From Lowbrow To Nobrow:

From Lowbrow to Nobrow Peter Swirski, 2005-10-24 Swirski begins with a series of groundbreaking questions about the nature of popular fiction vindicating it as an artform that expresses and reflects the aesthetic and social values of its readers He follows his insightful introduction to the socio aesthetics of genre literature with a synthesis of the century long debate on the merits of popular fiction and a study of genre informed by analytic aesthetics and game theory Swirski then turns to three nobrow novels that have been largely ignored by critics Examining the aesthetics of arertainment in Karel Capek s War with the Newts Raymond Chandler s Playback and Stanislaw Lem s Chain of Chance crossover tours de force From Lowbrow to Nobrow throws new light on the hazards and rewards of nobrow traffic between popular forms and highbrow aesthetics

Microbreweries, Nanobreweries, and Brewpubs Joseph Peter Klapatch, 2023-05-09 In the mid 1980s the American beer market offered far fewer options than what is available today When microbreweries began to come onto the scene distributors and retailers were skeptical of their new beers and did not believe that these new American brews would be able to compete with imports Newer smaller brewers also had to overcome antiquated laws and strong consumer brand loyalty to major domestic beers After years of struggles microbrewers established a foothold in the American beer market popularized new and previously underappreciated styles and set the stage for a massive proliferation of nanobreweries across the country This book takes a look at these microbreweries prime examples of American enterprise and innovation from an industry outsider's perspective The author explores a select number of small breweries from around the United States covering their signature brews histories and what it took for them to claim their niches in the marketplace

From Literature to Biterature Peter Swirski, 2013-10-01 From Literature to Biterature is based on the premise that in the foreseeable future computers will become capable of creating works of literature Among hundreds of other questions it considers Under which conditions would machines become capable of creative writing Given that computer evolution will exceed the pace of natural evolution a million fold what will such a state of affairs entail in terms of art culture social life and even nonhuman rights Drawing a map of impending literary cultural social and technological revolutions Peter Swirski boldly assumes that computers will leap from mere syntax driven processing to semantically rich understanding He argues that acknowledging biterature as a species of literature will involve adopting the same range of attitudes to computer authors computhurs as to human ones and that it will be necessary to approach them as agents with internal states and creative intentions Ranging from the metafiction of Stanislaw Lem to the Turing test familiar to scientists working in Artificial Intelligence and the philosophers of mind to the evolutionary trends of culture and machines Swirski's scenarios lay the groundwork for a new area of study on the cusp of literary futurology evolutionary cognition and philosophy of the future
