From Catastrophe To Power:

The International Diplomacy of Israel's Founders John Quigley, 2016-02 This book shows the deception by omission used at the United Nations to gain backing for Jewish statehood in Palestine *Jewish Displaced Persons in Italy 1943-1951* Chiara Renzo, 2023-08-04 This book focuses on the experiences of thousands of Jewish displaced persons DPs who lived in refugee camps in Italy between the liberation of the southern regions in 1943 and the early 1950s waiting for their resettlement outside of Europe It explores the Jewish DPs daily life in the refugee camps and what this experience of displacement meant to them This book sheds light on the dilemmas the Jewish DPs faced when reconstructing their lives in the refugee camps after the Holocaust and how this challenging process was deeply influenced by their interaction with the humanitarian and political actors involved in their rescue rehabilitation and resettlement Relating to the peculiar context of post fascist Italy and the broader picture of the postwar refugee crisis this book reveals overlooked aspects that contributed to the making of an incredibly diverse and lively community in transit able to elaborate new paradigms of home belonging and family *Reporting the Holocaust in the British, Swedish and Finnish Press, 1945-50* A. Holmila, 2011-06-24 Examining how the press in Britain Sweden and Finland responded to the Holocaust immediately after the Second World War Holmila offers new insights into the challenge posed by the Holocaust for liberal democracies by looking at the reporting of the liberation of the camps the Nuremberg trial and the Jewish immigration to Palestine From Catastrophe to Power Idith Zertal, 1998 Details the clandestine immigration to Palestine of Jewish refugees most of them Holocaust survivors that was organized by Palestinian Zionists just after World War II *After They Closed the Gates* Libby Garland, 2014-03-28 In 1921 and 1924 the United States passed laws to sharply reduce the influx of immigrants into the country By allocating only small quotas to the nations of southern and eastern Europe and banning almost all immigration from Asia the new laws were supposed to stem the tide of foreigners considered especially inferior and dangerous However immigrants continued to come sailing into the port of New York with fake passports or from Cuba to Florida hidden in the holds of boats loaded with contraband liquor Jews one of the main targets of the quota laws figured prominently in the new international underworld of illegal immigration However they ultimately managed to escape permanent association with the identity of the illegal alien in a way that other groups such as Mexicans thus far have not In *After They Closed the Gates* Libby Garland tells the untold stories of the Jewish migrants and smugglers involved in that underworld showing how such stories contributed to growing national anxieties about illegal immigration Garland also helps us understand how Jews were linked to and then unlinked from the specter of illegal immigration By tracing this complex history Garland offers compelling insights into the contingent nature of citizenship belonging and Americanness *Israel's Holocaust and the Politics of Nationhood* Idith Zertal, 2005-07-11 The ghost of the Holocaust is ever present in Israel in the lives and nightmares of the survivors and in the absence of the victims In this compelling and disturbing analysis Idith Zertal a leading member of the new generation of

revisionist historians in Israel considers the ways Israel has used the memory of the Holocaust to define and legitimize its existence and politics Drawing on a wide range of sources the author exposes the pivotal role of the Holocaust in Israel s public sphere in its project of nation building its politics of power and its perception of the conflict with the Palestinians She argues that the centrality of the Holocaust has led to a culture of death and victimhood that permeates Israel s society and self image For the updated paperback edition of the book Tony Judt the world renowned historian and political commentator has contributed a foreword in which he writes of Zertal s courage the originality of her work and the unforgiving honesty with which she looks at the moral condition of her own country

Refugees, Human Rights and Realpolitik Daphna

Sharfman,2019-01-14 This book presents a multidimensional case study of international human rights in the immediate post Second World War period and the way in which complex refugee problems created by the war were often in direct competition with strategic interests and national sovereignty The case study is the clandestine immigration of Jewish refugees from Italy to Palestine in 1945 1948 which was part of a British Zionist conflict over Palestine involving strategic and humanitarian attitudes The result was a clear subjection of human rights considerations to strategic and political interests

Muslims and Jews in France Maud S. Mandel,2016-08-02 This book traces the global national and local origins of the conflict between Muslims and Jews in France challenging the belief that rising anti-Semitism in France is rooted solely in the unfolding crisis in Israel and Palestine Maud Mandel shows how the conflict in fact emerged from processes internal to French society itself even as it was shaped by affairs elsewhere particularly in North Africa during the era of decolonization Mandel examines moments in which conflicts between Muslims and Jews became a matter of concern to French police the media and an array of self appointed spokesmen from both communities Israel s War of Independence in 1948 France s decolonization of North Africa the 1967 Arab Israeli War the 1968 student riots and François Mitterrand s experiments with multiculturalism in the 1980s She takes an in depth on the ground look at interethnic relations in Marseille which is home to the country s largest Muslim and Jewish populations outside of Paris She reveals how Muslims and Jews in France have related to each other in diverse ways throughout this history as former residents of French North Africa as immigrants competing for limited resources as employers and employees as victims of racist aggression as religious minorities in a secularizing state and as French citizens In *Muslims and Jews in France* Mandel traces the way these multiple complex interactions have been overshadowed and obscured by a reductionist narrative of Muslim Jewish polarization

