From All Sides Memories Of World War II:

Confronting Memories of World War II Daniel Chirot, Gi-Wook Shin, Daniel Sneider, 2014-04-01 The legacy of the Second World War has been like the war itself an international phenomenon In both Europe and Asia common questions of criminality guilt and collaboration have intersected with history and politics on the local level to shape the way that wartime experience has been memorialized reinterpreted and used By directly comparing European and Asian legacies Confronting Memories of World War II provides unique insight into the way that World War II continues to influence contemporary attitudes and politics on a global scale The collection brings together experts from a variety of disciplines and perspectives to explore the often overlooked commonalities between European and Asian handling of memories and reflections about guilt These commonalities suggest new understandings of the war's legacy and the continuing impact of historical trauma

Lower East Side Memories Hasia R. Diner, 2002-03-03 Manhattan's Lower East Side stands for Jewish experience in America With the possible exception of African Americans and Harlem no ethnic group has been so thoroughly understood and imagined through a particular chunk of space Despite the fact that most American Jews have never set foot there and many come from families that did not immigrate through New York much less reside on Hester or Delancey Street the Lower East Side is firm in their collective memory Whether they have been there or not people reminisce about the Lower East Side as the place where life pulsed bread tasted better relationships were richer tradition thrived and passions flared This was not always so During the years now fondly recalled 1880 1930 the neighborhood was only occasionally called the Lower East Side Though largely populated by Jews from Eastern Europe it was not ethnically or even religiously homogenous The tenements grinding poverty sweatshops and packs of roaming children were considered the stuff of social work not nostalgia and romance To learn when and why this dark warren of pushcart lined streets became an icon Hasia Diner follows a wide trail of high and popular culture She examines children's stories novels movies museum exhibits television shows summer camp reenactments walking tours consumer catalogues and photos hung on deli walls far from Manhattan Diner finds that it was after World War II when the Lower East Side was enshrined as the place through which Jews passed from European oppression to the promised land of America The space became sacred at a time when Jews were simultaneously absorbing the enormity of the Holocaust and finding acceptance and opportunity in an increasingly liberal United States Particularly after 1960 the Lower East Side gave often secularized and suburban Jews a biblical yet distinctly American story about who they were and how they got here Displaying the author's own fondness for the Lower East Side of story books combined with a commitment to historical truth Lower East Side Memories is an insightful account of one of our most famous neighborhoods and its power to shape identity

The Former Soviet Union and East Central Europe between Conflict and Reconciliation Lily Gardner Feldman, Raisa Barash, Samuel Goda, André Zempelburg, 2018-12-03 This volume examines the role of identity formation and stages of sequencing of the steps of reconciliation which is an enduring rather than an

ad hoc phenomenon RIPAR 4 asks for both the challenges to it from the domestic and international systems and the actors involved as well as for the role of history memory and remembrance either as catalysts for or obstacles to reconciliation The analyzing of the connection among the past the present and the future in actual or prospective reconciliation embraces all these topics and questions Influenced by the crisis in the former Soviet Union following the March 2014 Russian annexation integration of Crimea and the movement of Russian soldiers into Eastern Ukraine to aid Ukrainian separatists the essays in this volume were written in 2015 Reconciliation is a frequently ill defined term As an aspiration in this volume it encompasses three senses an incipient thin and minimal form amounting to passive peaceful coexistence after enmity a more elaborate intermediate and engaged form that is captured by the term rapprochement and a thick or fuller form denoting active friendship empathy trust magnanimity and ultimately amity Beyond the definitional goal the volume addresses ten themes Firstly reconciliation is being questioned as a process and or a terminal condition A view is made on the requirements for the transition from conflict to a reconciliatory process and the obstacles to beginning a process of reconciliation Its soft and hard expressions inter alia in emotional and political dimensions are also subject of the author s interest The observations about conflict and cooperation offered in this volume wish to add significantly to the burgeoning literature of reconciliation These essays demonstrate that we need a variety of disciplinary and theoretical perspectives to grapple with conflict and to promote reconciliation

Curating and Re-Curating the American Wars in Vietnam and Iraq Christine Sylvester, 2019-03-04 We have long saved and curated objects from wars to commemorate the war experience These objects appear at national museums and memorials and in war novels and memoirs Through them we institutionalize narratives and memories of national identity power and purpose This book asks whose vantage points on the American wars in Vietnam and Iraq are available and where for public consumption it also considers whose war experiences are not represented are minimized or ignored in ways that advantage contemporary militarism In looking at how professional curators ordinary civilian curators and veteran and civilian writers exhibit the American wars in Vietnam and Iraq Sylvester shows that war authority is widely dispersed and nonconsensual By looking

