*From Fanatics to Folk* Patricia R. Pessar, 2004-01-28 Complicates conventional understandings of millenarianism by blurring the divides erected around specific movements analyzes why religion is often erased from discussions of Brazilian millenarianism and considers how religion and politics are entwined in The Oxford Handbook of Latin American Christianity David Thomas Orique, Susan Fitzpatrick-Behrens, Virginia Garrard, 2020 Latin America where 90% of the population is Christian and where nearly 40% of the world's Catholics reside has its own unique brand of Christianity The Oxford Handbook of Latin American Christianity offers a survey of Latin American Christianity from thirty three leading scholars The volume systematically introduces and examines dramatic shifts in Catholic and Protestant Christianity over the course of several centuries Its four sections explore the emergence of colonial Christianity its institutional and popular evolution and its dynamic role the region's contemporary developments *Local Memories in a Nationalizing and Globalizing World* M. Beyen, B. Deseure, 2015-03-10 In historical studies collective memory is most often viewed as the product of nationalizing strategies carried out by political elites in the hope to create homogeneous nation states In contrast this book asserts that collective memories develop out of a never ending triangular negotiation between local national and transnational actors The Vigorous Core of Our Nationality Stanley E. Blake, 2016-01-01 The Vigorous Core of Our Nationality explores conceptualizations of regional identity and a distinct population group known as nordestinos in northeastern Brazil during a crucial historical period Beginning with the abolition of slavery and ending with the demise of the Estado Novo under Getúlio Vargas Stanley E Blake offers original perspectives on the paradoxical concept of the nordestino and the importance of these debates to the process of state and nation building Since colonial times the Northeast has been an agricultural region based primarily on sugar production The area's population was composed of former slaves and free men of African descent indigenous Indians European whites and mulattos The image of the nordestino was for many years linked with the predominant ethnic group in the region the Afro Brazilian For political reasons however the conception of the nordestino later changed to more closely resemble white Europeans Blake delves deeply into local archives and determines that politicians intellectuals and other urban professionals formulated identities based on theories of science biomedicine race and social Darwinism While these ideas served political social and economic agendas they also inspired debates over social justice and led to reforms for both the region and the people Additionally Blake shows how debates over northeastern identity and the concept of the nordestino shaped similar arguments about Brazilian national identity and true Brazilian people **Gender, Catholicism, and Morality in Brazil** M. Mayblin, 2010-03-29 Through the ethnography of a Catholic community in Northeast Brazil Maya Mayblin offers a vivid and provocative rethink of gendered portrayals of Catholic life For the residents of Santa Lucia life is conceptualized as a series of moral tradeoffs between the sinful and productive world against an idealized state of innocence conceived with reference to local Catholic teachings As marriage

marks the beginning of a productive life in the world it also marks a phase in which moral personhood comes most actively and poignantly to the fore This book offers lucid observations on how men and women as husbands and wives fathers and mothers negotiate this challenge As well as making an important contribution to the ethnographic literature on morality Christianity and Latin America the book offers a compelling alternative to received portrayals of gender polarity as symbolically all encompassing throughout the Catholic world

**Spirits of the Space Age** Kelly E. Hayes, 2024 Since its inauguration in 1960 Brazil's capital city Brasília has become an internationally recognized center for eclectic forms of modern mysticism Among the dozens of New Age Spiritist esoteric and occult communities that have sprouted in the city and its environs the most spectacular is the Valley of the Dawn Vale do Amanhecer Equal parts religious movement enchanted city utopian vision and

*Technocrats and the Politics of Drought and Development in Twentieth-Century Brazil* Eve E. Buckley, 2017-07-28 Eve E Buckley's study of twentieth century Brazil examines the nation's hard social realities through the history of science focusing on the use of technology and engineering as vexed instruments of reform and economic development Nowhere was the tension between technocratic optimism and entrenched inequality more evident than in the drought ridden Northeast sert o plagued by chronic poverty recurrent famine and mass migrations Buckley reveals how the physicians engineers agronomists and mid level technocrats working for federal agencies to combat drought were pressured by politicians to seek out a technological magic bullet that would both end poverty and obviate the need for land redistribution to redress long standing injustices Scientists planned and oversaw huge projects including dam construction irrigation for small farmers and public health initiatives They were Buckley shows sincerely determined to solve the drought crisis and improve the lot of poor people in the sert o Over time however they came to the frustrating realization that despite technology's tantalizing promise of an apolitical means to end poverty political collisions among competing stakeholders were inevitable Buckley's revelations about technocratic hubris the unexpected consequences of environmental engineering and constraints on scientists as agents of social change resonate with today's hopes that science and technology can solve society's most pressing dilemmas including

climate change      **Movement Or Market?** Millie Thayer, 2009-10-16 This ethnographic study examines the transnational relations among feminist movements at the end of the twentieth century exploring two differently situated women's organizations in the Northeast Brazilian state of Pernambuco This book takes what some have called global civil society as its object moving beyond both dire predictions and euphoric celebrations to understand how transnational political relationships are constructed and sustained across social and geographical divides It also provides a compelling case study for use in advanced undergraduate and graduate courses in globalization gender studies and social movements      *Handbook of Contemporary Religions in Brazil* Bettina Schmidt, Steven Engler, 2016-09-19 The Brill Handbook of Contemporary Religions in Brazil provides an unprecedented overview of Brazil's religious landscape It offers a full balanced and contextualized portrait of contemporary religions in Brazil bringing together leading scholars from both Brazil and abroad drawing on both fieldwork and detailed reviews of the literatures For the first time a single volume offers overviews by leading scholars of the full range of Brazilian religions alongside more theoretically oriented discussions of relevant religious and culture themes This Handbook's three sections present specific religions and groups of traditions Brazilian religions in the diaspora and issues in Brazilian religions e g women possession politics race and material culture      **Revolutions in Mexican Catholicism** Edward Wright-Rios, 2009-04-20 An investigation into how Catholicism was lived and experienced in the Archdiocese of Oaxaca during Mexico's turbulent late 1800s and early 1900s      **Ekklesia** Paul Christopher Johnson, Pamela E. Klassen, Winnifred Fallers Sullivan, 2018-03-13 Ekklesia Three Inquiries in Church and State offers a New World rejoinder to the largely Europe centered academic discourse on church and state In contrast to what is often assumed in the Americas the relationship between church and state has not been one of freedom or separation but one of unstable and adaptable collusion Ekklesia sees in the settler states of North and South America alternative patterns of conjoined religious and political power patterns resulting from the undertow of other gods other peoples and other claims to sovereignty These local challenges have led to a continuously contested attempt to realize a church minded state a state minded church and the systems that develop in their concert The shifting borders of their separation and the episodic conjoining of church and state took new forms in both theory and practice The first of a closely linked trio of essays is by Paul Johnson and offers a new interpretation of the Brazilian community gathered at Canudos and its massacre in 1896-97 carried out as a joint churchstate mission and spectacle In the second essay Pamela Klassen argues that the colonial churchstate relationship of Canada came into being through local and national practices that emerged as Indigenous nations responded to and resisted becoming possessions of colonial British America Finally Winnifred Sullivan's essay begins with reflection on the increased effort within the United States to ban Bibles and scriptural references from death penalty courtrooms and jury rooms she follows with a consideration of the political theological pressure thereby placed on the jury that decides between life and death Through these three inquiries Ekklesia takes up the familiar topos of church and state in order to render it strange      **Religious**
