From Darkness To Light Class Consciousness And Salvation In Revolutionary Russia

Simon Pirani

From Darkness To Light Class Consciousness And Salvation In Revolutionary Russia:

From Darkness to Light Igal Halfin, 2000 **From Darkness To Light** Igal Halfin, 2000-07-15 In conjunction with Studies of the Harriman Institute In this interdisciplinary and controversial work Igal Halfin looks at Marxist theory in a new light attempting to break down the divisions between history philosophy and literary theory His approach is methodological combining intellectual and social history to argue that if we are to take the Bolshevik revolutionary experiment seriously we have to examine carefully the ideological presupposition of both communist ideological texts and the archival documents that social historians believe truly reflect lived experience in order to see what effects these texts had on reality Igal Halfin aims to turn Marxism class and consciousness from subjects of analysis to its objects From Darkness to Light begins by examining the Marxist philosophy of history as understood by the Russian revolutionary movement Halfin argues that the Soviet government took its cues to how it could bring about a classless society from a peculiar blending of eschatological thinking and modern techniques of power Halfin then offers a case study of the Bolshevik attempt in the 1920s to create the Communist New Man by amalgamating the characteristics of the intellectual and the worker in order to eradicate the petit bourgeois traits attributed by the regime to the pre revolutionary individualistic and decadent student Halfin s conclusions raise important questions about Marxist theory as it relates to class historical progress and communism itself His approach suggests that proletarianization should be understood not as a change in the social composition of the student body but as the introduction of the language of class into the universities Through the examination of the process of the literary construction of class identity Halfin concludes that the student class affiliation in the Soviet Union of the 1920s was not simply a matter of social origins but of students ability using a set of ritualized procedures to defend their claims to a working class identity Halfin s conclusions raise important questions about Marxist theory as it relates to class historical progress and communism itself **Russian Baptists and Spiritual Revolution, 1905-1929** Heather J.

Coleman, 2005-04-20 a fascinating read for everyone interested in Russia religion and modernity Nadieszda Kizenko In the early 20th century Baptists were the fastest growing non Orthodox religious group among Russians and Ukrainians Heather J Coleman traces the development of Baptist evangelical communities through a period of rapid industrialization war and revolution when Russians found themselves asking new questions about religion and its place in modern life Baptists faith helped them navigate the problems of dissent of order and disorder of modernization and westernization and of national and social identity in their changing society Making use of newly available archival material this important book reveals the ways in which the Baptists own experiences and the widespread discussions that they generated illuminate the emergence of new social and personal identities in late Imperial and early Soviet Russia the creation of a public sphere and a civic culture and the role of religious ideas in the modernization process **Rethinking the Russian Revolution as Historical Divide**

Matthias Neumann, Andy Willimott, 2017-11-22 The Russian Revolution of 1917 has often been presented as a complete break

with the past with everything which had gone before swept away and all aspects of politics economy and society reformed and made new Recently however historians have increasingly come to question this view discovering that Tsarist Russia was much more entangled in the processes of modernisation and that the new regime contained much more continuity than has previously been acknowledged This book presents new research findings on a range of different aspects of Russian society both showing how there was much change before 1917 and much continuity afterwards and also going beyond this to show that the new Soviet regime established in the 1920s with its vision of the New Soviet Person was in fact based on a complicated mixture of new Soviet thinking and ideas developed before 1917 by a variety of non Bolshevik movements

Popular Opinion in Totalitarian Regimes Paul Corner, 2009-10-01 Fascism Nazism and Communism dominated the history of much of the twentieth century yet comparatively little attention has focused on popular reactions to the regimes that sprang from these ideologies Popular Opinion in Totalitarian Regimes is the first volume to investigate popular reactions to totalitarian rule in the Soviet Union Fascist Italy Nazi Germany and the communist regimes in Poland and East Germany after 1945 The contributions written by internationally acknowledged experts in their fields move beyond the rather static vision provided by traditional themes of consent and coercion to construct a more nuanced picture of everyday life in the various regimes The book provides many new insights into the ways totalitarian regimes functioned and the reasons for their decline encouraging comparisons between the different regimes and stimulating re evaluation of long established positions

