perspectives are put forward from media human geography cultural studies technologies urban design and architecture etc and looked at thematically from networked culture and digital interface and other perspectives The book probes the ways in which new digital media trends affect how and what we communicate and how they drive and reshape our everyday practices This mediatization of space with fast evolving communication platforms and applications of digital representations offers challenges to our notions of space identity and culture and the book explores the diverse yet connected levels of technology and people interaction **Worship Any Time or Place** Nelson Cowan,2024-01-02 Be prepared at a moment s notice This book equips the Methodist pastor worship leader or layperson to create meaningful worship moments for any group of people any time any place It includes liturgies and prayers suitable for traditional settings such as worship services funeral services and administration of the sacraments It includes words to use during hospital visits retreats church meetings and other conventional settings It provides words of blessing for departing members It also provides language for other spaces and places like home blessings blessings for foster care families words for times of transition liturgies for fresh expressions of the church prayers before the beginning of work language for protests and vigils ritual moments for difficult conversations and prayers for interreligious and ecumenical events It offers words of lament to use after violent events and natural disasters From pulpits to pews from altar tables to dinner tables from sanctuaries to streets the Compact Guide can be used by all ministers clergy and laity to employ worshipful words as the Spirit leads Mobility and Locative Media Adriana de Souza e Silva,Mimi Sheller,2014-08-07 Mobilities has become an important framework to understand and analyze contemporary social spatial economic and political practices Especially as mobile media become seamlessly integrated into transportation networks navigating urban spaces and connecting with social networks while on the move researchers need new approaches and methods to bring together mobilities with mobile communication and locative media Mobile communication scholars have focused on cell phones often ignoring broader connections to urban spaces geography and locational media As a result they emphasized virtual mobility and personalized communication as a way of disconnecting from place location and publics The growing pervasiveness of location aware technology urges us to rethink the intersection among location mobile technologies and mobility Few studies have addressed the many transformations taking place in mobile sociality and in urban spatial processes through the appropriation of these technologies Chapter 12 of this book is freely available as a downloadable Open Access PDF at http www taylorfrancis com under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3 0 license **Mobile Media Practices, Presence and Politics** Kathleen M. Cumiskey,Larissa Hjorth,2013-08-29 As an example of convergence the mobile phone especially in the form of smartphone is now ushering in new promises of seamlessness between engagement with technology and everyday common experiences This seamlessness is not only about how one transitions between the worlds of the device and the physical environment but it also captures the transition and convergences between devices as well i e laptop to smartphone smartphone to tablet This volume argues

however that these transitions are far from seamless We see divisions between online and offline virtual and actual here and there taking on different cartographies emergent forms of seams It is these seams that this volume acknowledges challenges and explores socially culturally technologically and historically as we move to a deeper understanding of the role and impact of mobile communication s saturation throughout the world **Knowledge Science, Engineering and Management** Gang Li,Heng Tao Shen,Ye Yuan,Xiaoyang Wang,Huawen Liu,Xiang Zhao,2020-08-20 This two volume set of LNAI 12274 and LNAI 12275 constitutes the refereed proceedings of the 13th International Conference on Knowledge Science Engineering and Management KSEM 2020 held in Hangzhou China in August 2020 The 58 revised full papers and 27 short papers were carefully reviewed and selected from 291 submissions The papers of the first volume are organized in the following topical sections knowledge graph knowledge representation knowledge management for education knowledge based systems and data processing and mining The papers of the second volume are organized in the following topical sections machine learning recommendation algorithms and systems social knowledge analysis and management text mining and document analysis and deep learning The conference was held virtually due to the COVID 19 pandemic   A visit to my birth-place, by the author of 'Early recollections'.
