History of civilizations of Central Asia Adle, Chahryar, UNESCO, 2005-10-03 This major six volume project co published with Macmillan covers the historical experience of the peoples and societies of the Caribbean region from the earliest times to the present day The sixth volume brings this series to an end as it takes in the whole of the modern period from colonial conquest and domination to decolonization the Cold War from start to finish the disintegration of the Soviet Union and the renewed instability in certain areas Not only did the colonial regimes lay a new patina over the region but nationalism remoulded all old identities into a series of new ones That process of the twentieth century was perhaps the most transformative of all after the colonial subjugation of the nineteenth While it has been the basis of remarkable stability in vast stretches of the region it has been a fertile source of tension and even wars in other parts The impact and the results of such changes have been astonishingly variable despite the proximity of these states to each other and their being subject to or driven by virtually the same compulsions

The Cold War in South Asia Paul M. McGarr, 2013-08-01 The Cold War in South Asia provides the first comprehensive and transnational history of Anglo American relations with South Asia during a seminal period in the history of the Indian Subcontinent between independence in the late 1940s and the height of the Cold War in the late 1960s Drawing upon significant new evidence from British American Indian and Eastern bloc archives the book re examines how and why the Cold War in South Asia evolved in the way that it did at a time when the national leaderships geopolitical outlooks and

regional aspirations of India Pakistan and their superpower suitors were in a state of considerable flux The book probes the factors which encouraged the governments of Britain and the United States to work so closely together in South Asia during the two decades after independence and suggests what benefits if any Anglo American intervention in South Asia s affairs delivered and to whom **The Myth of Decolonization and the Global South** Ahmed W. Waheed,2025-09-26 In recent years scholars of International Relations have increasingly turned their attention to the question of how to decolonize knowledge While emerging debates and initiatives mark a critical step toward exposing the discipline s embedded power structures there remains a striking lack of systematic empirical research into how these asymmetries are reproduced and experienced within the Global South itself This book explores the coloniality of power and knowledge in Pakistan through an examination of Pakistani International Relations It not only unveils the hegemonic processes embedded within the western capitalist structures of knowledge production but also explores how the eurocentrism of International Relations in Pakistan is sustained and maintained through a coloniality of knowledge and power which is designed to promote western epistemologies and emulate western standards This book consequently provides a view of epistemic oppression from below In doing so it is an initial attempt to explore how the process of decolonization can begin to address the issues embedded in the coloniality of knowledge demonstrated through an exploration of the International Relations discipline in Pakistan

who shared the Physics Nobel Prize in 1979 Born in a remote rural sunburnt country town in the outback of colonial Punjab he made it to the forefront of theoretical physics Abdus Salam compartmentalised his studies of physics politics religion and family Although his life in physics has been sufficiently covered few have extensively studied his life and engagement in other fields He served military regimes and was closely associated with the birth of nuclear expertise in Pakistan where his membership of the schismatic Ahmadiyah community marginalised him His working life was divided between London's Imperial College and the International Centre for Theoretical Physics in Trieste Italy His fans perceive him as a victim of religious bigotry but on his part he did not seem to exercise scientific detachment in religion Abdus Salam had two wives His second wife Louise Johnson 1940 2012 was a leading Molecular Biologist who served as Professor Emeritus in Oxford University and it remains an awkward question as to how the two managed bigamy in Europe Abdus Salam validated the Judaic Muslim prohibition of pig meat and went as far as judging people who consumed pork as shameless like the beast itself A substantial amount of information provided in the book is supported by direct one to one interviews the author of the book conducted with Abdus Salam in 1984
