Friedrich Schleiermacher Between Enlightenment And Romanticism:

Friedrich Schleiermacher, 2005 Richard Crouter illustrates how Schleiermacher's work draws from both the Enlightenment and Romanticism. The book's three sections include illuminating sketches of Schleiermacher's relationship to contemporaries, his work as a public theologian, and the formation and impact of his two most famous books *On Religion* and *The Christian Faith*. **Romanticism and the Re-Invention of Modern Religion** Alexander J. B. Hampton, 2019-01-17

The fundamental concern of Romanticism, which brought about its inception, determined its development and set its end was the need to create a new language for religion. **Romantic Reformers and the Antislavery Struggle in the Civil War**

Era Ethan J. Kytle, 2014-08-11 *Romantic Reformers* is an intellectual history of the American antislavery movement in the 1850s and early 1860s. *Comparative Theology and the Problem of Religious Rivalry* Hugh Nicholson, 2011-04-08 In theological discourse, argues Hugh Nicholson, the political goes all the way down. One never reaches a bedrock level of politically neutral religious facts because all theological discourse, even the most sublime edifying and spiritual, is shot through with polemical elements. Liberal theologies from the Christian fulfillment theology of the nineteenth century to the pluralist theology of the twentieth have assumed that religious writings attain spiritual truth and sublimity despite any polemical elements they might contain. Through his analysis and comparison of the Christian mystical theologian Meister Eckhart and his Hindu counterpart, A. S. Nicholson arrives at a very different conclusion. Polemical elements may in fact constitute the creative source of the expressive power of religious discourses. Wayne Proudfoot has argued that mystical discourses embody a set of rules that repel any determinate understanding of the ineffable object or experience they purport to describe. In *Comparative Theology and the Problem of Religious Rivalry*, Nicholson suggests that this principle of negation is connected perhaps through a process of abstraction and sublimation with the need to distinguish oneself from one's intra and/or inter religious adversaries. Nicholson proposes a new model of comparative theology that recognizes and confronts one of the most urgent cultural and political issues of our time: namely, the return of the political in the form of anti-secular and fundamentalist movements around the world. This model acknowledges the ineradicable nature of an oppositional dimension of religious discourse while honoring and even advancing the liberal project of curtailing intolerance and prejudice in the sphere of religion. **Friedrich Schleiermacher's Philosophy of Religion** Stefan Lang, Klaus

Viertbauer, 2025-07-09 This volume provides a comprehensive account of Friedrich Schleiermacher's philosophy of religion. The contributors cover the historical context of Schleiermacher's work, specific aspects of his philosophy of religion, and the ways that his work can contribute to contemporary debates. Friedrich Schleiermacher is considered one of the outstanding representatives of 19th-century Protestant theology. This volume brings together scholars from both continental and analytic traditions to explore Schleiermacher's preeminent role in post-Kantian philosophy of religion. The chapters are divided into three thematic sections. The first section situates Schleiermacher in the context of the 18th and 19th-century philosophy of

religion These chapters analyze his relation to thinkers such as Kant Fichte Hegel Schelling and also to Kierkegaard and Heidegger as well as to prominent theologians in the Protestant and Catholic traditions The second section explores different aspects of Schleiermacher s philosophy of religion such as absolute dependence or religious feeling Finally the third section addresses how Schleiermacher s insights can contribute to contemporary philosophy of religion These chapters address current debates particularly on religious experience feminism and philosophy of emotions Friedrich Schleiermacher s Philosophy of Religion will be of interest to scholars and advanced students working in philosophy of religion history of philosophy and 19th century religious thought

The Pietist Impulse in Christianity G William Carlson,Christian T Collins Winn,Christopher Gehrz,Eric Holst,2012-10-25 Pietism is a reform movement originating among German Lutherans in the 17th century It focused on personal faith reacting against Lutheran Church s emphasis on doctrine and theology over Christian living The movement quickly expanded exerting an enormous influence on various forms of Christianity and became concerned with social and educational matters Indeed Pietists showed a strong interest in issues of social and ecclesial reform the nature of history and historical inquiry the shape and purpose of theology and theological education the missional task of the church and social justice and political engagement Though the movement remained largely misunderstood especially in Anglo American contexts negative stereotypes depicted Pietism as a quietist and sectarian form of religion merely concerned with the pious soul and its God The main proposal of the editors of this volume is to correct this misunderstanding assembling a deep collection of essays written by scholars from a variety of fields this work demonstrates that Pietism was a movement characterized by great depth and originality Besides they show the vitality and impulse of Pietism today and emphasize the ongoing relevance of the movement for contemporary problems and questions

The Theological Project of Modernism Kevin W. Hector, 2015-06-25 Modernism's theological project was an attempt to explain two things firstly how faith might enable persons to experience their lives as hanging together even in the face of disintegrating forces like injustice tragedy and luck and secondly how one could see such faith and so a life held together by it as self expressive Modern theologians such as Kant Schleiermacher Hegel Ritschl and Tillich thus offer accounts of how one's life would have to hang together such that one could identify with it of the oppositions which stand in the way of such hanging together of God as the one by whom oppositions are overcome such that one can have faith that one's life ultimately hangs together and of what such faith would have to be like in order for one to identify with it too So understood modern theology not only sheds light on faith's potential role in enabling persons to identify with their lives but stands in unexpected continuity with contemporary contextual theologies This book offers clear careful readings of modernism's key figures in order to explain their relevance to practical concerns and to contemporary understandings of faith