beyond official renditions of a war scholars policymakers and other citizens are able to grasp war as a violent rather than abstractly heroic mode of politics **Masters of the Universe?** Tariq Ali, 2000 A number of distinguished dissidents voice their opinions on the intervention by NATO in the former Yugoslavia The collection also provides background historical information on the conflict in the Balkans **Memories of the Currituck Outer Banks: As Told by Ernie Bowden** Clark Twiddy, 2021 Painfully remote in the time of the Wright brothers today the Outer Banks famously welcomes millions of visitors each year The journey from early isolation to popularity is recalled with remarkable insight by Ernie Bowden a sixth generation Outer Banker On any given day Ernie was a sailor cattle baron salvage specialist hunter fisherman legal expert and elected official all at once Born just after the end of World War I his memories stretch from the isolation of the early twentieth century through the glamor of the world famous duck clubs of the area and the storms that have shaped its modern day geography Aided by author Clark Twiddy Ernie tells the tales of a unique life spent in this unique place Emotion in Motion Mike Robinson, David Picard, 2016-05-06 What happens when tourists scream with fear shout with anger and frustration weep with joy and delight or even faint in the face of revealed beauty How can certain sites affect some tourists so deeply that they require hospitalisation and psychiatric treatment What are the inner contours of tourist experience and how does it relate to specific emotional cultures What are the consequences of the emotional cultures of tourists upon destinations How are differences in emotional culture mobilized and played out in the transnational contact zones of international tourism While many books have engaged with the structural frames of tourist practice and experience this is the first to deal with the emotional dimensions of tourism travel and contact and the ways in which they can transform tourists destinations and travel cultures through emotional engagements The book brings together an international array of scholars from anthropology psychiatry history cultural geography and critical tourism studies to explore how the movement to and through the realms of exotic people wild natures subliminal art spirit worlds metropolitan cities and sexualised others variably provoke emotions peak experiences travel syndromes and inner dialogues The authors show how tourism challenges us to engage with concepts of self other time nature sex the body and death Through a set of ethnographic and historic cases they demonstrate that such engagements usually have little to do with the actual destination but rather are deeply anchored in personal memories repressed fears and desires and the collective imaginaries of our societies **Postnational Memory, Peace and War** Nigel Young, 2019-11-26 This book examines the phenomenon of modern memory as a reaction to total war an aspiration to truth seeking provoked by the independent forces of modern war and collective violence which is transnational or postnational in character Using examples from prose and poetry film and theatre painting and photography and music and the popular arts the author traces a narrative path through the events of the twentieth century defining the tradition of modern memory in terms of its essentially anti militaristic anti war character as expressed in the manner in which it represents recalled violence and atrocity Through a series of thematic discussions of two world wars the Shoah

Biesecker,2024-08-09 By the 1970s World War II had all but disappeared from US popular culture But beginning in the mid eighties it reemerged with a vengeance and for nearly fifteen years World War II was ubiquitous across US popular and political culture In this book Barbara A Biesecker explores the prestige and rhetorical power of the Good War revealing how it was retooled to restore a new kind of social equilibrium to the United States Biesecker analyzes prominent cases of World War II remembrance including the canceled exhibit of the Enola Gay at the National Air and Space Museum in 1995 and its replacement Steven Spielberg s Saving Private Ryan Tom Brokaw s The Greatest Generation and the United States Holocaust Memorial Museum Situating these popular memory texts within the culture and history wars of the day and the broader framework of US political and economic life Biesecker argues that with the notable exception of the Holocaust Memorial Museum these reinventions of the Good War worked rhetorically to restore a strong sense of national identity and belonging fitted to the neoliberal nationalist agenda By tracing the links between the popular retooling of World War II and the national state fantasy and by putting the lessons of Foucault Derrida Lacan and their successors to work for a rhetorical political analysis of the present Biesecker not only explains the emergence and strength of the MAGA movement but also calls attention to the power of public memory to shape and contest ethnonational identity today This book will interest rhetoricians and historians as well as students and scholars in the fields of US politics and communication studies **The Oxford**

Walter L. Hixson, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **Historians Without Borders** Lawrence Abrams, Kaleb Knoblauch, 2019-04-11 This text explores a variety of themes developed from successive years of the University of California Davis multidisciplinary graduate conference It draws out connections on a wide array of topics among the arts humanities and sciences in history for multidisciplinary study This text presents a rare forum for multidisciplinary connections researched and presented by junior specialists in their respective fields It enables both creativity and flexibility in drawing out connections that are frequently overlooked by more specialized senior scholars This book is a unique exercise in the promotion of junior scholarly achievement and multidisciplinary research **Memory in Early Modern Europe, 1500-1800** Judith Pollmann, 2017 For early modern Europeans the past was a measure of most things good and bad For that reason it was also hotly contested manipulated and far too important to be left to historians alone Memory in Early Modern Europe offers a lively and accessible introduction to the many ways in which Europeans engaged with the past and practised memory in the three centuries between 1500 and 1800 From childhood memories and local customs to war traumas and peacekeeping it analyses how Europeans tried to control mobilize and reconfigure memories of the past Challenging the long standing view that memory cultures transformed around 1800 it argues for the continued relevance of early modern memory practices in modern societies *Italy's Divided Memory* J. Foot, 2009-12-07 This book argues that contemporary Italian history has been marked by a tendency towards divided memory Events have been interpreted in contrasting ways and the facts themselves often contested Moreover with so little agreement over what

happened and why it happened it has been extremely difficult to create any consensus around memory These divisions have been seen at all levels but take on particular importance when linked to the great traumatic and life changing events of the Twentieth century war terrorism disaster but can also be applied to more cultural fields such as sport and everyday life Social change also has an impact on memory This book will take the form of a voyage through Italy and into Italy's past looking at stories of divided memory over various periods in the twentieth century These stories will be interwoven with analysis and discussion
