The Highroad Around Modernism Robert C. Neville,1992-01-01 Discussions of modernism and postmodernism in philosophy and the arts are usually based on a narrow reading of the Western tradition and are not conscious of the narrowness The modern period beginning with the European Renaissance spawned many developments not just the modernist one in terms of which the tradition has been read From the standpoint of the highroad around modernism both modernism and post modernism look like nothing more than two late modern movements perhaps too preoccupied with themselves and their historical place to engage a swiftly changing world containing more than the Western tradition The Highroad Around Modernism develops and defends an explicitly non modernist and non postmodernist extension of modernity applicable to the problems of world wide cultural interactions

Explaining Postmodernism Stephen Ronald Craig Hicks,2004

The Politics of Postmodernity James Good,Irving Velody,1998-07-23 In his study Modernity and the Holocaust Zygmunt Bauman contrasts the hopes and expectations of the modernising world of the nineteenth century with the real outcomes of the twentieth century where the very conditions of modernity have led to the mass destruction of humanity and of those early hopes for the betterment of humankind This volume explores the possibilities left to those once modernising societies not only in terms of the worlds they have constructed but also in discerning the novel conditions which the closure of modernity entails That closure in part the completion of industrialisation and the social order that went with it and in part the

dislocation of the kinds of social knowledge used to understand it has raised profound and disturbing questions about the character of this brave new world and the ways in which its governance and the goal of the good society can be understood. This volume explores some of the current vicissitudes of modernity especially in relation to the crises of the political and the political consequences of new technologies.
