*Encyclopedia of Journalists on Film* Richard R. Ness, 2020-01-15 From *All the President's Men* to *Zodiac*, some of the most compelling films of the last century have featured depictions of journalists in action. While print journalism struggles to survive, the emergence of news from social media outlets continues to expand, allowing the world to be kept informed on a second-by-second basis. Despite attacks on journalists, both verbal and physical, a free press remains a crucial bastion for civilized society. And just as the daily news reflects the current state of affairs, films about journalism represent how reporting has evolved over the last few centuries.

In *Encyclopedia of Journalists on Film*, Richard R. Ness provides a comprehensive examination of the fourth estate in cinema, from newspaper reporters to today's cyber journalists. In this volume, Ness provides in-depth descriptions and analyses of more than five hundred significant films from the silent era to the present, including international productions and made-for-television movies. The entries focus on the image of the press on screen and ethical issues or concerns raised about the practices of the profession. Collectively, the entries demonstrate that there is a recognizable genre of journalism films with definable plot patterns and iconography. Each entry features major credits, including directors, writers, and producers; a list of characters and the actors who portray them; running time; plot synopsis; analysis of the role of journalism; and many of the entries feature critical reviews as well as cogent selections of dialogue.

Films discussed here include comedies such as *His Girl Friday* (1940), nail-biting thrillers like *Foreign Correspondent* (1940) and *The Parallax View* (1974), social commentaries like *Network* (1976) and *The China Syndrome* (1979), dramas like *Citizen Kane* (1941) and *The Post* (2017), and of course Academy Award winners *All the President's Men* (1976) and *Spotlight* (2015). A definitive study of a film genre, *Encyclopedia of Journalists on Film* will be of interest to film scholars, researchers, journalists, and students of popular culture.

**The Soundtrack Album** Paul N. Reinsch, Laurel Westrup, 2020-02-17 The *Soundtrack Album*: Listening to Media offers the first sustained exploration of the soundtrack album as a distinctive form of media. Soundtrack albums have been part of our media and musical landscape for decades, enduring across formats from vinyl and 8 tracks to streaming playlists. This book makes the case that soundtrack albums are more than promotional tools for films, television shows, or video games; they are complex media texts that reward a detailed analysis. The collection's contributors explore a diverse range of soundtrack albums, from *Super Fly* to *Stranger Things*, revealing how these albums change our understanding of the music and film industries and the audio-visual relationships that drive them. An excellent resource for students of Music Media Studies and Film Screen Media courses, *The Soundtrack Album* offers interdisciplinary perspectives and opens new areas for exploration in music and media studies.

**Basic Concept of Journalism** Branden Salas, 2018-10-15 Journalism is a form of communication, but it's distinct from other forms. It is unique because it's a one-way

message or story from the journalist to the audience It s most unique because the message isn t the journalist s personal story or subjective thoughts Instead the journalist acts as a conduit narrating an objective story about something that happened or is happening based on his or her observations and discoveries Journalism can be distinguished from other activities and products by certain identifiable characteristics and practices These elements not only separate journalism from other forms of communication they are what make it indispensable to democratic societies History reveals that the more democratic a society the more news and information it tends to have Journalism means writing for newspapers or magazines It is the communication of information through writing in periodicals and newspapers The people have an inborn desire to know what s novel or new This curiosity is satisfied by the journalists through their writing in the newspapers and journals on current affairs and news This book provides a lively and authoritative introduction to journalism in all its forms The focus of the book is to show how journalists do their job not only by explaining the process but also by hearing from those who do it on a daily basis The book is a product of communication revolution and changing mass communication perspectives