Empire of Nations Francine Hirsch, 2014-10-03 When the Bolsheviks seized power in 1917 they set themselves the task of building socialism in the vast landscape of the former Russian Empire a territory populated by hundreds of different peoples belonging to a multitude of linguistic religious and ethnic groups Before 1917 the Bolsheviks had called for the national self determination of all peoples and had condemned all forms of colonization as exploitative After attaining power however they began to express concern that it would not be possible for Soviet Russia to survive without the cotton of Turkestan and the oil of the Caucasus In an effort to reconcile their anti imperialist position with their desire to hold on to as much territory as possible the Bolsheviks integrated the national idea into the administrative territorial structure of the new Soviet state In Empire of Nations Francine Hirsch examines the ways in which former imperial ethnographers and local elites provided the Bolsheviks with ethnographic knowledge that shaped the very formation of the new Soviet Union The ethnographers who drew inspiration from the Western European colonial context produced all union censuses assisted government commissions charged with delimiting the USSR s internal borders led expeditions to study the human being as a productive force and created ethnographic exhibits about the Peoples of the USSR In the 1930s they would lead the Soviet campaign against Nazi race theories Hirsch illuminates the pervasive tension between the colonial economic and ethnographic definitions of Soviet territory this tension informed Soviet social economic and administrative structures A major contribution to the history of Russia and the Soviet Union Empire of Nations also offers new insights into the connection between ethnography and empire

Language and Revolution Igal Halfin, 2004-08-02 This work examines the role of language in forging the modern subject Focusing on the idea of the New Man that has animated all revolutionaries the present volume asks what it meant to define oneself in terms of one's class origins gender national belonging or racial origins

Utopia's Discontents Faith Hillis, 2021 Utopia's Discontents provides the first synthetic treatment of the Russian revolutionary emigration before the Revolution It argues that neighborhoods created by Russian exiles became sites of revolutionary experimentation that offered their residents a taste of their anticipated utopian future

Crossing Borders Michael David-Fox, 2015-05-19 Crossing Borders deconstructs contemporary theories of Soviet history from the revolution through the Stalin period and offers new interpretations based on a transnational perspective To Michael David Fox Soviet history was shaped by interactions across its borders By reexamining conceptions of modernity ideology and cultural transformation he challenges the polarizing camps of Soviet exceptionalism and shared modernity and instead strives for a theoretical and empirical middle ground as the basis for a creative and richly textured analysis Discussions of Soviet modernity have tended to see the Soviet state either as an archaic holdover from the Russian past or as merely another form of conventional modernity David Fox instead considers the Soviet Union in its own light as a seismic shift from tsarist society that attracted influential visitors from the pacifist Left to the fascist Right By reassembling Russian legacies as he shows the Soviet system evolved into a complex intelligentsia statist form that introduced an array of novel agendas and practices many embodied in the unique structures of the party state Crossing Borders demonstrates the need for a new interpretation of the Russian Soviet historical trajectory one that strikes a balance between the particular and the universal

Russian Utopia Mark D. Steinberg, 2021-09-23 Winner of the 2022 Choice Outstanding Academic Titles Mark D Steinberg explores the work of individuals he recognizes as utopians during the most dramatic period in Russian and Soviet history It has long been a cliché to argue that Russian revolutionary movements have been inspired by varieties of utopian dreaming claims which although not wrong are too often used uncritically For the first time Russian Utopian digs deeper and asks what utopians meant at the level of ideas emotions and lived experience Despite the fact that many would have resisted the utopian label at the time because of its dismissive meanings Steinberg's comprehensive approach sees him take in political leaders intellectuals writers and artists visual material and musical as well as workers peasants soldiers students and others Ideologically the figures discussed range from reactionaries to anarchists nationalists including non Russians to feminists both religious believers and the militant godless This innovative text dissects the very notion of the Russian utopian and examines its significance in its various fascinating contexts

