From Atlantis To The Sphinx:

From Atlantis to the Sphinx Colin Wilson, 2004-07-01 In this compelling book Colin Wilson argues that thousands of years before ancient Egypt and Greece held sway there was a great civilization whose ships traveled the world from China to Antarctica Their advanced knowledge of science mathematics and astronomy was passed on to descendants who escaped to Egypt and South America From Atlantis to the Sphinx bases this assertion on a true fact that archaeologists and geologists are at odds over the age of the Sphinx Archaeologists claim that the Sphinx dates to classical dynastic Egypt around 2 400 b c But some geologists claim that it could have been built as early as 7 000 to 10 500 b c The geologists claim is based on the curious fact that the erosion of the Sphinx is more characteristic of water erosion than that of wind and sand Starting from the assumption that there was an advanced civilization in existence much earlier than previously thought Wilson goes on to claim that it could very well be Atlantis not a literal island that sank but more of a great civilization that either declined naturally or experienced a great catastrophe passing on only a fraction of its knowledge to other peoples From Atlantis to the Sphinx delves into what might have been a completely different knowledge system from that of modern man one as alien to us as that of the Martians The book sets out to reconstruct that ancient knowledge in a fascinating exploration of the remote depths of history a ground breaking attempt to understand how these long forgotten peoples thought felt and communicated with the universe

Expanding on issues touched on in *The Da Vinci Code* this thought provoking study explores the real story of Christianity a story told by men and women condemned by the traditional orthodox church and one long hidden in mysterious codes and symbols In medieval times dissenters believed the established church ruthlessly suppressed the truth about Jesus and his ministry Branded as heretics and subject to torture and execution for their beliefs the dissenters including the Knights Templar Freemasons Cathars and groups of scientists devised an ingenious code to communicate with fellow sympathizers and preserve the truth They concealed these complex symbols in art artifacts and architecture of the medieval world Finally this fascinating underground language is deciphered revealing powerful messages meant as much for today's truth seekers as for medieval minds *Super Consciousness* Colin Stanley, Colin Wilson, 2019-12-10

Blending existential and occult thought a highly acclaimed philosopher explains how we can find profound meaning and joy by inducing states of extreme awareness and emotion Throughout history there have been references and examples in literature art and philosophy of an increased awareness of life while under the influence of extreme emotions These have become known as Peak Experiences Soon after Colin Wilson became aware of this phenomenon in the 1960s he wondered about its history and how its power could be harnessed and began a forty year investigation In *Super Consciousness* we see how such luminaries as Yeats Blake Sartre Nietzsche and Robert Graves were affected by Peak Experiences and how it has long been noted that we are least insightful when we are at our lowest ebb By looking in detail through the different areas where this phenomenon has occurred and by offering anecdotes and examples of how many people in history as well as himself were affected Wilson reveals a pattern of insight with emotions He ends the book with an instructional section on achieving power consciousness for yourself **New Atlantis** Colin Amery, 1983

two decades Love Sex and Desire in Modern Egypt is an ethnography that explores female respectability male honor and Western theories and fantasies about Arab society L L Wynn uses stories of love affairs to interrogate three areas of classic anthropological theory mimesis kinship and gift She develops a broad picture of how individuals love and desire within a cultural and political system that structures the possibilities of and penalties for going against sexual and gender norms Wynn demonstrates that love is at once a moral horizon an attribute that naturally inheres in particular social relations a social phenomenon strengthened through cultural concepts of gift and kinship and an emotion deeply felt and desired by individuals

Schoch,Robert Aquinas McNally,2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In Pyramid Quest Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings **Custodians Of Truth** Tim Wallace-Murphy,Marilyn

Hopkins,2025-09-12 A curious thing happened to Tim Wallace Murphy and Marilyn Hopkins when they published Rex Deus their first book on the bloodline of Christ they were contacted by a man from the very lineage they were studying And instead of denying the existence of the bloodline or berating them for revealing secrets he actually confirmed that the Rex Deus lineage exists and even disclosed some of its fundamental secrets The story of the Rex Deus families direct descendents of Christ who is believed to have survived the crucifixion turns out to be much more extensive than the authors first thought

Instead of beginning during the time of Jesus it stretches far back into antiquity to the Egyptian Mystery Schools Instead of being only a propagation of the holy bloodline the Rex Deus families are also carriers of the secret teachings of Jesus Custodians of Truth reveals the purpose and secrets of the Rex Deus lineage Jesus was not only a holy man but an adept of ancient knowledge which informed his own teachings This secret knowledge was suppressed by the Church in their voracious quest for power and influence in the secular world These teachings have manifested throughout history in different forms Gnostic philosophy around the time of Jesus the Order of the Knights Templar Freemasons and the current resurgence of interest in New Age thought Finally the time is right for the hidden message of Jesus to be revealed a message of tolerance brotherhood and respect for nature The next chapter in the legend of the Holy Grail and the bloodline of Christ from the best selling authors of Rosslyn

The Neanderthal Legacy Stan Gooch, 2008-04-18 A direct appeal for a revolution in our educational system to restore the connection with our Neanderthal heritage Examines the genetic evidence for Neanderthal Cro Magnon crossbreeding and the dual nature effects this hybrid cross produced Explains the influence of the Neanderthal s enlarged cerebellum on our modern brain function and psychic and paranormal abilities In *The Neanderthal Legacy* eminent psychologist and paranormal researcher Stan Gooch brings together the wide ranging investigative strands of his lifetime of study of the human brain One of the world s leading experts on the influence of Neanderthal Man on the cultural and biological development of humanity Gooch contends that the Neanderthals enlarged cerebellum was a source of deep connection with the psychic and dream worlds which remains extant in modern man in paranormal phenomena that conventional science cannot explain Gooch offers new scientific evidence of the crossbreeding between Neanderthals and Cro Magnons that is responsible for the dichotomous nature of our feelings thoughts impressions beliefs and even our cultural mores and politics The hybrid vigor produced by this mating has gifted modern man with abilities and sensibilities that the scientific establishment and conventional educational system entirely ignore The author explores the legacy of our Neanderthal ancestors in an effort to awaken their virtues and qualities which are so needed in our modern world
