## **From Aristotle To Augustine:**

From Aristotle to Augustine David J. Furley,1999 This volume provides a comprehensive survey and analysis of the key areas of late Greek and early Christian Philosophy written by experts in the field *From Aristotle to Augustine* David Furley,2016-08-01 This second volume opens with Aristotle s immense influence on philosophy from the beginnings of Christian philosophy in the fifth century AD Routledge History of Philosophy Volume II David Furley,2003-09-02 The final volume to be published in the acclaimed Routledge History of Philosophy series provides an authoritative and comprehensive survey and analysis of the key areas of late Greek and early Christian Philosophy Ideas of Slavery from Aristotle to Augustine Peter Garnsey,1996 **Routledge History of Philosophy: From aristotle to Augustine** ,1993 **From Aristotle to Christ** Louis Markos,2025-09-23 Discover how Aristotelian thought has shaped Christianity through history and remains relevant for Christians today When Christians of any age country or denomination debate the nature of the good life the soul free will or design Aristotle lies behind their logic as well as their rhetoric Although Aristotle did not have access to the Bible s special revelation he made full use of general revelation to arrive at deep truths about the nature of God human identity and the universe In the Catholic Middle Ages the spiritual vision that undergirded Dante s Divine Comedy was strongly indebted to Aristotle s cosmology and in the Protestant Reformation and Enlightenment the social vision of a well run state was equally indebted to his political science In a follow up to his well loved book From Plato to Christ renowned scholar Louis Markos takes us on a vigorous and celebratory journey through the work of Plato s greatest student demonstrating Aristotle s often unacknowledged influence on the Christian faith In Markos s hands Aristotle is far from an irrelevant ancient philosopher but is instead an important conversation partner for some of history s greatest Christian thinkers and a thoughtful guide to today s most challenging questions With this book you ll Consider the influence of Aristotle s thought on the Christian faith Carefully analyze several of Aristotle s best known texts Trace Aristotle s influence upon many key theologians in Christian history and Understand Aristotle s continuing importance for Christians today This book is a perfect addition to any classroom that seeks to understand how classical thought intersects with Christianity both past and present Grab your copy today and explore the relationship between Aristotelian philosophy and Christianity **Aristotle and Augustine on Freedom** T. Chappell,1995-03-13 Aristotle and Augustine both hold that our beliefs in freedom and voluntary action are interdependent and that voluntary actions can only be done for the sake of good Hence Aristotle holds that no one acts voluntarily in pursuit of evil such actions would be inexplicable Augustine agreeing that such actions are inexplicable still insists that they occur This is the true place in Augustine s view of his theory of will and the real point of contrast between Aristotle and Augustine **Aristotle and Augustine on Freedom** Timothy D. J. Chappell,1995 **Augustine's Way Into the Will** Simon Harrison,2006-11-02 Augustine s dialogue De libero arbitrio On Free Choice is with his Confessions and City of God one of his most important and widely read works It contains one of the earliest accounts

of the concept of free will in the history of philosophy Composed during a key period in Augustine s early career between his conversion to Christianity and his ordination as a bishop it has often been viewed as a an incoherent mixture of his early and late thinking Simon Harrison offers an original account of Augustine s theory of will taking seriously both the philosophical arguments and literary form of the text Relating De libero arbitrio to other key texts of Augustine s in particular the City of God and the Confessions Harrison shows that Augustine approaches the problem of free will as a problem of knowledge how do I know that I am free and that Augustine uses the dialogue form to instantiate his way into the will

**Signs and Demonstrations from Aristotle to Radulphus Brito** Costantino Marmo, Francesco Bellucci, 2023-07-31 In the Posterior Analytics Aristotle contrasts demonstrations with syllogisms through signs In the Prior Analytics he defines a sign as a demonstrative premise One is thus led to ask is a sign a demonstration This book reconstructs the history of the notion of demonstration through signs from roughly the third through to the thirteenth century It examines the work of Aristotle s Greek Arabic and Latin commentators both within and outside the tradition of the Posterior Analytics

