constitutes an important yet largely unexplored chapter in the reception history of these authors. Many of the photographs were deliberate attempts to encourage the preservation of environmentally sensitive sites, something the realism of photography and the 3D presentation of the stereoscope made especially effective. *The Stereoscopic Picturesque* combines fields of study that have rarely been brought into such close contiguity: the history of science, art history, the history of photography, literature, and environmentalism. The result is an unprecedented look at Victorian popular culture and the way stereo photography shaped their ways of seeing the world. *Contemporary Photographers*, 1982

**Welsh Environments in Contemporary Poetry** Matthew Jarvis, 2021-03-15. *Welsh Environments in Contemporary Poetry* examines the question of how recent English language poetry from Wales has responded to the diverse physical environments of Wales. The first volume to offer a sustained assessment of Welsh poetry in English within the context of recent developments in environmental literary criticism, this book also draws on aspects of human geography to explore the rich contemporary poetics of Welsh space and place. Opening with an examination of poets from the 1960s as well as the early work of R. S. Thomas, *Welsh Environments in Contemporary Poetry* subsequently concentrates on the poetry of writers who have come to prominence since the 1970s: Gillian Clarke, Ruth Bidgood, Robert Minhinnick, Mike Jenkins, Christine Evans, and Ian Davidson. Close reading of key texts reveals the way in which these writers variously create Welsh places, landscapes, and environments, fashioning rural and urban spaces into poetic geographies that are both abundantly physical and inescapably cultural. Far from reducing Wales to mere scenery, the poetry that emerges from this book engages with the environments of Wales not just for their own sake but as a crucial way of exploring key issues in Welsh culture: from the negotiation of female identity in a land of masculine myths to the exploration of Welsh space in a global context.
