From Joseph The Second To The Jacobin Trials:

Joseph II T C W Blanning, 2013-11-26 Joseph II 1741 90 son and eventual successor of Maria Theresa has conventionally been seen in the context of the Enlightened Despot reformers Today s turmoil in his former territories invites a rather different perspective however as Joseph grapples with the familiar and intractable problems of creating a viable unitary state out of his multi national empire in Central Europe Professor Blanning s brilliant short study based on extensive archival research offers a history of the Habsburg monarchy in the eighteenth century as well as a revaluation of the emperor s complex personality and his ill fated reform programme Speculative Freemasonry and the Enlightenment R. William Weisberger, 2017-10-13 Freemasonry began with stonemasons in the Middle Ages experiencing the decline of cathedral building Some guilds invited honorary memberships to boost their numbers These usually highly educated new members practiced symbolic or speculative Freemasonry The new Masonic lodges and learned societies offered their growing numbers of Protestant Catholic and Jewish members an understanding of deism Newtonian science and representative government and of literature and the fine arts This work describes how Masons on both sides of the Atlantic were mostly either enlighteners political reformers or moderate revolutionaries They offered minimal support to radical revolutionary ideas and leaders **History Society Church** Derek Beales, Geoffrey Best, 2005-11-03 Essays by distinguished historians in honour of the just retired Regius Professor of Modern History **Mozart, Haydn and Early Beethoven, 1781-1802** Daniel Hertz, 2009 A vivid portrait of Mozart and Haydn s greatest achievements and young Beethoven s works under their influence **The Habsburg Empire 1700-1918** Jean Berenger, C.A. Simpson, 2014-09-19 This is the eagerly awaited second volume of Jean B reneger s history of the Habsburgs It covers the last two centuries of their rule and provides a compelling account of the fluctuations of Habsburg dynastic power and its disintegration after World War One B reneger gives a rich portrait of Habsburg greatness under Maria Theresa and Joseph II and shows how their successors proved more adroit at riding the tide of nationalism in their multi ethnic empire than is often recognised Zauberflote Peter Branscombe, 1991-05-31 Few operas have had more written about them than The Magic Flute yet few are as often exposed to misguided comment or to idiosyncratic productions This book sets out to provide a straightforward account of Mozart s last opera exposing the half truths and legends that have proliferated since its first production in 1791 In the first chapter a hitherto unsuspected source for the opening scene is presented and Branscombe reveals the complex relationship between the stories essays and stage works on which the plot is based The second chapter studies the intellectual background with special attention to Freemasonry A detailed synopsis follows then the history of the composition based on documentary evidence and in the case of the autograph score the paper types used Chapter 5 examines the identity of the librettist and the qualities of his work and chapter 6 is a detailed study by Erik Smith of Mozart s music and more generally of his late style Chapter 7 covers the first performance the cast early reception and then the rapid growth in the opera s fame an outline

history of productions concludes the chapter Anthony Besch discusses the nature of the challenge to the director presented by Die Zauberflöte and suggests how the problems can be overcome The book contains illustrations a synopsis bibliography and discography and will be of interest to music students scholars and opera goers **Enlightenment Volume 2** Peter Gay, 2013-06-26 The Science of Freedom completes Peter Gay's brilliant reinterpretation begun in The Enlightenment The Rise of Modern Paganism In the present book he describes the philosophes' program and their views of society His masterful appraisal opens a new range of insights into the Enlightenment's critical method and its humane and libertarian vision