Feeling and Classical Philology Constanze Güthenke, 2020-03-05 Argues that German classical philology personified antiquity and imagined scholarship as an interpersonal relationship with it

Permanent Crisis Paul Reitter, Chad Wellmon, 2023-04-05 Any reader of the Chronicle of Higher Education can tell you that the humanities are in crisis Seen as irrelevant for modern careers and hopelessly devoid of funding humanistic disciplines seem at the mercy of modernizing forces driving the university towards academic pursuits that pull in grant money and direct students to lucrative careers But as Paul Reitter and Chad Wellmon show this crisis isn't new in fact it's as old as the humanities themselves Today's humanities scholars experience and react to basic pressures in ways that are strikingly similar to the response of their nineteenth century German counterparts In German universities of the 1800s as in those in the United States today humanities scholars felt threatened by the very processes that allowed the modern humanities to flourish such as institutional rationalization and the commodification of knowledge But Reitter and Wellmon also emphasize the constructive side of crisis discourse They claim that the self understanding of the modern humanities didn't merely take shape in response to a perceived crisis it also made crisis a core part of its project The humanities came into

their own by framing themselves as a unique resource for resolving crises of meaning and value that threatened other cultural or social goods With this critical historical perspective Permanent Crisiscan take humanists beyond the usual scolding exhorting and handwringing into clearer more effective thinking about the fate of the humanities Furthering ideas from Max Weber and Friedrich Nietzsche to Andrew Delbanco and William Deresiewicz Reitter and Wellmon dig into the notion of the humanities as a way to find meaning and coherence in the world **Embedded Grace** Kevin M. Vander Schel,2013-11-01 Scholars are now at work not only rethinking Schleiermachers relation to the modern and contemporary theological tradition but re examining the dogmatic intricacies and commitments within his texts Situated within this revisionist milieu the author takes up the important issue of the coordination of grace and history in Schleiermacher arguing for its significance in understanding the dynamics of Schleiermachers dogmatics and its grounding and realization in Christology **Theology as Performance** Philip Stoltzfus,2006-06-05 Theology as Performance breaks new ground in the growing conversation between modern theology and philosophical aesthetics Stoltzfus proposes that significant moments in the Western development of the concept of God in particular as represented in the figures of Friedrich Schleiermacher Karl Barth and Ludwig Wittgenstein have been deeply influenced by concepts and approaches borrowed from the discipline of musical aesthetics Each thinker develops fundamentally different ways of writing about God that have in significant respects been derived from each one s reading and writing about music The aesthetic implications of Schleiermacher s so called subjectivist turn Barth s objectivist reaction and Wittgenstein s language game pragmatism can thus be fully understood only by attending to the musical culture and distinctly musicological discourses that gave rise to them Stoltzfus constructs two trajectories of thought with which to trace theological reflection upon music throughout the pre modern period the traditions of Orpheus and Pythagoras Schleiermacher s aesthetic approach then becomes a modern representative of the Orpheus trajectory and Barth s approach a representative of the Pythagoras trajectory Stoltzfus interprets Wittgenstein as putting forward a radical critique of these trajectories and pointing toward a third performative theological aesthetic method Theology as Performance offers a provocative rethinking of the aesthetic roots of modern theology Volume 6, Tome II: Kierkegaard and His German Contemporaries - Theology Jon Stewart,2017-03-02 This volume explores in detail Kierkegaard s various relations to his German contemporaries Kierkegaard read German fluently and made extensive use of the writings of German speaking authors Apart from his contemporary Danish sources the German sources were probably the most important in the development of his thought generally This volume represents source work research dedicated to tracing Kierkegaard s readings and use of the various German speaking authors in the different fields in a way that is as clearly documented as possible The volume has been divided into three tomes reflecting Kierkegaard s main areas of interest with regard to the German speaking sources namely philosophy theology and a more loosely conceived category which has here been designated literature and aesthetics This second tome of the present volume is dedicated to Kierkegaard s main

theological influences In theology the German and the Danish traditions had long been closely connected via their common source Luther In Kierkegaard s time the main influence on theology was probably German philosophy and specifically Hegelianism Most of the German theologians were in some way in a critical dialogue with this movement Another important influence was Schleiermacher who visited Copenhagen in 1833 and was important for several Golden Age thinkers From his student days Kierkegaard kept abreast of the German theological literature from which he drew much inspiration

Mapping Modern Theology Kelly M. Kapic, Bruce L. McCormack, 2012-04-01 This textbook offers a fresh approach to modern theology by approaching the field thematically covering classic topics in Christian theology over the last two hundred years The editors leading authorities on the history of nineteenth and twentieth century theology have assembled a respected team of international scholars to offer substantive treatment of important doctrines and key debates in modern theology Contributors include Kevin Vanhoozer John Webster Veli Matti K rkk inen and Michael Horton The volume enables readers to trace how key doctrinal questions were discussed where the main debates lie and how ideas developed Topics covered include the Trinity divine attributes creation the atonement ethics practical theology and ecclesiology **Spaces of**

Modern Theology S. Jungkeit, 2016-01-23 As stories of borders territorial disputes and migration have escalated in recent years so too space has emerged as a critical concept in theoretical literature This book explores the imagination of space at the dawn of modern liberal theology in the writings of Friedrich Schleiermacher Schleiermacher wrote against the backdrop of expanding European colonialism and nationalism providing a powerful ethics of space for a rapidly shrinking planet Selectively appropriated Schleiermacher s spaces of modern theology can be a valuable contribution to contemporary attempts to theorize the importance of space and place in human geographies
