From Eve's Rib Gioconda Belli, 1993 Gioconda Belli s poetry widely published and revered in Latin America and Europe celebrates the longing for a society in which humanity constructs its future animated by an inextinguishable erotic maternal and transcendently loving desire As Salman Rushdie wrote in his book The Jaguar Smile A Nicaraguan Journey her poetry is a kind of public love poetry that comes closer to expressing the passion of Nicaragua than anything I have yet heard

**The Roman Baths and Macellum at Wroxeter** Peter Ellis, 2014-04-15 Excavations by Graham Webster at Wroxeter Viroconium Cornoviorum were undertaken on the southern part of the insula containing the baths and market hall macellum the latter one of few known in the province The excavations enable the construction sequence and function of these major public buildings to be unravelled and analysed in detail on an insula untouched by medieval or later buildings The work revealed that timber framed buildings constructed c

AD 90 and fronting on Watling Street were swept away to accommodate the public buildings which were built over several decades between the 120s and 160s. Changes were introduced in the third century when a swimming pool *natatio* was filled in and an additional baths suite was built in the exercise yard to one side of the main baths complex. Excavations in the street porticoes and on Watling Street revealed a continued use of some of the buildings into the fifth century after their original functions had ceased. The artefact and environmental finds reports are on material deriving mainly from the initial building campaign but with some third century groups. The report includes an edition and compilation of the accounts of the nineteenth century excavations by Thomas Wright and others.

Greenstein,2016-08-23

Depicting the Creation of Woman presented a special problem for Renaissance artists The medieval iconography of Eve rising half formed from Adam s side was hardly compatible with their commitment to the naturalistic representation of the human figure At the same time the story of God constructing the first woman from a rib did not offer the kind of dignified affective pictorial narrative that artists patrons and the public prized Jack M Greenstein takes this artistic problem as the point of departure for an iconographic study of this central theme of Christian culture His book shows how the meaning changed along with the form when Lorenzo Ghiberti Andrea Pisano and other Italian sculptors of the fourteenth and fifteenth

centuries revised the traditional composition to accommodate a naturalistically depicted Eve At stake Greenstein argues is the role of the artist and the power of image making in reshaping Renaissance culture and religious thought From Eve to Esther Leila Leah Bronner,1994-01-01 This is the first book length attempt to focus on female biblical figures in the ancient rabbinic writings of midrash and Talmud Primary rabbinic sources employed by the author bring new life and insight into the stories of Eve Deborah Hannah Serah bat Asher and others As women and men today attempt to reevaluate past historical models it serves us well to understand the values and inner workings of rabbinic thinking The examination of what the sources actually say and not what others would like them to have said enable reinterpretation of women s role to proceed on an honest and authentic basis Biblical women reclaimed with contemporary midrash can become paradigms for our modern lives *From Eve to Evolution* Kimberly A. Hamlin,2014-05-08 From Eve to Evolution provides the first full length study of American women s responses to evolutionary theory and illuminates the role science played in the nineteenth century women s rights movement Kimberly A Hamlin reveals how a number of nineteenth century women raised on the idea that Eve s sin forever fixed women s subordinate status embraced Darwinian evolution especially sexual selection theory as explained in The Descent of Man as an alternative to the creation story in Genesis Hamlin chronicles the lives and writings of the women who combined their enthusiasm for evolutionary science with their commitment to women s rights including Antoinette Brown Blackwell Eliza Burt Gamble Helen Hamilton Gardener Charlotte Perkins Gilman and Elizabeth Cady Stanton These Darwinian feminists believed evolutionary science proved that women were not inferior to men that it was natural for mothers to work outside the home and that women should control reproduction The practical applications of this evolutionary feminism came to fruition Hamlin shows in the early thinking and writing of the American birth control pioneer Margaret Sanger Much scholarship has been dedicated to analyzing what Darwin and other male evolutionists had to say about women but very little has been written regarding what women themselves had to say about evolution From Eve to Evolution adds much needed female voices to the vast literature on Darwin in America Eve's Second Husband Corra Harris,1911
