosophy in its different areas with the main purpose of highlighting the importance of this tradition in the development of the leading streams of thought of the twentieth and twenty first century Grounding the Nietzsche Rhetoric of Earth Adrian Del Caro,2004 This treatment is the first to comprehensively address the issue of where Nietzsche stands in relation to environment and it will contribute to the greening of Nietzsche Using a philological method Del Caro reveals the ecumenical Nietzsche whose doctrines are strategies for responsible and creative partnership between humans and earth The major doctrines are shown to be organically related to early writings linked to paganism the quotidian and the closest things of Human All Too Human Perspective is shifted from time to place in the eternal recurrence of the same and from power to empowerment in The Will to Power *Children Philosophize Worldwide* Eva Marsal,Takara Dobashi,Barbara Weber,2009 Philosophizing for with and by children in a community of inquiry has proven to be an internationally successful learning strategy that enhances both the cognitive and emotional growth of children Pioneering democratic programs for philosophizing with children now exist throughout the world The work described in this book represents the latest research on theoretical concepts and applied projects within this field and brings together contributions from twenty nine countries representing all continents The authors address questions on the theoretical foundation of Philosophy for Children the application of philosophical methods the community of inquiry international and national didactical concepts as well as the evaluation of those concepts A primary goal of this book is to enhance intercultural academic exchange and to encourage further research and practical work in this field *Der Weg der Philosophie von den Anfängen bis ins 20.
