Stableford, 2012-01-24 Although the problems of writing fantasy and science fiction include all those pertaining to the writing of any kind of fiction particular problems arise in stories in which unprecedented things can and do happen as well as stories that often involve unhuman characters of various sorts and that might require the elaborate design of entire imaginary worlds This book provides an elementary introduction to problems of those kinds and the ways in which they modify the general problems of writing fiction It also suggests strategies that might enable the problems to be handled constructively and productively The author has published more than seventy novels in the field more than twenty short story collections and more than twenty related works of non fiction he has as the saying goes been there done that and chewed his t shirt in relevant frustration Robert Reginald says An absolutely first rate guide to writing fantastic literature Stableford has much to say that potential writers of ALL fiction might find valuable interesting and highly illuminating His reasonable discussion and dissection of the basic issues facing authors of creative fiction and the solutions to be found to each problem are dollops of solid gold advice in this editor s humble opinion Every would be author should read this book and more than once

Beyond Horatio's Philosophy: The Fantasy of Peter S. Beagle David Stevens, 2013-08-16 In Beyond Horatio s Philosophy The Fantasy of Peter S Beagle David Stevens examines the fantasy of American writer Peter S Beagle He finds a consistent view of the world and an almost overpowering sense of humor leading him to conclude that Beagle believes that love is the best thing we have and the only reason for living His work will be read and enjoyed for generations to come and Stevens tells you why Beagle indulges in what Stevens terms metaphysical speculations a working out of the possibilities of the world being different than it is He invites the reader to examine these speculations with him and when we do to come away from the experience as better men and women believing in the transforming power of love and laughing at ourselves in the process No writer could ask for more or succeed better Beagle would have us believe to paraphrase Shakespeare s Hamlet that there are more things in heaven and earth than are dreamt of in our philosophy Complete with bibliography and index

William T. Vollmann Christopher K. The Hunger Games Catherine Driscoll, Alexandra Heatwole, 2018-05-11 The 2012 film The Hunger Games and its three sequels appearing quickly over the following three years represent one of the most successful examples of the contemporary popularity of youth oriented speculative film and television series This book considers The Hunger Games as an intertextual field centred on this blockbuster film franchise but also encompassing the successful novels that preceded them and the merchandised imagery and the critical and fan discourse that surrounds them It explores the place of The Hunger Games in the history of youth oriented cinema in the history of speculative fiction centred on adolescents in a network of continually evolving and tightly connected popular genres and in the popular history of changing ideas about girlhood from which a successful action hero like Katniss Everdeen could emerge

Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies
