From Biotech To Hollywood New Career Opportunities In Technology:

From Biotech to Hollywood Debra A. Benton, 2002 From the author of the bestselling *How to Think Like a CEO The 22 Vital Traits You Need to Be the Person at the Top* comes a guide that will teach you step by step how to land the job you've always dreamed of in the high tech world. Countless job and career opportunities abound within the high tech arena and they are not always where one would expect to find them. Whether you want to enter the tech world or are already in it and want to accelerate your career growth, Debra A. Benton will show you what it takes to achieve phenomenal success. *From Biotech to Hollywood* offers advice on everything from becoming the leading candidate, increasing one's name recognition and selling oneself to working with headhunters and negotiating the deal. Here Benton demystifies every stage of the search process and includes tips from dozens of high tech players, CEOs and executives as well as executive recruiters and VCs such as Richard Johnson, CEO, hotjobs.com; Jack Shields, general partner, Best Capital Ventures; and executive recruiter Hal Johnson, senior partner, TMP Worldwide. Share their valuable insights and advice on every aspect of the process, including how to move with confidence among companies, technical areas and industries.

Forthcoming Books Rose Arny, 2003 [American Book Publishing Record](#), 2003 **The Writers Directory**, 2013 *Managing the Drug Discovery Process* Susan Miller, Walter Moos, Barbara Munk, Stephen Munk, 2016-11-08 *Managing the Drug Discovery Process: How to Make It More Efficient and Cost Effective* thoroughly examines the current state of pharmaceutical research and development by providing chemistry-based perspectives on biomedical research, drug hunting and innovation. The book also considers the interplay of stakeholders, consumers and the drug firm with attendant factors including those that are technical, legal, economic, demographic, political, social, ecological and infrastructural. Since drug research can be a high risk, high payoff industry, it is important to researchers to effectively and strategically manage the drug discovery process. This book takes a closer look at increasing pre-approval costs for new drugs and examines not only why these increases occur but also how they can be overcome to ensure a robust pharmacoeconomic future. Written in an engaging manner and including memorable insights, this book is aimed at redirecting the drug discovery process to make it more efficient and cost effective in order to achieve the goal of saving countless more lives through science. A valuable and compelling resource, this is a must-read for all students and researchers in academia and the pharmaceutical industry. Considers drug discovery in multiple R & D venues including big pharma, large biotech, start-up ventures, academia and nonprofit research institutes. Analyzes the organization of pharmaceutical R & D, taking into account human resources considerations like recruitment and configuration, management of discovery and development processes and the coordination of internal research within and beyond the organization, including outsourced work. Presents a consistent, well-connected and logical dialogue that readers will find both comprehensive and approachable.