A History of Russia and Its Empire Kees Boterbloem, 2018-06-26 This clear and focused text provides an introduction to imperial Russian and Soviet history from the crowning of Mikhail Romanov in 1613 to Vladimir Putin's new term Through a consistent chronological narrative Kees Boterbloem considers the political military economic social religious and cultural developments and crucial turning points that led Russia from an exotic backwater to superpower stature in the

twentieth century The author assesses the tremendous price paid by those who made Russia and the Soviet Union into such a hegemonic power both locally and globally He considers the complex and varied interactions between Russians and non Russians and investigates the reasons for the remarkable longevity of this last of the colonial powers whose dependencies were not granted independence until 1991 He explores the ongoing legacies of this fraught decolonization process on the Russian Federation itself and on the other states that succeeded the Soviet Union The only text designed and written specifically for a one semester course on this four hundred year period it will appeal to all readers interested in learning more about the history of the people who have inhabited one sixth of the earth s landmass for centuries **Tear Off the**

Masks! Sheila Fitzpatrick, 2005-07-25 When revolutions happen they change the rules of everyday life both the codified rules concerning the social and legal classifications of citizens and the unwritten rules about how individuals present themselves to others This occurred in Russia after the Bolshevik Revolution of 1917 which laid the foundations of the Soviet state and again in 1991 when that state collapsed Tear Off the Masks is about the remaking of identities in these times of upheaval Sheila Fitzpatrick here brings together in a single volume years of distinguished work on how individuals literally constructed their autobiographies defended them under challenge attempted to edit the file selves created by bureaucratic identity documentation and denounced others for masking their true social identities Marxist class identity labels worker peasant intelligentsia bourgeois were of crucial importance to the Soviet state in the 1920s and 1930s but it turned out that the determination of a person s class was much more complicated than anyone expected This in turn left considerable scope for individual creativity and manipulation Outright imposters both criminal and political also make their appearance in this book The final chapter describes how after decades of struggle to construct good Soviet socialist personae Russians had to struggle to make themselves fit for the new post Soviet world in the 1990s by de Sovietizing themselves Engaging in style and replete with colorful detail and characters drawn from a wealth of sources Tear Off the Masks offers unique insight into the elusive forms of self presentation masking and unmasking that made up Soviet citizenship and continue to resonate in the post Soviet world **Practicing Stalinism** J. Arch Getty, 2013-08-27 DIVIn old Russia patron client relations clan politics and a variety of other informal practices spanned the centuries Government was understood to be patrimonial and personal rather than legal and office holding was far less important than proximity to patrons Working from heretofore unused documents from the Communist archives J Arch Getty shows how these political practices and traditions from old Russia have persisted throughout the twentieth century Soviet Union and down to the present day divDIV divDIVGetty examines a number of case studies of political practices in the Stalin era and after These include cults of personality the transformation of Old Bolsheviks into noble grandees the Communist Party s personnel selection system and the rise of political clans family circles after the 1917 Revolutions Stalin s conflicts with these clans and his eventual destruction of them were key elements of the Great Purges of the 1930s But although Stalin could destroy the competing clans he could not destroy the historically

embedded patron client relationship as a final chapter on political practice under Putin shows div

Stalingrad Lives Ian Garner,2022-12-15 In the fall of 1942 only the city of Stalingrad stood between Soviet survival and defeat as Hitler's army ran rampant With the fate of the USSR hanging in the balance Soviet propaganda chiefs sent their finest writers into the heat of battle After six months of terrifying work these men succeeded in creating an enduring epic of Stalingrad Their harrowing tales of valour and heroism offered hope for millions of readers Stalingrad lives went the rallying cry the city had to live if the nation was to stave off defeat In *Stalingrad Lives* Ian Garner brings together a selection of short stories written at and after the battle They reveal for the first time in English the real Russian narrative of Stalingrad an epic story of death martyrdom resurrection and utopian beginnings Following the authors into the hellish world of Stalingrad Garner traces how tragedy was written as triumph He uncovers how dealing with loss and destruction on an unimaginable scale Soviet readers and writers embraced the story of martyred Stalingrad embedding it into the Russian psyche for decades to come Featuring lost work by Vasily Grossman alongside texts by luminaries such as Konstantin Simonov Viktor Nekrasov and Ilya Ehrenburg *Stalingrad Lives* offers a literary perspective on the Soviet Union at war

