A continuation of Hanes Walton Jr s work on Southern Democratic presidents Remaking the Democratic Party analyzes the congressional and presidential elections of Lyndon Baines Johnson This study builds upon the general theory of the native son phenomenon to demonstrate that a Southern native son can win the presidency without the localism evident in the elections of Bill Clinton and Jimmy Carter Although ridiculed by contemporaries for his apparent lack of control over formal party politics and the national committee Johnson excelled at leading the Democratic Party s policy agenda While a senator and as president Johnson advocated for and secured liberal social welfare and civil rights legislation forcing the party to break with its Southern tradition of elitism conservatism and white supremacy In a way Johnson set the terms for the continuing partisan battle because by countering the Democrats new ideology the Republican Party also underwent a transformation      **Basics of Latin** Derek Cooper,2020-09-08 Basics of Latin A Grammar with Readings and Exercises from the Christian Tradition by Derek Cooper introduces students independent learners and homeschoolers to the basics of Latin grammar with all readings and exercises taken from texts in the Christian tradition As part of the widely used Zondervan Language Basics series of resources Cooper s Latin grammar is a student friendly introduction It helps students learn by Minimizing technical jargon Providing only the information needed to learn the basics Breaking the grammar of language down into manageable and intuitive chunks Illustrating the grammar in question by its use in rich selections from ancient Christian authors Providing grammar readings exercises and a lexicon all in one convenient volume Basics of Latin provides an ideal first step into this important language and focuses on getting the student into texts and translation as quickly as possible

Parish Communities and Religious Conflict in the Vale of Gloucester, 1590-1690 Daniel C. Beaver,1998-11-25 Many historians have attempted to understand the violent religious conflicts of the seventeenth century from viewpoints dominated by concepts of class gender and demography But few studies have explored the cultural process whereby religious symbolism created social cohesion and political allegiance This book examines religious conflict in the parish communities of early modern England using an interdisciplinary approach that includes all these perspectives Daniel Beaver studies the urban parish of Tewkesbury and six rural parishes in its hinterland over a period of one hundred years drawing on local ecclesiastical court records sermons parish records corporate minutes and charity books and probate documents He discusses the centrality of religious symbols and ceremonies in the ordering of local societies particularly in local conceptions of place personal identity and the life cycle Four phases in the transformation of parish communities emerge and are examined in this book This exploration of the interrelationship of religion politics and society and the transformation of local communities in civil war has a value beyond the particular history of early modern England contributing to a broader understanding of religious revivals fundamentalisms and the persistent link between religion nationalism and ethnic identity in the modern world      *Population Change in Southeast Asia* Wilfredo F.
