a life without rival **St. Nicholas** ,1920 *Edith Wharton's Women* Susan Goodman,1990 **Rebooting Global International Society** Trine Flockhart,Zachary Paikin,2023-01-01 This book asks if it is time to reboot the fundamental institutions of global international society The volume revisits Hedley Bull s seminal contribution The Anarchical Society by exploring the interconnected nature of change contestation and resilience for maintaining order in today s uncertain and complex environment The volume adds to Bull s theorizing by recognizing that order demands change that contestation should be welcomed and that resilience is anchored in local and agent led forms of ordering The contributors to Part One of the book focus on theoretical and conceptual issues related to order in the global international society whilst the contributors to Part Two of the book focus on the primary institutions as listed by Hedley Bull with the addition of a chapter on the market adding a distinctive commentary on new and important dynamics of change contestation and resilience of the existing institutions The Bartered Bride Mary Jo Putney,2006-05-30 After building a fortune in the exotic East American adventurer and merchant prince Gavin Elliott sets his sails for London to begin a new life Then fate intervenes on an infamous island in the East Indies where a European woman faces degradation and peril Though saving her may cost Gavin his life he cannot refuse to help the fierce beauty who touches his heart and soul with her indomitable spirit Alexandra Warren is returning home from Australia as a widow and mother when a pirate attack condemns her to a life of servitude A miracle arrives in the form of a steely eyed Yankee captain whose reckless courage wins them freedom and a safe passage home to London Intimate strangers joined by too many secrets they slowly begin to heal the past with attraction and tenderness until an old enemy reaches out to threaten the passionate love Gavin has found with his irresistible bartered bride From the Paperback edition **Identity and Leadership in Virtual Communities: Establishing Credibility and Influence** Hickey, Dona J.,2014-02-28 The presence and ubiquity of the internet continues to transform the way in which we identify ourselves and others both online and offline The development of virtual communities permits users to create an online identity to interact with and influence one another in ways that vary greatly from face to face interaction Identity and Leadership in Virtual Communities Establishing Credibility and Influence explores the notion of establishing an identity online managing it like a brand and using it with particular members of a community Bringing together a range of voices exemplifying how participants in online communities influence one another this book serves as an essential reference for academicians researchers students and professionals including bloggers software designers and entrepreneurs seeking to build and manage their engagement online **My Best Friend and the Royal Rivals** Sally Morgan,2021 Join two best friends as history is made in 1585 When Nell and Kat who work in rivalling courts meet by chance an unlikely friendship blossoms But tensions are high and the rivalry between Elizabeth I and Mary Queen of Scots is at breaking point Can Nell and Kat keep their friendship alive and trust one another even when so many of those around them are losing their heads Packed with fascinating historical details Filled with fantastic black and white line illustrations throughout a first chapter

book for children setting off on their reading journey **Friends and Rivals. A story of St. Timothy's, etc** Arthur Stanwood PIER, 1925 Mobile Processing in Distributed and Open Environments Peter Sapaty, 1999-02-22 This book provides a comprehensive introduction to WAVE a revolutionary technology that combines the power and flexibility of conventional sequential programming with the open fully distributed architectures found in the most sophisticated CORBA based systems Developed by Peter Sapaty a noted pioneer in the use of intelligent agents in open and distributed computing more than a decade before Java WAVE was designed specifically for use in large scale distributed information systems In Mobile Processing in Distributed and Open Environments Sapaty provides a complete hands on tutorial in the WAVE programming language and its applications Rather than simply describe the language and its features he supplies a vast collection of WAVE algorithms fully explained with working examples and application suggestions He also supplies expert advice and guidance on designing developing and managing agent systems Crucial topics covered include Managing information networks Designing and managing communication networks Performing distributed simulation and virtual reality with WAVE Building and managing intelligent infrastructures for distributed systems Using WAVE in conventional programming **Other Others** Sergey Dolgopolski, 2018-06-05 Denying recognition or even existence to certain others while still tolerating diversity stabilizes a political order or does it Revisiting this classical question of political theory the book turns to the Talmud That late ancient body of text and thought displays a new concept of the political and thus a new take on the question of excluded others Philosophy and theology driven approaches to the concept of the political have tacitly elided a concept of the political which the Talmud displays yet that elision becomes noticeable only by a methodical rereading of the pages of the Talmud through and despite the lens of contemporary competing theological and philosophical theories of the political The book commits such rereading of the Talmud which at the same time is a reconsideration of contemporary political theory In that way The Political intervenes both to the study of the Talmud and Jewish Thought in its aftermath and to political theory in general The question of the political for the excluded others or for those who programmatically do not claim any original belonging to a particular territory comes at the forefront of analysis in the book Other Others approaches this question by moving from a modern political figure of Jew as such an other other to the late ancient texts of the Talmud The pages of the Talmud emerge in the book as a disappearing display of the interpersonal rather than intersubjective political The argument in the book arrives at the end to a demand to think earth anew now beyond the notions of territory land nationalism or internationalism or even beyond the notion of universe that have defined the thinking of earth so far **The Making of Lebanese Foreign Policy** Henrietta Wilkins, 2013-05-29 Seeking to explain Lebanon's behavior in the international arena during the 2006 war between Hezbollah and Israel this book offers a critique of both systemic and sub state factors in determining foreign policy decisions The Making of Lebanese Foreign Policy illustrates how systemic theories are limited in terms of explaining foreign policy decisions because they largely ignore the

role of internal or sub state factors Within Lebanon foreign policy is split between the interests of different internal Lebanese groups working in alliance with external actors The competing interests of these internal groups compromise the cohesion of the Lebanese state and its capacity to promote its own interests above those of the different internal groups The example of Lebanon during the 2006 war thus demonstrates the importance of these sub state factors in influencing state behaviour on an international level Arguing that a more pluralistic approach is necessary in order to understand the conditions that affect the foreign policy making of the Lebanese state this book fills an important gap in the literature on the topic and will be of interest to students of International Relations Middle East Studies and Islamic Studies amongst others

Researching Power, Elites and Leadership Christopher Williams, 2012-05-18 This exciting new text consolidates the hows and whys of researching powerful people Written by a leading authority in the field this book introduces the reader to a significant area of methodology and provides a research based contribution to elite and leadership studies It offers a truly international perspective that will appeal to those studying and engaging with powerful people in a variety of contexts Useful features include A variety of case studies and examples linked to over 1000 sources and resources Extensive use of figures throughout the text to illustrate key points Templates and models for planning and presentations The book promotes a practical future oriented approach to support and inspire academic professional and civil society researchers at all levels It introduces new research frameworks and facilitates critical techniques through Critical Process Analysis This is a must have resource and an excellent new addition to the field of elite and leadership studies