Mandelstam's Worlds Andrew Kahn,2020-07-28 Rightly appreciated as a poet's poet Mandelstam has been habitually read as a repository of learned allusion Yet as Seamus Heaney observed his work is as firmly rooted in both an historical and cultural context as real as Joyce's *Ulysses* or Eliot's *Waste Land* Great lyric poets offer a cross section of their times and Mandelstam's poems represent the worlds of politics history art and ideas about intimacy and creativity The interconnections between these domains and Mandelstam's writings are the subject of this book showing how engaged the poet was with the history social movements political ideology and aesthetics of his time The importance of the book also lies in showing how literature no less than history and philosophy enables readers to confront the huge upheaval in outlook can demand of us thinking with poetry is to think through the moral compromise and tension felt by individuals in public and private contexts and to create out of art experience in itself The book further innovates by integrating a new comprehensive discussion of the Voronezh Notebooks one of the supreme achievements of Russian poetry This book considers the full political dimension of works that explore the role of the poet as a figure positioned within society but outside the state caught between an ideal of creative independence and a devotion to the original ameliorative ideals of the revolution

The Russian Revolution in Retreat, 1920-24 Simon Pirani,2008-03-03 This book examines the relationship between the Russian Communist Party and working class in the years after the revolution and civil war It shows that the working class was politically expropriated by the Bolshevik party as democratic bodies such as soviets and factory committees were deprived of decision making power

Stalinism Alter L. Litvin,John L. H. Keep,2005 This volume the fruit of co operation between a British and Russian historian seeks to review comparatively the progress made in recent years largely thanks to the opening of the Russian archives in enlarging our understanding of Stalin and

Performing Memory Luisa Passerini,Dieter Reinisch,2023-06-09 Through a post 1968

perspective on the past 50 years Performing Memory brings together case studies on new developments in the relationship between politics and visual representation including the histories of dance theatre political performance and cinema and investigates how they relate to the interlinked concepts of visibility corporeality and mobility Using a collective transdisciplinary attitude from within historical disciplines and looking across to artistic fields this volume demonstrates that memory is not merely a recollection of experience but an interactive process in which the body mobile and constrained is both a point of departure and reference

The Morality of Revolution Benedito Luís Machava, 2024-12-10 The Morality of Revolution offers the first historical examination of urban cleanup campaigns and reeducation camps in socialist Mozambique The book presents the camps as the template for independent Mozambique's punitive society under Frelimo Individuals who transgressed the law and socialist normative codes of behavior were targeted by the revolutionary party which obsessively pursued putative wrongdoers in an effort to build a new society from the ruins of Portuguese colonialism Benedito Lu's Machava argues that the socialist experiment while ushering in an era of economic development and social progress sought also to remake the moral fabric of Mozambican society At play was the contradictory combination of high modernist socialist aspirations and conservative anxieties rooted in a moralist reading of society From its inception in 1974 to its demise in the late 1980s the reeducation program was a do it yourself enterprise The Frelimo government unable to finance and support the carceral regime expected its agents and the detainees to carry out the ambitious project on their own Without material and human resources to run the program state officials compelled detainees to build their own detention facilities to grow their own food to enforce their own political education and in many ways to oversee their own incarceration The state's incapacity to translate the salvationist ideas of reeducation into planned action a general feature of the socialist experiment in Mozambique produced spaces of social neglect and castigation that negatively affected both the inmates and the personnel tasked with disciplining and reeducating them

Russian and Soviet History Steven A. Usitalo, William Benton Whisenhunt, 2008-02-04 An original and thought provoking text Russian and Soviet History uses noteworthy themes and important events from Russian history to spark classroom discussion Consisting of twenty essays written by experts in each area the book does not simply repeat the conventional themes found in nearly all Russian history texts anthologies and documentary compilations Rather it showcases current thinking on Russian cultural political economic and social history from the end of the sixteenth century to the demise of the Soviet experiment Informed by archival work in the former Soviet Union and a broad range of published sources this book is intended to introduce students to Russian history in an accessible and provocative format Its eclectic essays offer readers an incomparable taste of the complexity and richness of Russia as it has evolved from late Muscovy to the modern era This text is perfect for undergraduate and graduate students in Russian history and is a great resource for scholars in the field Contributions by Sergei Arutiunov Richard Bidlack Kees Boterbloem James Cracraft Chester S L Dunning Colum Leckey Alexander M Martin Susan P McCaffray Martha Merritt Patrick O Meara