*Freedom and the Human Person* Richard Velkley, 2007-12 In the Western tradition freedom and the human person have been at the center of philosophical theological moral and political debates since the origins of this tradition Although contemporary discourse betrays the multiplicity of these roots the necessary historical perspective for evaluating them is almost always lacking even in scholarly studies The terms freedom and person carry such overwhelming force in the modern world that the critical distance required for grasping what is at stake in using them is extremely hard to gain The present collection seeks to contribute toward finding that distance by making the tradition of thought more a living reality and not an object of arid analyses Unlike most collections the present one transcends disciplinary boundaries as it acknowledges the interconnectedness of philosophical theological and political arguments on these themes The contributors are prominent authorities in particular historical periods or in figures in Western thought and they treat approaches to freedom and the human person in ancient Greek biblical medieval and modern sources although the major emphasis is on the thought of leading philosophers Plato Boethius Aquinas Ockham Machiavelli Locke Kant Hegel Nietzsche Husserl et al Their essays bring forward profound contrasts in how freedom and personhood have been grounded and characterized notably the contrasts between groundings in natural reason and in supernatural revelation between premodern teleological thinking and modern thinking on self sovereignty without teleology and within modern thought between positions favoring individual autonomy and others securing freedom and its exercise in communal or traditional life Several of the papers shed light on the relations of freedom and personhood to the human powers of speech thought and judgment The contributors to the volume are Seth Benardete Michael Gillespie Leon Kass Robert B Pippin Robert Rethy John M Rist Brian J Shanley O P Susan Meld Shell Robert Sokolowski Eleonore Stump Nathan Tarcov and Michael P Zuckert with Jesse Covington and James Thompson Richard Velkley former professor of philosophy at the Catholic University of America is Celia Scott Weatherhead Professor of

Philosophy at Tulane University He is author of *Freedom and the End of Reason On the Moral Foundation of Kant's Critical Philosophy and Being after Rousseau Philosophy and Culture in Question* *The Problem of Divine Foreknowledge and Future Contingents from Aristotle to Suarez* William Lane Craig, 1988 *Augustine's Invention of the Inner Self* Phillip Cary, 2000 Phillip Cary argues that Augustine invented the concept of the self as a private inner space a space into which one can enter and in which one can find God This study pinpoints what was new about his philosophy of inwardness and situates it within a narrative of his intellectual development and relationship to the Platonist tradition *Augustine's Conversion from Traditional Free Choice to "Non-free Free Will"* Kenneth M. Wilson, 2018-05-25 The consensus view asserts Augustine developed his later doctrines ca 396 CE while writing *Ad Simplicianum* as a result of studying scripture His early *De libero arbitrio* argued for traditional free choice refuting Manichaean determinism but his anti Pelagian writings rejected any human ability to believe without God giving faith Kenneth M Wilson's study is the first work applying the comprehensive methodology of reading systematically and chronologically through Augustine's entire extant corpus works sermons and letters 386-430 CE and examining his doctrinal development The author explores Augustine's later theology within the prior philosophical religious context of free choice versus deterministic arguments This analysis demonstrates Augustine persisted in traditional views until 412 CE and his theological transition was primarily due to his prior Stoic Neoplatonic and Manichaean influences

**Ideas and Forms of Tragedy from Aristotle to the Middle Ages** Henry Ansgar Kelly, 1993-05-13 H A Kelly explores meanings given to tragedy from Aristotle's most basic notion any serious story even with a happy ending via Roman ideas and practices to the Middle Ages when Averroes considered tragedy to be the praise of virtue but Albert the

