Contemporary Black Thinkers in the Diaspora and Their Conceptualizations of Africa Abdul Karim Bangura,2024-08-24 This book contends that Afrocentricity and other ideas birthed by major contemporary Black thinkers in the Diaspora are wellsprings for helping to build a new Africa This book examines these ideas which have given rise to the Africanist Perspective on the Motherland to place Africa at the center of all intellectual discourses pertaining to African people everywhere while at the same time challenging the pervasive and pernicious Eurocentric myth of African people being inactive agents in history These contributions from a global range of scholars across disciplines examine the work of contemporary great Black thinkers as sources that can be employed to help in the construction of a new Africa Each chapter examines how these thinkers conceptualized Africa in their works with the main objective of delineating their conceptualizations to generate suggestions on how to rebuild the continent **Social Movements and the Indian Diaspora**

Movindri Reddy,2015-11-19 With the elevation of Islam and Muslim transnational networks in international affairs from the rise of Al Qaeda to the revolutions in North Africa and the Middle East the study of Diasporas and transnational identities has become more relevant Using case studies from Fiji Mauritius Trinidad and South Africa this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora It analyses the way in which diasporas are defined by themselves and others and the types of social movements they participate in showing how these are critical indicators of the threat they are perceived to pose The book examines the notions of national and

transnational identity and how they are determined by the placement of Diasporas in the transnational locality It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation state and simultaneously separates them from the perceived motherland thus displacing them from both states and situating them in a transnational locality It is from this placement that social movements among Diasporas gain salience As outsiders and insiders they are well placed to offer a formidable challenge to the host state but these challenges are limited by their hybrid identities and perceived divided loyalties Providing an in depth analysis of Indian Diasporas the book will be of interest to those studying South Asian Studies Migration and Diaspora Studies **Associated Statehood in International Law** James D.