From Catastrophe to Power Idith Zertal,2023-12-22 In a book certain to generate controversy and debate Idith Zertal boldly interprets a much revered chapter in contemporary Jewish and Zionist history the clandestine immigration to Palestine of Jewish refugees most of them Holocaust survivors that was organized by Palestinian Zionists just after World War II Events that captured the attention of the world such as the Exodus affair in the summer 1947 are seen here in a strikingly new light At the center of Zertal s book is the Mossad a small unorthodox Zionist organization whose mission beginning in 1938 was to

bring Jews to Palestine in order to subvert the British quotas on Jewish immigration From Catastrophe to Power scrutinizes the Mossad's mode of operation its ideology and politics its structure and history and its collective human profile as never before Zertal's moving story sweeps across four continents and encompasses a range of political cultures and international forces But underneath this story another darker and more complex plot unfolds the special encounter between the Zionist revolutionary collective and the mass of Jewish remnant after the Holocaust According to Zertal this psychologically painful yet politically powerful encounter was the Zionists most effective weapon in their struggle for a sovereign Jewish state Drawing on primary archival documents and new readings of canonical texts of the period she analyzes this encounter from all angles political social cultural and psychological The outcome is a gripping and troubling human story of a crucial period in Jewish and Israeli history one that also provides a key to understanding the fundamental tensions between Israel and the Jewish communities and Israel and the world today In a book certain to generate controversy and debate Idith Zertal boldly interprets a much revered chapter in contemporary Jewish and Zionist history the clandestine immigration to Palestine of Jewish refugees most of them Holocaust survivors that was Civilization and the Transformation of Power Jim

mindset Catastrophic events and predictions have spurred new interest in re-examining the history of earlier disasters and

the social and conceptual resources they have mobilized The essays gathered in this volume reconsider the history and theory of different catastrophes and their aftermath The emphasis is on the need to distance this process of reconsideration from previous teleological representations of catastrophes as an endpoint and to begin considering their operative aspects which unmask the nature of social and political structures Among the essays in this volume are analyses by leading scholars in their respective fields concerning the role of catastrophes in theology in the history of industrial accidents in theory of history in the history of law in catastrophe films in the history of cybernetics in post Holocaust discussions of reparations and in climate change

The Flaming Sword, 1924 **Chaos and the Automaton** Franco 'Bifo' Berardi, 2025-04-22 Facing real threats of extinction and futurelessness a search for new ground on which to build projects toward emancipation Chaos and the Automaton is the first volume to collect Franco Bifo Berardi's extensive collaboration with e flux which has become one of his primary English language publishers since 2010 The selection of key essays collected here presents Berardi's prescient interventions into more than a decade of social turmoil offering a tour through the cataclysms that have rocked the foundations of the global order since the 2008 financial crisis from European austerity Occupy the Arab Spring and Anonymous through the ascendance of Pope Francis Brexit Covid 19 the Trump Biden sequence the U S Capitol riots and the Russian invasion of Ukraine as well as bizarre new cultural occurrences that were consequences Berardi draws not only from current events but also movements and figures at the firmament of his thought such as Guattari Pasolini and Italian street art of the 1970s His essays represent a sustained and singular effort to reveal the psychic and material underpinnings of a society in which history came roaring back at the same moment as any vision of a sustainable future receded from sight I know that it is dangerous to write in simultaneity with events that nobody can precisely foresee that can only be vaguely intuited he wrote on the eve of the 2020 American elections but the only way to imagine something about the becoming of the psycho sphere is to run ahead of the dynamics of the disaster

Surplus-Enjoyment Slavoj Žižek, 2022-08-11 Contemporary life is defined by excess There must always be more there is never enough We need a surplus to what we need to be able to truly enjoy what we have Slavoj Žižek's guide to surplus and why it's enjoyable begins by arguing that what is surplus to our needs is by its very nature unsubstantial and unnecessary But perversely without this surplus we wouldn't be able to enjoy what is substantial and necessary Indeed without the surplus we wouldn't be able to identify what was the perfect amount Is there any escape from the vicious cycle of surplus enjoyment or are we forever doomed to simply want more Engaging with everything from The Joker film to pop songs and Thomas Aquinas to the history of pandemics Žižek argues that recognising the society of enjoyment we live in for what it is can provide an explanation for the political impasses in which we find ourselves today And if we begin even a little bit to recognise that the nuggets of enjoyment we find in excess are as flimsy and futile might we find a way out