**Augustine's Invention of the Inner Self : The Legacy of a Christian Platonist** St. David's Phillip Cary Director of the Philosophy Program Eastern College, Pennsylvania, 2000-06-12 In this book Phillip Cary argues that Augustine invented the concept of the self as a private inner space a space into which one can enter and in which one can find God Although it has often been suggested that Augustine in some way inaugurated the Western tradition of inwardness this is the first study to pinpoint what was new about Augustine's philosophy of inwardness and situate it within a narrative of his intellectual development and his relationship to the Platonist tradition Augustine invents the inner self Cary argues in order to solve a particular conceptual problem Augustine is attracted to the Neoplatonist inward turn which located God within the soul yet remains loyal to the orthodox Catholic teaching that the soul is not divine He combines the two emphases by urging us to turn in then up to enter the inner world of the self before gazing at the divine Light above the human mind Cary situates Augustine's idea of the self historically in both the Platonist and the Christian traditions The concept of private inner self he shows is a development within the history of the Platonist concept of intelligibility or intellectual vision which establishes a kind of kinship between the human intellect and the divine things it sees Though not the only Platonist in the Christian tradition Augustine stands out for his devotion to this concept of intelligibility and his

willingness to apply it even to God This leads him to downplay the doctrine that God is incomprehensible as he is convinced that it is natural for the mind's eye when cleansed of sin to see and understand God In describing Augustine's invention of the inner self Cary's fascinating book sheds new light on Augustine's life and thought and shows how Augustine's position developed into the more orthodox Augustine we know from his later writings

**The Oxford Handbook of the History of Ethics** Roger Crisp, 2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades

*Life Concepts from Aristotle to Darwin* Lucas John Mix, 2018-08-29 This book traces the history of life concepts with a focus on the vegetable souls of Aristotle investigating how they were interpreted and eventually replaced by evolutionary biology Philosophers have long struggled with the relationship between physics physiology and psychology asking questions of organization purpose and agency For two millennia the vegetable soul nutrition and reproduction were commonly used to understand basic life and connect it to higher animal and vegetable life Cartesian dualism and mechanism destroyed this bridge and left biology without an organizing principle until Darwin Modern biology parallels Aristotelian vegetable life concepts but remains incompatible with the animal rational subjective and spiritual life concepts that developed through the centuries Recent discoveries call for a second look at Aristotle's ideas though not their medieval descendants Life remains an active chemical process whose cause identity and purpose is self perpetuation

**Social Memory and Social Identity in the Study of Early Judaism and Early Christianity** Samuel Byrskog, Raimo Hakola, Jutta Maria Jokiranta, 2016-09-12 The concepts of social memory and social identity have been increasingly used in the study of ancient Jewish and Christian sources In this collection of articles international specialists apply interdisciplinary methodology related to these concepts to early Jewish and Christian sources The volume offers an up to date presentation of how social memory studies and socio psychological identity approach have been used in the study of Biblical and related literature The articles examine how Jewish and Christian sources participate in the processes of collective recollection and in this way contribute to the construction of distinctive social identities The writers demonstrate the benefits of the use of interdisciplinary methodologies in the study of early Judaism and Christianity but also discuss potential problems that have emerged when modern theories have been applied to ancient material In the first part of the book scholars apply social collective and cultural memory approaches to early Christian sources The articles discuss philosophical aspects of memory

the formation of gospel traditions in the light of memory studies the role of eyewitness testimony in canonical and non canonical Christian sources and the oral delivery of New Testament writings in relation to ancient delivery practices Part two applies the social identity approach to various Dead Sea Scrolls and New Testament writings The writers analyse the role marriage deviant behaviour and wisdom traditions in the construction of identity in the Dead Sea Scrolls Other topics include forgiveness in the Gospel of Matthew the imagined community in the Gospel John the use of the past in Paul s Epistles and the relationship between the covenant and collective identity in the Epistle to the Hebrews and the First Epistle of Clement

*The Problem of Natural Law* Douglas Kries, 2008-01-01 The Problem of Natural Law examines the understanding of conscience offered by Thomas Aquinas who provided the classic statement of natural law The book suggests that natural law theory could be improved by bracketing Thomistic conscience and then shows how a natural law position thus revised would be able to answer the most important critics of natural law in contemporary times
