**Robert R. Redfield**

## **From A Mobile Home:**

Wheel Estate Allan D. Wallis, 1997-06-19 A lively and informative history of the mobile home in the United States over six decades extensively illustrated with period photographs and vivid portraits of the people who live in mobile homes and the industry pioneers who designed and built them In Wheel Estate Allan Wallis offers a lively and informative history of the mobile home in the United States over six decades His colorful account extensively illustrated with period photographs and vivid portraits of the people who live in mobile homes and the industry pioneers who designed and built them will inform and amuse anyone curious about this American phenomenon Beginning with the travel trailers of the late 1920s and 1930s with models that were built like yachts or unfolded like Polaroid cameras Wallis moves through the World War II era when the industry mushroomed as trailers became homes for thousands of defense workers to the post war era when trailers became year round housing The industry responded with new models now called mobile homes that tried to strike a balance between house and vehicle even as owners built their own often fanciful additions including one mobile home complete with Egyptian pylons Carrying the story up to the present Wallis links the need for mobile homes to continuing housing crises He traces regulations and reforms aimed at linear living arguing in the end that manufactured housing remains distinctively American and embodies fundamental national ideas of home and community

The Unknown World of the Mobile Home John Fraser Hart, Michelle J Rhodes, John T Morgan, 2002-08-20 An in depth look at the history and culture of mobile homes in the United States In American popular imagination the mobile home evokes images of cramped interiors cheap materials and occupants too poor or unsavory to live anywhere else Since the 1940s and 50s however mobile home manufacturers have improved standards of construction and now present them as an affordable alternative to conventional site built homes Today one of every fourteen Americans lives in a mobile home In The Unknown World of the Mobile Home authors John Fraser Hart Michelle J Rhodes and John T Morgan illuminate the history and culture of these often misunderstood domiciles They describe early mobile homes which were trailers designed to be pulled behind automobiles and which were more often than not poorly constructed and unequal to the needs of those who used them During the 1970s however Congress enacted federal standards for the quality and safety of mobile homes which led to innovation in design and the production of much more attractive and durable models These models now comply with local building codes and many are designed to look like conventional houses As a result one out every five new single family housing units purchased in the United States is a mobile home sited everywhere from the conventional trailer park to custom designed estates aimed at young couples and retirees Despite all these changes in manufacture and design even the most immobile mobile homes are still sold financed regulated and taxed as vehicles With a wealth of detail and illustrations The Unknown World of the Mobile Home provides readers with an in depth look into this variation on the American dream A clear concise and innovative look at the history the economics and the politics of the mobile home The authors reveal the inner workings of mobile home living by drawing upon a wide

variety of sources from industry data to interviews conducted at mobile home parks across the country Further they explore new types of mobile home communities those assembled for workers at meat processing centers in southwest Kansas for example that complicate the familiar image of the mobile home park as retirement village The ideas presented in this book provide a solid starting point for many detailed studies on this important topic Karl Raitz University of Kentucky author of *The National Road*     **The Complete Mobile Home Book** Nicholas M. Raskhodoff,1982     **Mobile Homes** Center for Auto Safety,Lynda McDonnell,1975     FTC Mobile Home Sales and Service Rule United States. Congress. Senate.
