Decisions of the Department of the Interior and the General Land Office in Cases Relating to the Public Lands United States. Department of the Interior, 1887 Made in Africa Steve Webb, 2018-05-07 Made in Africa Hominin Explorations and the Australian Skeletal Evidence describes and documents the largest collection of modern human remains in the world from its time period. These Australian fossils, which represent modern humans at the end of their great 20,000 km journey from Africa, may be reburied in the next two years at the request of the Aboriginal community. Part one of the book provides an overview of modern humans, their ancestors, and their journeys; it explores the construct of human evolution over the last two and half million years and defines the background to the first hominins and later modern humans to leave Africa, cross the world, and meet other archaic peoples who had also travelled and undergone similar evolutionary pathways. Part two focuses on Australia and the evidence for its earliest people. The Willandra Lakes fossils represent the earliest arrivals and are the largest and most diverse late Pleistocene collection from this part of the world. Although twenty to twenty-five thousand years younger than the oldest archaeological site in Australia, they exemplify the migrating end point of the human story that reflect a diversity and culture not recorded elsewhere in the world. Part three records the Willandra Lake Collection itself from a photographic and descriptive perspective. Evolutionary biologists and geneticists will find this book to be a valuable documentation of the 20,000 km hominid migration from Africa to the most distant parts of the world and of the challenges and findings of the Willandra Lake Collection. Provides perspective for dispersal of the earliest hominins from Africa and the possible routes they took. Describes both the evolutionary development and demographic exit of intermediate and modern humans from Africa and incorporates the final stages of modern human migrations. Provides a full documentation of the Willandra Lakes skeletal collection and its place in developing a picture of the earliest as well as later Aboriginal Australians S. 2480--S. 2663 United States. Congress. Senate. Select Committee on Indian Affairs, 1984

Reclamation Accomplishments, 1905-1953, Klamath Project, Oregon-California United States. Bureau of Reclamation, 1953 Annual Report Canada. Reclamation Service, 1920 **Annual Report of the Reclamation Service** Canada. Reclamation Service, 1920 The Great Basin Donald Grayson, 2011-04-18 Covering a large swath of the American West, the Great Basin centered in Nevada and including parts of California, Utah, and Oregon is named for the unusual fact that none of its rivers or streams flow into the sea. This fascinating illustrated journey through deep time is the definitive environmental and human history of this beautiful and little-traveled region home to Death Valley, the Great Salt Lake, Lake

Tahoe and the Bonneville Salt Flats Donald K Grayson synthesizes what we now know about the past 25 000 years in the Great Basin its climate lakes glaciers plants animals and peoples based on information gleaned from the region s exquisite natural archives in such repositories as lake cores packrat middens tree rings and archaeological sites A perfect guide for students scholars travelers and general readers alike the book weaves together history archaeology botany geology biogeography and other disciplines into one compelling panorama across a truly unique American landscape **Draft**