The Age of the Democratic Revolution: The struggle R. R. Palmer, 1959 Primary source **The Counter-Reformation** Anthony D. Wright, 2017-09-29 Modern scholarship has effectively demonstrated that far from being a knee jerk reaction to the challenges of Protestantism the Catholic Reformation of the sixteenth and seventeenth centuries was fuelled primarily by a desire within the Church to reform its medieval legacy and to re-enthuse its institutions with a sense of religious zeal In many ways both the Protestant and Catholic Reformations were inspired by the same humanist ideals and though ultimately expressed in different ways the origins of both movements can be traced back to the patristic revival of the fifteenth and sixteenth centuries Nevertheless it is undeniable that many contemporaries and subsequent historians came to view the Catholic Reformation as an attempt to challenge the Protestants and to cut the ground from beneath their feet In this new revised edition of Dr Wright's groundbreaking study of the Counter Reformation the wide panoply of the Catholic Reformation is spread out and analysed within the political religious philosophical scientific and cultural context of late medieval and early modern Europe In so doing this book provides a fascinating guide to the many doctrinal and interrelated social issues involved in the wholesale restructuring of religion that took place both within Western Europe and overseas

The Enlightenment Peter Gay, 1996 The Enlightenment Peter Gay v II **Age of the Democratic Revolution: A Political History of Europe and America, 1760-1800, Volume 2** R. R. Palmer, 2021-07-13 For the Western world as a whole the period from about 1760 to 1800 was the great revolutionary era in which the outlines of the modern democratic state came into being It is the thesis of this major work that the American French and Polish revolutions and the movements for political change in Britain Ireland Holland Belgium Switzerland Sweden and other countries although each distinctive in its way were all manifestations of recognizably similar political ideas needs and conflicts Volume 1 of this distinguished two volume work The Challenge received critical accolades throughout the world It was the winner of the Bancroft Prize in 1960 and was called one of the classic works of American historical scholarship Key Reporter and a book which will enlarge and clarify our understanding of modern Western history It will re-emphasize the strength and vitality of the roots that supported the growth of democracy in the Old and New Worlds New York Times Occasionally a historical work appears which by synthesis of much previous specialized work and by intelligent reflection upon the whole makes events of the past click into a new pattern and assume fresh meaning Professor Palmer's book is such a work American Historical Review The Challenge

took the story to the eve of the French Revolutionary wars Volume 2 The Struggle continues the account to 1800

Freemasonry on Both Sides of the Atlantic Richard William Weisberger, Wallace McLeod, S. Brent Morris, 2002

Contributors to this study examine major features and legacies of operative and speculative Freemasonry in the British Isles and assess their impact upon civic cultures classes and institutions in both Europe and America The volume contains incisive chapters about Freemasonry in colonial and revolutionary America and about the salient role of the craft in Mexico

Germany Marshall Dill, 1970 A dominantly political and social approach to Germany's history through the centuries from its pre Christian era to today **Joseph II** Paul P. Bernard, 1968 **Theories and Origins of the Modern Police** Clive

Emsley, 2017-07-05 This volume is the first of four that will provide some of the most significant English language articles on the historical development of the police institution The articles included in this volume are broadly of two kinds The first introduce some of the theoretical outlines that have been suggested for the origins and development of modern police institutions across Europe The second explore the systems of enforcement and the criticisms of them that had emerged on the eve of the revolutionary upheavals which convulsed Europe and inflicted a terminal blow to the ancien r me at the close of the eighteenth century **Anti-Jacobins** Emily L De, 1988-03-15 **The Classical Era** Professor Neal

Zaslaw, 2016-07-14 From the series examining the development of music in specific places during particular times this book looks at the classical period in Europe and America from Vienna and Salzburg to the Iberian courts and Philadelphia

Austria's Wars of Emergence, 1683-1797 Michael Hochedlinger, 2015-12-22 The Habsburg Monarchy has received much historiographical attention since 1945 Yet the military aspects of Austria's emergence as a European great power in the seventeenth and eighteenth centuries have remained obscure This book shows that force of arms and the instruments of the early modern state were just as important as its marriage policy in creating and holding together the Habsburg Monarchy Drawing on an impressive up to date bibliography as well as on original archival research this survey is the first to put Vienna's military back at the centre stage of early modern Austrian history *Books in Series* , 1985 Vols for 1980 issued in three parts Series Authors and Titles *Antonio Salieri and Viennese Opera* John A. Rice, 1998 Publisher Description
