The Sufi Message of Hazrat Inayat Khan: The Sufi Teachings Hazrat Inayat Khan, 2020-09-28 SUFISM has never had a first exponent or a historical origin It existed from the beginning because man has always possessed the light which is his second nature and light in its higher aspect may be called the knowledge of God the divine wisdom in fact Sufism Sufism has always been practiced and its messengers have been people of the heart thus it belonged to the masters as well as to others Tradition states that Adam was the first prophet which shows that wisdom was already the property of the first man There have always been some among the human race who have desired wisdom These sought out spiritual beings in their solitude serving them with reverence and devotion and learning wisdom from them Only a few could understand those spiritual beings but many were attracted by their great personalities They said We will follow you we will serve you we will believe in you we will never follow any other and the holy ones said to them My children we bless you Do this do that This is the best way to live And they gave their followers precepts and principles such as might produce in them meekness and humility In this way the religions were formed But in the course of time the truth was lost The tendency to dominate arose and with it the patriotism of the community and prejudice against others and thus wisdom was gradually lost Religion was accepted though with difficulty but the evolution of the world at that time was not such as could understand the Sufis They were mocked at ill treated ridiculed they were obliged to hide themselves from the world in the caves of the mountains and in

the solitude At the time of Christ there were Sufis among the first of those who gave heed to him and in the time of Muhammad the Sufis on Mount Zafah were the first to respond to his cry One of the explanations of the term Sufi is this association with Mount Zafah Muhammad was the first to open the way for them in Arabia and they had many followers among them Sadik and Ali St. Nicholas Mary Mapes Dodge,1926 *The Princess Who Loved All* Elizabeth A. Long Live Magic Xun HuanJiaoZhu,2020-06-12 What was the martial arts world Sword lights sword shadows grudges and enmity the love between a child and a girl this was the martial arts world People of the martial arts world were always involved in matters of the martial arts world and wherever there were people there would be people of the martial arts world Humans were the martial arts world **Answered Prayers** Eileen Oktavec,1995-10 Documents the tradition of offering a milagro depicting the object desired to saints as practiced by Mexicans Mexican Americans Tohono O odham Indians and Yaqui Indians **The Sufi Message of Hazrat Inayat Khan: The Smiling Forehead** Hazrat Inayat Khan,2020-09-28 By forehead is meant man s expression The smiling forehead is the pleasant expression it depends solely upon man s attitude to life Life is the same for the saint and for Satan and if men are different it is because of their outlook on life The same life is turned by the one into heaven and by the other into hell There are two attitudes to one all is wrong to the other all is right Our life in the world from morning to evening is full of experiences good and bad which can be distinguished according to their degree And the more we study the mystery of good and bad the more we see that there really is no such thing as good and bad It is because of our attitude and the conditions that things seem good or bad It is easy for an ordinary person to say what is good or bad just or unjust it is very difficult for a wise man Although everyone according to his outlook on life turns things from bad to good and from good to bad everyone has his own grade of evolution and reasons accordingly Sometimes one thing is subtler than others and then it is difficult to judge There was a time when Wagner s music was not understood

and another time when he was considered the greatest of musicians Sometimes things are good but our own evolution makes them less good for us What we considered good a few years ago may not seem good at a later degree of evolution At one time a child appreciates a doll most later it will prefer the work of great sculptors This proves that at every step and degree of evolution man's idea of good and bad changes Therefore a thinker will understand that there is no such thing as right or wrong If there is wrong all is wrong if there is right all is right
